Health Aide State Requirements for Home Health Aides Conclusion Author Bio Introduction Each of us is growing older with  
every passing moment and most of us subconsciously have a nagging worry about who is going to take care of us when we  
get old or when we are sick Women far more than men dread the idea of growing old That is because they subconsciously  
have the fear that there will be nobody to take care of them then they grow comparatively old and helpless The first  
adjustment to this idea comes in middle age with its foreshadowing of old age This is when middle aged people begin to think  
about the next stage of life If a woman has devoted her life to being the center of her family she may look ahead fearfully to  
the days to come when her children will be adults and will have flown the nest If she has a happy married life she knows that  
she has her partner who is going to grow old with her But unfortunately sometimes it just happens that homes break up and  
many people find themselves approaching middle age and future old age in loneliness That is when they begin to take good  
care of their finances so that they have enough of money which they can utilize when they are old Among all the  
impermanent and threatening shadows of the days to come a woman may have before her the example of some cantankerous  
old lady who has become an unloved and unwelcome burden to her children demanding and less attention from some already  
hard pressed daughter in law or daughter And this condition worsens if that person is ill In the East where the idea of  
sending parents to an old age home is still something of which one thinks of with loathing and abhorrence nursing of the  
eldest generation is done at home Affluent families keep home nurses who are professional Other not so affluent families take  
care of the elders not because it is their duty but because it is part of the Eastern and Oriental social fabric coming down the  
ages However this idea is slowly being eroded in many cities because the children are more bothered about making money  
instead of giving proper care to their elders The elders also try their best to keep away from under the children s feet and

make sure that they are financially secure The day of the joint family is slowly and steadily disappearing when the younger generations used to take care of the older generations It is often said by Easterners that in many countries in the West they have lost the sense of filial duty which still exists in so many Latin and Eastern countries This is where old people are respected and taken into their children s homes Westerners are often accused of heartlessness because so often they send their parents away to live the rest of their lives in an old peoples home This may be right but one cannot generalize *The Everyday Ailments Natural Remedy Guide* HEBooks, Tired of Suffering Through Everyday Ailments Without Real Solutions Say goodbye to colds knee pain allergies and fatigue naturally The Everyday Ailments Natural Remedy Guide is your ultimate handbook for reclaiming your health with proven herbal remedies and simple natural solutions Packed with easy to follow tips this guide empowers you to tackle life s most common discomforts safely effectively and without expensive medications Discover the power of nature to heal what ails you and feel better starting today Your Body Deserves Better Your Answers Are Inside Herbal Remedies and Medicinal Plants Encyclopedia Aiyana A.
