**New Directions 1980-1987**, 1987      **The Modern in Southeast Asian Art** T.K. Sabapathy, Patrick Flores, 2023-05-12  
Who spoke of the modern in Southeast Asia When and where was the modern written How was it written How was it received  
This collection brings together nearly 300 texts that were originally published between the late 19th to late 20th centuries  
selected by a group of scholars as responses to questions such as these The texts were produced chiefly in various locations  
in the region by artists critics historians and curators in 11 languages many of which had never before been translated into  
the English language Years in the making this publication is the first to present such breadth and depth of art writing in the  
region of Southeast Asia and will be a valuable resource to students teachers scholars and those interested in Southeast  
Asian studies and art history Looking from inside the region the rich fecundity of art discourses becomes clear if for example  
we compare the 1843 text by Raden Saleh from what is now Indonesia with the 1946 text of S Sudjojono allowing a historical  
grasp of modernity from two of its original texts or across the region to the 1971 text on Malaysia by Piyadasa The tyranny of  
physical cultural and temporal separation are thus overcome It is to the great credit of the editors that they have enabled this  
for us and this work will be a basic art historical reference both inside and beyond the region for some time to come John  
Clark Emeritus Professor of Art History University of Sydney Needed now more than ever this collection opens up new  
worlds in the guise of a region called Southeast Asia Each carefully selected text offers a new point of access to thinking  
through across beyond and with the elusive idea of the modern A signal achievement this volume is both a rich introduction  
to the region as well as a vital resource for anyone genuinely committed to art histories that generate new spaces rather than  
settle for existing realms Joan Kee Professor History of Art University of Michigan      **The Art of Sukumar Bose** Venka  
Purushothaman, 2013-11-06 To commemorate the centenary of artist Sukumar Bose 1912 1986 this book attempts to take an  
incisive look at the artist his works and the context of his art production in South and Southeast Asia Bose s art varied from  
the traditional to the decorative and ornamental with a hint of the Oriental flavour His work demonstrated traces of the  
Bengal School styles of Abanindranath Tagore and AR Chughtai Be it figurative landscape or abstract Bose s art synthesized  
the decorative elements of Indo Persian miniatures with Chinese and Japanese techniques In this context his vision and  
passion were inspired by traditional art forms including Ajanta Rajput and Mughal miniatures His incisive observations of life  
people and cultures during colonial and postcolonial India and his later sojourn into Southeast Asia emerge as both a  
contested yet seamless narrative of history and hope in his art This book is the first of its kind to document and give a critical  
overview of Sukumar Bose      Singapore National Bibliography, 1987      **Heritage and Contemporary Values** Arun
