NATO and the Future of European Security Sean Kay, 1998 Tracing NATO's formative years its Cold War development and its post Cold War evolution Sean Kay draws on his policy experience in Brussels and Washington to provide unique insights into contemporary policy challenges including NATO's outreach to the East and its Partnership for Peace peacekeeping and the future of the Balkans enlargement and the role of Russia in Europe NATO's internal military adaptation and the future of the transatlantic relationship Kay argues that although NATO has evolved to some degree it remains an institution dependent upon the United States with uncertain long term prospects for playing a constructive role in Europe Indeed the author shows that if not implemented carefully NATO enlargement may actually decrease rather than increase stability in the region

NATO's Future Stanley R. Sloan, 1995-09 Examines the role of the U.S. in NATO The author finds the sources of many current problems and singles out two basic weaknesses the failure of the European NATO Allies to form a European defense community and the parallel U.S. decision to rest NATO's defense on U.S. nuclear forces Suggests some directions for NATO strategy force posture arms control policies and East West relations Photos tables and figures Glossary Index **The Future of European Security** Western European Union. General Affairs Committee, 1989 **Evolution of NATO and Development of a New European Security System** Giuseppe Piliario, 1998 Since the fall of the Berlin Wall the security architecture in Europe has substantially changed For many the end of the Cold War reflected a possible end of NATO's existence The prediction of NATO's inevitable demise has so far been wrong NATO is still in good shape but the NATO of yesterday does not exist anymore The Alliance has been downsized reorganized redeployed and regenerated under a different concept To summarize the organization has undertaken a double process of adaptation internally and externally

Internally NATO military forces have reduced their size and readiness improved their mobility flexibility and adaptability to different contingencies and relied on a greater use of multinational formations In addition an agreement on a new command structure that foretells a reduction from 65 headquarters at present to 20 has been reached Externally NATO has opened itself to the East by creating at first the North Atlantic Cooperation Council and in 1994 the Partnership for Peace program In addition the Alliance has remained open to membership of other European countries To date twelve nations have asked to join NATO and three have already signed the Protocols of Accession In the meantime the European Union Member States reactivated the Western European Union WEU in an effort to establish a European Security and Defense Identity In 1996 the WEU was given permission to conduct its own military missions using NATO assets through the concept known as Combined Joint Task Force These decisions have created the conditions for a valid European defense system Now the question is to identify a more suitable equilibrium between the two pillars of the Atlantic Alliance American and European Equilibrium that is essential for the future of European and U S relations
