How To Plant a California Native Garden Tom Molanphy, 2012-02-05 ABOUT THE BOOK Before going into the steps for planting a California native garden I ll first answer a more basic question Why plant a California native garden Then I ll tell you step by step exactly how to do it If you re interested in saving money helping the environment and adding beauty to your life then please keep reading MEET THE AUTHOR Tom teaches creative writing composition and journalism at the Academy of Art University Besides tending to his own California native garden he enjoys hiking and home brewing EXCERPT FROM THE BOOK Once you ve consulted with your local nursery on the best matches for your soil drainage and sunlight it s time to plant your natives Remember this rule do not overplant It s very tempting for beginning gardeners to stuff a space full of native flowers shrubs and bushes But most of the work happens underground and natives need room for their roots to spread and grow as well as some space for air to circulate Also natives grow at different rates and to different sizes For example the gorgeous and fragrant flowers of the hummingbird sage will definitely have your garden humming with their namesake but the plant grows fast and can overrun an area extremely quickly Most beginning native gardeners will be planting from pots not from seed so be sure to break up the root ball If the native has been sitting in a pot for awhile you ll need to loosen the soil around the roots and the roots themselves to encourage growth Buy a copy to continue reading

Native to the Nation Allaine Cerwonka, 2004 In a world increasingly marked by migration and dislocation the question of displacement and of establishing a sense of belonging has become ever more common and ever more urgent But what of those who stay in place How do people who remain in their place of origin or ancestral homeland rearticulate a sense of connection of belonging when ownership of the territory they occupy is contested Focusing on Australia Allaine Cerwonka examines the physical and narrative spatial practices by which people reclaim territory in the wake of postcolonial claims to land by indigenous people and new immigration of foreigners As a multicultural postcolonial

nation whose claims to land until recently were premised on the notion of the continent as empty terra nullius Australia offers an especially rich lens for understanding the reterritorialization of the nation state in an era of globalization To this end *Native to the Nation* provides a multisited ethnography of two communities in Melbourne the Fitzroy Police Station and the East Melbourne Garden Club allowing us to see how bodies are managed and nations physically constructed in everyday confrontations and cultivations Allaine Cerwonka is assistant professor of women s studies and political science at Georgia State University
