New Design In Jewelry:

New Design in Jewelry Donald J. Willcox, 1970 **Seaman Schepps** Amanda Vaill, Janet Zapata, 2004-09-01 Seaman Schepps was an immigrant's son from New York's Lower East Side; he rose to prominence in the 1930s by creating designs that defied all previous ideas of what jewelry should look like. Witty, even outrageous and wildly flattering, Schepps's jewelry stood for style more than wealth. Featured on the covers of *Vogue*, *Harper's Bazaar*, *Look*, and other magazines, it appealed to an enormous range of clients from the Duchess of Windsor to Andy Warhol.

Making Art With Generative AI Tools Hai-Jew, Shalin, 2024-04-01 In the dynamic realm of generative artificial intelligence (AI), the fusion of human creativity and machine intelligence has created a vibrant ecosystem of collaborative artmaking. However, this transformative process brings forth a myriad of concerns ranging from ethical considerations and the need for originality to navigating the legal complexities surrounding intellectual property. As more and more online communities appear around the use of AI to aid in the creation of images, there arises a pressing need for a comprehensive guide that not only dissects the intricacies of artmaking with generative AI tools but also offers practical solutions to the evolving dilemmas faced by artists, researchers, and technologists. *Making Art With Generative AI Tools* emerges as an exploration of the challenges posed by this intersection of human expression and artificial intelligence. Artists engaging with generative AI find themselves grappling with issues of authenticity, social toxicity, and the commercial viability of their creations. From avoiding stereotypical visuals to ensuring proper crediting, the realm of generative AI is rife with these complexities. Furthermore, the blurred lines between human and machine authorship necessitate a deeper exploration of how these innovative tools impact creativity, representation, and the very fabric of the art world.
