Donald Fixico, 2013-07-04 Currently there are three approaches to studying American Indians from how white Americans approach Indian studies from the dynamics or exchange of Indian white relations and from the Indian point of view Donald Fixico an American Indian has been teaching and writing history for a quarter of a century This book is the direct result of his experience as a scholar who thinks like an Indian in an academic environment created predominantly by non Indian thinkers This book addresses current approaches to studying Native American traditional knowledge and acknowledges an Indian intellectualism that has up until now been ignored in studying Native American history Written primarily from inside the Native world but fully cognizant of the American cultures outside of that world his unique voice speaks to a need for understanding the interior Native world a world in which linear thinking is atypical and circularity is preferable

Indigenous Peoples and the Modern State Duane Champagne, Karen Jo Torjesen, Susan Steiner, 2005-06-09

Champagne and his distinguished coauthors reveal how the structure of a multinational state has the potential to create more equal and just national communities for Native peoples around the globe Many countries still face extreme differences among ethnic groups and submerged nations leading to marginalization and violence Examining these inherent instabilities in multicultural nations such as the U S Canada Mexico and Guatemala the authors confront problems of coerced assimilation for indigenous communities whose identities predate the formation of the nation states often by thousands of years The contributors show how indigenous people seek to preserve their territory their rights to self government and their culture This book is a valuable resource for Native American Canadian and Latin American studies comparative indigenous governments constitutional law and international relations The American Indian Mind in a Linear World Donald L.

Fixico, 2024-09-27 Now in its second edition The American Indian Mind in a Linear World examines the persistence of Native peoples in retaining their own worldviews from the pre Columbian era into the twenty first century The book explores the ways in which Indian people who are close to their cultural traditions think in a circular fashion understand by relying on visual analysis and make decisions from an Indigenous logic Yet Comanches have a different reality from Mohawks Apache

ethos is not like that of the Lakotas and Indian men and women see things differently How and why is the Native mind different from the western world Why have white teachers and missionaries tried to change the minds of Native students The Indian perspective is not wrong it is simply different and inclusive another way of looking at the world and universe This edition updates the discussion with a new chapter on contemporary American Indian intellectualism and further analysis of the preservation of Indigenous traditional knowledge Approachable and engaging this volume is a key resource for students and scholars of Native American and Indigenous studies and Indigenous history *Native North American Biography: J-Z* Sharon Malinowski, Simon Glickman, 1996 Profiles 112 Native North Americans from the United States and Canada living and deceased prominent in fields ranging from civil rights to sports politics and tribal leadership to literature entertainment to religion science to military **A Catalogue of the Library of Bowdoin College** Bowdoin College.
