Native Family:

Family Life in Native America James M. Volo, Dorothy Volo, 2007-10-30 This volume provides insight into the family life of Native Americans of the northeast quadrant of the North American continent and those living in the adjacent coastal and piedmont regions These Native Americans were among the most familiar to Euro colonials for more than two centuries From the tribes of the northeast woodlands came great hunters fishermen farmers and fighters as well as the most powerful and sophisticated Indian nation north of Mexico the Iroquois Confederacy *American Indians and Native Alaskans* ,1998

Voices of Color Mudita Rastogi, Elizabeth Wieling, 2005 *Voices of Color* First Person Accounts of Ethnic Minority Therapists strong is the first book to address the training academic and professional experiences of ethnic minority therapists Using real cases narratives and biographical material each chapter motivates the reader to ponder and challenge how issues related to mental health intersect with race ethnicity within a broader diversity framework The contributors represent various mental health disciplines and they all write from a systemic perspective on therapy cases theory new models and research The authors present powerful narratives of how their personal and professional experiences inform each other Mixed Heritage in the Family Carolyn Liebler, Miri Song, 2025-05-15 As interracial unions and multiracial people become more common in the United States mixed heritage people have come to be regarded by some as a bellwether of race relations in the country Is the growth of this population a sign that we are now in a post racial era and our racial identities no longer impact our daily lives In *Mixed Heritage in the Family* sociologists Carolyn A Liebler and Miri Song explore how racially mixed people navigate racial boundaries as they choose spouses and raise families Liebler and Song break new ground by being the first to combine and integrate the study of three aspects of life for people of mixed racial heritage identity spouse choice and childrearing This integrated approach reveals how complicated racial identification can be and how it can be expressed in one s choice of partner or in how one raises their children The authors draw on census data and interviews with Asian White Black White and American Indian Alaska Native White mixed people to better understand how their identity choices are related to their choice of spouse and how they racially identify and raise their children Increasingly mixed people in the United States are identifying with multiple races However the authors find that mixed race people are not a monolith and that how and why they identify varies considerably between and within each group They found several common factors that influenced whether mixed race people choose to identify as biracial solely White or solely as a racial minority These factors include the history of the specific minority race in the U S the racial demographics of where they were raised their social and cultural exposure to their White and non White backgrounds their attachment to their racial backgrounds and how they are seen racially by others The way mixed heritage people identify was closely tied to the race of their spouse However having a White spouse did not necessarily mean the mixed race person felt disconnected from their non White heritage White spouses varied in their racial consciousness and their interest in the culture of their

mixed race spouse's minority ancestry The spouse's race and the nature of racial overlap between the spouses was also key in the racial upbringing of a mixed heritage person's child In families where the parents share a minority racial heritage couples lean into their shared family race which guides their parenting choices and family life Many mixed heritage parents found it important to foster racial pride in their children and combat negative racial stereotypes Liebler and Song caution against making superficial predictions about the state of race relations in the U S based on an increase in the multiracial population They show that race has not become less salient in the lives of many mixed race people American society is not post racial Mixed Heritage in the Family breaks new ground provides compelling insights in its examination of the lives of mixed race people and shows how complicated racial identification can be

Civic Learning for Alienated, Disaffected and Disadvantaged Students Xiaoxue Kuang, Jinxin Zhu, Kerry J Kennedy, 2021-05-13 In their journeys to engaged citizenship civic education is a right for all students helping them to become active and informed However for some students there are barriers to engagement It is these barriers that are dealt with in this book Civic education is a key component of the school curriculum irrespective of country and political system Ensuring that young people understand the political and social contexts of their country and indeed their planet is a key requirement in a rapidly changing and unpredictable world Providing access to civic learning therefore is a priority for schools and the societies in which they are embedded Yet for some students barriers exist which prevent a deep understanding of the requirements for full participation and engagement These students are neglected not

only in schools but in research as well This book seeks to fill that gap by shining a light on the multiple disadvantages that many students suffer in seeking to exercise their rights as active and informed citizens The chapters in this book were originally published as a special issue of Educational Psychology Making Native Space Cole Harris,2011-11-01 This elegantly written and insightful book provides a geographical history of the Indian reserve in British Columbia Cole Harris analyzes the impact of reserves on Native lives and livelihoods and considers how in light of this the Native land question might begin to be resolved The account begins in the early nineteenth century British Empire and then follows Native land policy and Native resistance to it in British Columbia from the Douglas treaties in the early 1850s to the formal transfer of reserves to the Dominion in 1938 Making Native Space clarifies and informs the current debate on the Native land question It presents the most comprehensive account available of perhaps the most critical mapping of space ever undertaken in BC the drawing of the lines that separated the tiny plots of land reserved for Native people from the rest Geographers historians anthropologists and anybody interested in and involved in the politics of treaty negotiation in British Columbia should read this book **Social Issues in Contemporary Native America** Hilary N.
