Writing Home: Representations of the Native Place in Modern Japanese Literature Stephen Dodd, 2020-03-17 This book examines the development of Japanese literature depicting the native place furusato from the mid Meiji period through the late 1930s as a way of articulating the uprootedness and sense of loss many experienced as Japan modernized The 1890s witnessed the appearance of fictional works describing a city dweller who returns to his native place where he reflects on the evils of urban life and the idyllic past of his childhood home The book concentrates on four authors who typify this trend Kunikida Doppo Shimazaki T son Sat Haruo and Shiga Naoya All four writers may be understood as trying to make sense of contemporary Japan Their works reflect their engagement with the social intellectual economic and technological discourses that created a network of shared experience among people of a similar age This common experience allows the author to chart how these writers works contributed to the general debate over Japanese national identity in this period By exploring the links between furusato literature and the theme of national identity he shows that the debate over a common language that might transparently express the modern experience helped shape a variety of literary forms used to present the native place as a distinctly Japanese experience

Ben-zvi, 2018-01-02 Histories of rights have too often marginalized Native Americans and African Americans Addressing this lacuna Native Land Talk expands our understanding of freedom by examining rights theories that Indigenous and African descended peoples articulated in the eighteenth and nineteenth centuries As settlers began to distrust the entitlements that the English used to justify their rule the colonized and the enslaved formulated coherent logics of freedom and belonging By anchoring rights in nativity they countered settlers attempts to dispossess and disenfranchise them Drawing on a plethora of texts including petitions letters newspapers and official records Yael Ben zvi analyzes nativity s unsettling potentials and its discursive and geopolitical implications She shows how rights were constructed in relation to American African and English spaces and explains the obstacles to historic solidarity between Native American and African American struggles
