Natos Mediterranean Initiative Policy Issues And Dilemmas:

NATO's Mediterranean Initiative F. Stephen Larrabee,1998 NATO Review ,1990 **Recasting NATO's Strategic Concept** Christopher S. Chivvis,2009 The revision of the North Atlantic Treaty Organization s strategic concept offers an excellent opportunity to build an alliance capable of addressing the shared problems that its member states face To spur debate over concrete problems this paper examines five possible future directions for the alliance **NATO's Security Discourse After the Cold War** Andreas Behnke,2013 This book provides a critical investigation into the discursive processes through which the North Atlantic Treaty Organisation NATO reproduced a geopolitical order after the end of the Cold War and the demise of its constitutive enemy the Soviet Union Dividing Africa with Policy Lara Hierro,2020-06-08 This book addresses timely concerns of rising African nationalism and the 2nd decolonisation in Africa The wholesale rejection of all things considered Western is seen to be a result of integrationalism defined as the specific kind of methodology by which EU foreign policy engagement may be interpreted Using complexity theory and panarchy a specific arrangement of interacting complex adaptive systems together with a resilience assessment the EU s foreign policy is shown to be undermining the aims of the premier African institution the AU created to provide unity and security on the continent the EU pursues these objectives in its own image rather than honouring African values This book raises awareness of these issues as well as to widen the application of the theoretical framework in international relations and politics which is becoming increasingly important in a complex world The aim of this book is to show that the negative isolationism pursued in order to counteract western influence is not the answer and can be avoided through this awareness Countering the Proliferation of Weapons of Mass Destruction Thanos P Dokos,2020-07-24 As counter proliferation is expected to become the central element in the new national security policy of the US such actions will constitute a central element of every major international conflict in the first decades of the 21st century One of the most important geostrategic phenomena of the past decade has been the extraordinary diffusion of war making capabilities from the developed North to the developing South In the eyes of some proliferant states possessing nuclear biological and chemical NBC weapons would not only add to their regional stature but would also offer an asymmetrical counter to the West s massive superiority in conventional forces In the Eastern Mediterranean and the Middle East a number of countries are assumed to possess varying levels of NBC weapons capabilities Reasons for concern include the fact that such weapons have been used in the past the region s geographic proximity to Europe and the vital interests of the West which is prepared under certain circumstances to use force to protect them the multiplicity of conflicts and other security problems and the general instability in the region including the spread of religious extremism This important and timely book assesses in detail the accuracy of predictions and perceptions about a possible military threat from the Southern Mediterranean Muslim world and their impact on NATO s political and military posture Thanos P Dokos presents an assessment of the Alliance s options for dealing with the problem This book represents

an invaluable topical resource for researchers and policy makers

Transnational Islam and Regional Security Frederic Volpi, 2013-09-13 This volume investigates the impact of a new brand of transnational terrorism and political violence produced by radical Islamist groups from the Maghreb on the regional security dynamics It describes the causes of the problems and the strategies devised by European and North African states in order to address it and details the successes and failures of co operation between states and society on both shores of the Mediterranean Investigating the grand security strategies that have been devised for the Mediterranean after the Cold War and after 9 11 the contributors focus on the role of police and military apparati in securitizing the new threats that have become prominent after 9 11 and the unintended consequences of these strategies In addition the contributors analyze the relationship between Islamist groups the state and society and highlight some key causes of political violence and radicalism They outline how a better use of the law migration and intercultural dialogue might provide useful alternatives or complements to the mostly securitarian strategies that are currently dominant in the region

Twenty Years of Euro-Mediterranean Relations Richard Youngs, 2017-10-02 The creation of the Euro Mediterranean Partnership in 1995 was seen at the time as a forward thinking foreign policy which would strengthen ties between Europe and the Mediterranean Arab states Since that time however almost none of this initial ambition has been translated into positive successful policy Twenty years on from the creation of the Euro Mediterranean Partnership now the Union for the Mediterranean this book collects some of the most influential articles published in the Mediterranean Politics journal since 1995 and suggests what these articles tell us about the state of relations between Europe and the Middle East The selection of articles gives a sense of the way in which analytical debate has changed in the journal s lifetime a lifetime which has seen the journal at the forefront of academic study on a variety of issues in the Mediterranean region As such the selection is naturally a reflection of the different periods from which the articles are taken and taken together they paint a picture of how the Euro Mediterranean partnership has

been reshaped over time Perspectives on Development: the Euro-Mediterranean Partnership George Joffe, 2023-05-09
The Euro Mediterranean Partnership Initiative launched by the Barcelona Conference in 1995 is the most ambitious project to date directed at comprehensive prosperity and security in the Mediterranean region Yet the assumptions on which it is based are untried and untested This study seeks to analyse what they are and to draw some conclusions as to the potential of the Initiative for success by comparing it with other experiences of regional development **European-American Relations and the Middle East** Victor Mauer, Daniel Möckli, 2010-10-18 This book examines the evolution of European American relations with the Middle East since 1945 Placing the current transatlantic debates on the Middle East into a broader context this work analyses how why and to what extent European and US roles interests threat perceptions and policy attitudes in the region have changed relating to both the region as a whole and the two main issues analysed Gulf Security and the Arab Israeli Conflict The contributors then go on to discuss the implications of these developments for Western policymaking The volume makes four key contributions First it examines the subject matter from a truly transatlantic perspective with all chapters adopting a bi or multilateral approach taking into account the views from both the US and individual European countries or the EC EU collectively Second the book takes a long term view covering a series of crises and developments over the past six decades Third it has a systematic structure with the predominantly chronological order of the chapters being geared towards depicting trends and evolutions with regard to the key themes of the book Finally the book builds bridges between historians and political scientists analysts as well as between experts of transatlantic relations and Middle East scholars This book will be of great interest to students of transatlantic relations the Middle East US foreign policy European politics international history and IR in general Daniel M ckli is a Senior Researcher at the Center for Security Studies CSS ETH Zurich He is also the editor of CSS Analyses in Security Policy Victor Mauer is Deputy Director and Head of Research of the Center for Security Studies CSS ETH Zurich and Lecturer in the Department of Social Sciences and Humanities at ETH Zurich *NATO Review* ,1998 *A Changing Turkey* Heinz Kramer, 2001-08-07 Turkey is a longstanding ally of the United States and Europe After the demise of the Soviet empire Turkey s strategic importance has changed but not diminished Today Turkey is facing a completely different foreign and security policy environment However Turkey is also undergoing extraordinary internal change Many established political truths of the Republic s seventy five year long tradition are increasingly questioned by a growing part of its people Above all there is the rise of political Islam and the ensuing clash of ideologies between secularists and Islamists as well as the debate about Turkey s Kurdish reality Turkey s allies will have to respond to this development by adapting their policies Nothing less than a re evaluation and eventually a re orientation in relations with both the United States and Europe is required if Turkey is to remain anchored in the West This book undertakes a comprehensive overview and analysis of Turkey s internal and external changes and provides elements of a new European and American policy toward a key strategic partner *The European Union in the Security of Europe* Steve

Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment. In this new and comprehensive guide to the EU's role in security since the end of the Cold War, the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region. However, the Union's rhetorical ambitions and commitments continue to outstrip its capabilities, and it lacks both a common conceptualisation of security and a meaningful shared strategic culture. Drawing extensively on primary sources, the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities. With the EU capacity for enlargement slowing, this text presents a detailed assessment of EU security policies towards Central Europe, the Mediterranean, the Western Balkans, Eastern Europe, and South Caucasus. **European Union Security** will be of interest to students and scholars of the EU, security studies, and international relations.

Trans-Atlantic Tensions Richard N. Haass, 2010-12-01 Americans and Europeans are divided by more than an ocean when it comes to designing and carrying out policies toward countries that repress human rights, develop weapons of mass destruction, and/or support terrorism and subversion. Accounting for this divide are distinct interests, domestic politics, and above all, profound disagreements between Americans and their counterparts in European capitals and Brussels over what tools of foreign policy—sanctions, engagement, military force, or empty promises to change the behavior of problem countries—The result is that Americans and Europeans often work at cross purposes, and that disagreements over policy toward problem countries threaten both to undermine efforts that promote desired change and transatlantic cooperation in other areas, be it within Europe or in building an open world trading system. This book examines the problem countries of Cuba, Iran, Iraq, Libya, and Nigeria. The authors explain sources of American and European differences, consequences for policies designed to influence problem states, and prospects for bridging transatlantic policy rifts. A conclusion by Richard N. Haass places these differences in perspective and suggests what Europe and the United States need to do to ameliorate this tension and what could transpire if they do not.

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003. This work provides a clearer understanding of the EU's approach towards security in the Mediterranean. After examining the EU's interests and the potential threats to security in the region, it analyzes EU security policy towards the region as a whole through the Euro-Mediterranean Partnership and towards all disputes and conflicts in the area. It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores. The book argues that this way the EU could implement its innovative, comprehensive, and co-operative approach to security. Rather than focusing on the military aspect alone, this approach takes into account all dimensions of security: political, socio-economic, cultural, and ecological, and is based on partnership rather than confrontation. It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy.

The European Union and Democracy Promotion Richard

Gillespie, Richard Youngs, 2025-09-12 The European Union and Democracy Promotion 2002 offers a critical assessment of the strategy upon which the EU promotion of democracy and human rights activity has been based along with an analysis of its strengths and weaknesses Contributors from a variety of European and North African countries show how the obstacles to political change in Algeria Morocco Tunisia and Egypt are not only to be found within these countries but also in EU member states such as France and Spain The Middle East in 2015 , **Transatlantic Trends in Democracy Promotion** Rouba Al-Fattal Eeckelaert, 2016-02-24 How did the EU US and Canada decide and implement their electoral assistance in the Palestinian Territories PT Why did the EU the US and Canada embark on assisting the elections in the PT and what factors influenced their electoral assistance What lessons can be learned for other countries approaching elections after a long period of conflict This book answers these questions and charts the process of electoral assistance with an in depth analysis of each transatlantic actor s electoral assistance in the PT It shows that despite the many institutional and operational differences between the EU the US and Canada the three actors do share common interests and influencing factors which often unify their response The book also reveals the limitations facing electoral assistance and the implications of this on the sustainability clarity consistency and responsiveness of the policy In this systematic comparative analysis of European American and Canadian efforts to assist elections and transform governance in conflict zones Rouba Al Fattal greatly advances the empirical knowledge of electoral assistance and provides the first steps needed to reform electoral assistance policy to cope with the challenges of the twenty first century **Spain** Richard Gillespie, Richard Youngs, 2013-09-27 This volume assesses the evolution of Spain s external relations during the 1990s within and beyond Europe and assesses the principal challenges facing the country at the beginning of the twenty first century The coincidence of several crucial global and European developments has had a profound effect on Spain Adjustment of the economy and changes in foreign policy perspectives have become unavoidable In turn Spain as an increasingly self confident member of the EU has itself become a significant actor in European level developments Spain s relationship with Europe and the wider world is increasingly balanced between new constraints and new opportunities for international influence
