Native American cultural resource studies at Yucca Mountain, Nevada Richard W. Stoffle, 1990-02 **Native American Cultural Resource Studies at Yucca Mountain, Nevada** Richard W. Stoffle, 1990 The Tainted Desert Valerie L. Kuletz, 2016-04-29 For decades nuclear testing in America's southwest was shrouded in secrecy with images gradually made public of mushroom clouds blooming over the desert. Now another nuclear crisis looms over this region: the storage of tens of thousands of tons of nuclear waste. Tainted Desert maps the nuclear landscapes of the US inter desert southwest, a land sacrificed to the Cold War arms race and nuclear energy policy **Yucca Mountain Site Characterization Project Bibliography, 1992-1993**, 1994 Underground Exploration and Testing at Yucca Mountain United States. Nuclear Waste Technical Review Board, 1993 **Going Beyond** Marie-Theres Albert, Francesco Bandarin, Ana Pereira Roders, 2017-09-18 This volume looks at sustainable protection and sustainable use of cultural and natural heritage particularly in view of the current challenges of the 21st century. For more than 40 years the World Heritage Convention has regulated the protection of the cultural and natural heritage of humankind; particularly in that heritage shall be protected if it is threatened by modern development. The international community has also adopted sustainability and sustainable development as objectives to facilitate the protection of cultural and natural heritage. Sustainable heritage protection and use must therefore be preserved in the face of the global challenges it faces and must be perceived in terms of societal, political, and corresponding economic paradigms *Nevada Test Site (NTS) and Off-site Locations in the State of Nevada, Tonopah Test Range, Portions of the Nellis AFB Range (NAFR) Complex, the Central Nevada Test Area, and Shoal Area, Nye County*, 1996 High-altitude Archeological Investigations at Cedar Breaks National Monument, Utah Timothy W. Canaday, 2001 **North American Indians** Alice Beck Kehoe, 2017-10-03 Written in an easy-to-read narrative format, this volume provides the most comprehensive coverage of North American Indians from earliest evidence through 1990. It shows Indians as a people with history and not as primitives, covering current ideological issues and political situations including treaty rights, sovereignty, and repatriation. A must-read for anyone interested in North American Indian history. This is a comprehensive and thought-provoking approach to the history of the native peoples of North America, including Mexico and Canada, and their civilizations. Ford, 1994-01-01 Nature and Status, published in 1978, is still a standard text of the discipline with classic papers exploring theoretical issues, principles of plant utilization, prehistoric economics, and more. A reprint of this watershed volume includes all these classic papers, a new 30-page introduction by Ford, and pages of new references **Yucca Mountain Site Characterization Project Bibliography, July-December 1992**, 1993 *Equity Home Bias in International Finance* Kavous Ardalan, 2019-05-17 This book provides a comprehensive and critical analysis of research outcomes on the equity

home bias puzzle that people overinvest in domestic stocks relative to the theoretically optimal investment portfolio It introduces place attachment the bonding that occurs between individuals and their meaningful environments as a new explanation for equity home bias and presents a philosophically multi paradigmatic view of place attachment For the first time a comprehensive and up to date review of the extant literature is provided demonstrating that place attachment is a contributing factor to 22 different topics in which variations of home bias are present The author also analyses the social psychological underpinnings of place attachment and considers the effect of multi culturalism on the future of equity home bias The book s unique approach discusses the issues in conceptual terms rather than through data and statistical methods This multi and inter disciplinary book is an invaluable resource for graduate students and researchers interested in economics finance philosophy and or methodology introducing them to a new line of research
