The Paths Of Heaven: The Evolution Of Airpower Theory: The School Of Advanced Airpower Studies Philip S. Meilinger,2000 *Government's Greatest Achievements* Paul C. Light,2010-12-01 In an era of promises to create smaller more limited government Americans often forget that the federal government has amassed an extraordinary record of successes over the past half century Despite seemingly insurmountable odds it helped rebuild Europe after World War II conquered polio and other life threatening diseases faced down communism attacked racial discrimination reduced poverty among the elderly and put men on the moon In *Government's Greatest Achievements* Paul C Light explores the federal government's most successful accomplishments over the previous five decades and anticipates the most significant challenges of the next half century While some successes have come through major legislation such as the 1965 Medicare Act or large scale efforts like the Apollo space program most have been achieved through collections of smaller often unheralded statutes Drawing on survey responses from 230 historians and 220 political scientists at colleges and universities nationwide Light ranks and summarizes the fifty greatest government achievements from 1944 to 1999 The achievements were ranked based on difficulty importance and degree of success Through a series of twenty vignettes he paints a vivid picture of the most intense government efforts to improve the quality of life both at home and abroad from enhancing health care and workplace safety to expanding home ownership to improving education to protecting endangered species to strengthening the national defense The book also examines how Americans perceive government's greatest achievements and reveals what they consider to be its most significant failures America is now calling on the government to resolve another complex difficult problem the defeat of terrorism Light concludes by discussing this enormous task as well as government's other greatest priorities for the next fifty years **Assembly** West Point Association of Graduates (Organization).,2007 *NATO's*

The Myth of the Nuclear Revolution Keir A. Lieber, Daryl G. Press, 2020-06-15 Leading analysts have predicted for decades that nuclear weapons would help pacify international politics The core notion is that countries protected by these fearsome weapons can stop competing so intensely with their adversaries they can end their arms races scale back their

alliances and stop jockeying for strategic territory But rarely have theory and practice been so opposed Why do international relations in the nuclear age remain so competitive Indeed why are today s major geopolitical rivalries intensifying In *The Myth of the Nuclear Revolution* Keir A Lieber and Daryl G Press tackle the central puzzle of the nuclear age the persistence of intense geopolitical competition in the shadow of nuclear weapons They explain why the Cold War superpowers raced so feverishly against each other why the creation of mutual assured destruction does not ensure peace and why the rapid technological changes of the 21st century will weaken deterrence in critical hotspots around the world By explaining how the nuclear revolution falls short Lieber and Press discover answers to the most pressing questions about deterrence in the coming decades how much capability is required for a reliable nuclear deterrent how conventional conflicts may become nuclear wars and how great care is required now to prevent new technology from ushering in an age of nuclear instability

Spechler, Martin C. Spechler, Serdar Ş. Güner, Matteo Gerlini, Diana Morais, Samantha Turner, Katharine A. M. Wright, Ricardo Borges de Castro, Rita Barbosa Lobo, Daniel S. Hamilton, Lorenzo Somigli, Spenser A. Warren, 2022-09-01 In response to the shifting landscape of international politics the most current TPQ issue focuses on NATO's Changing Priorities We present thirteen insightful essays for our Summer 2022 edition from prominent figures in academia journalism and nongovernmental organizations Ten of these articles address the changing priorities of NATO in more general terms while three others take this phenomenon in light of the effects of the most recent Russian invasion of Ukraine Several significant new difficulties for the global order emerged in the wake of the Russian invasion NATO has proposed a new Strategic Concept which was emphasized at its most recent Summit in Madrid in response to these fresh concerns TPQ explores not just the potential of this recent significant document but also examines the more considerable consequences of it on the global stage Transatlantic Policy Quarterly's publication interests have always been significantly inspired by the Alliance's agenda We hope that by concentrating on NATO's Changing Priorities in our Summer 2022 issue we will be able to better inform our readers about the shifting framework of international relations Carmen Romero provides an exciting overview of the recent Strategic Concept outlined by NATO in its Madrid Summit She correctly draws attention to the novelty of this novel idea in light of the circumstances surrounding its revelation Additionally she thinks that the important choices made at the Summit will guarantee that NATO keeps adapting and protecting its members in an increasingly dangerous and competitive world An overview of these choices is given in this article within the framework of the Alliance's increasingly erratic security environment E Fuat Keyman highlights that the NATO summit in Madrid was significant and essential but it wasn't enough To support his claim he thoroughly examines NATO's new strategic concept its crucial significance its transformational impact and the six obstacles it confronts As NATO today finds itself in a period of strategic rivalry in his opinion the organization's most recent Strategic Concept reflects a very different threat environment It acknowledges for the first time that the Euro Atlantic region is not at peace but instead that strategic rivalry and general instability threaten regional security Ahmet O Evin offers a careful method that considers contextual circumstances According to him NATO now looks to be taking on the role of a champion for both the liberal order and the shared principles of the transatlantic Alliance Moreover he also focuses on the longer term effects of the shifting dynamics in international events on ordinary individuals by saying that unhappiness brought on by the stagnant economy the growing cost of living and perhaps energy shortages may be expected to expand the ranks of those opposed to the war and its effects on the quality of life in Europe We encourage you to find out more about the elements that make up NATO's Changing Priorities **Subject Guide to Books in Print** ,1991

Entangled Emancipation Alexandria N. Ruble,2023-11-01 In 1900 German legislators passed the Civil Code a controversial law that designated women as second class citizens with regard to marriage parental rights and marital

property Despite the upheavals in early twentieth century Germany the fall of the German Empire after the First World War the tumultuous Weimar Republic and the destructive Third Reich the Civil Code remained the law of the land After Nazi Germany's defeat in 1945 and the founding of East and West Germany legislators in both states finally replaced the old law with new versions that expanded women's rights in marriage and the family Entangled Emancipation reveals how the complex relationship between the divided Germanys in the early Cold War catalysed but sometimes blocked efforts to reshape legal understandings of gender and the family after decades of inequality Using methods drawn from gender history and discourse analysis the book restores the history of the women's movements in East and West Germany Entangled Emancipation ultimately explores the parallel processes through which East and West Germany reimaged negotiated and created new civil laws governing women's rights after the Second World War **Allies in Air Power** Steven
