Racism is based on the premise that race and racism are well entrenched elements of US society The contributors of this volume argue that race and racism are more than mere concepts instead they see and treat these as part of the fabric that constitutes and organizes everyday life Consequently race and racism are maintained through structures such as social institutions e g schools criminal justice system media etc and are carried by individual actors through racial ideologies and a racial etiquette beliefs practices traditions and customs that inform how people relate to and interact with one another or not As expressed throughout this book the notion of living racism is twofold On the one hand living racism denotes the ways in which racism is embodied and active much like a living organism On the other hand living racism connects with the ways that people must navigate racism in their individual and collective lives *Young Men's Work Facilitator's Guides - Item 1751* ,

Women Poets, Male Publishers Lise Jaillant, 2025-03-17 We are often told that the women's movement of the 1960s and 1970s led to the rediscovery of forgotten women writers Without feminist presses such as Virago these women would have sunk into obscurity Thanks to Carmen Callil and other trailblazing feminist publishers a canon of women's literature emerged and living writers managed to survive and sometimes thrive in a literary marketplace that had so far been dominated by men Although obstacles remained the story is one of the triumphs over a misogynistic publishing industry a sector that had once sought to erase women writers of the past marginalise living authors and close the doors to any future legacy There are two problems with this oft repeated story First it focuses mainly on fiction rather than poetry founded in 1973 Virago did not start publishing poetry until the early 1980s Second it neglects the major role that conservative male publishers played in re discovering women poets in post 1960s Britain With the growing influence of the Women's Liberation movement these publishers realised that there was a growing market for poetry by women At the same time the Arts Council of Great Britain started pushing for more diversity nudging its clients to make more room for women and ethnic minorities Drawing on extensive archival work and oral history interviews this open access book pushes the boundaries of a scholarship that has focused mainly on women's poetry in relation to women's presses Archival documents show the influence of the Arts Council and the market in pushing conservative publishers towards more diversity This evolution has had long term consequences on the canon of women's poetry a canon that was largely shaped by conservative publishing houses rather than radical feminist presses

Engaging African American Males in Community Colleges Ted N. Ingram, James Coaxum, 2018-05-01 This volume dedicated to the engagement of African American males in community colleges furthers the research agenda focused on improving the educational outcomes of African American males The theme engagement also supports the anti deficit approach to research on African American males developed by renowned research scholars The true success of African American males in community colleges rests on how well these institutions engage young men into their institutions This will require community colleges to examine policies pedagogical strategies and institutional practices that alienate African American males and fosters a culture of underachievement The authors who have contributed to this volume all speak from the same script which proves that when African American males are properly engaged in an education that is culturally relevant they will succeed Therefore this book will benefit ALL who support the education of African American males It is our intent that this book will contribute to the growing body of knowledge that exists in this area as well as foster more inquiry into the achievement of African American males The book offers three approaches to understanding the engagement of African American males in community college which includes empirical research policy perspectives and programmatic initiatives

African American Males and Education T. Elon Dancy II, M. Christopher Brown, 2012-10-01 *African American Males in Education Researching the Convergence of Race and Identity* addresses a number of research gaps This book emerges at a time when new social dynamics of race and other identities are shaping but also shaped by education Educational settings consistently perpetuate racial and other forms of privilege among students personnel and other participants in education For instance differential access to social networks still visibly cluster by race continuing the work of systemic privilege by promoting outcome inequalities in education and society The issues defining the relationship between

African American males and education remain complex. Although there has been substantial discussion about the plight of African American male participants and personnel in education, only modest attempts have been made to center analysis of identity and identity intersections in the discourse. Additionally, more attention to African American male teachers and faculty is needed in light of their unique cultural experiences in educational settings and expectations to mentor and or socialize other African Americans, particularly males.

Building on Resilience Fred A. Bonner II, 2023-07-03 How do we fix the leaky educational pipeline into a conduit of success for Black males? That the issue is critical is demonstrated by the statistics that only 10% of Black males in the United States are proficient in 8th grade reading, only 52% graduate from high school within four years, and only 35 percent graduate from college. This book uniquely examines the trajectory of Black males through the educational pipeline from pre school through college. In doing so, it not only contributes significantly to the scholarship on the experiences of this population but bridges the gap between theory and practice to provide frameworks and models that will improve these young men's educational outcomes throughout their educational journeys. A compelling feature of the book is that it does not treat Black males as homogeneous but recognizes the diversity that exists among Black males in various educational settings. It demonstrates the need to recognize students' intersectionalities and individual characteristics as an essential preliminary to developing practices to improve outcomes at every educational stage. Throughout the book, contributing authors also focus on the strategies and experiences of Black males who achieve academic excellence, examining growth producing and asset based practices that can be sustained and that build upon the recognition that these males have agency and possess qualities such as resilience that are essential to their learning and development. The frameworks and models that conclude each chapter are equally commendable to K-12 educators and administrators, higher education faculty, student affairs practitioners and administrators, and policymakers for whom templates are provided for rectifying the continuing inequities of our educational system.

Staging Masculinity Carla J. McDonough, 2006-07-19 The men in plays such as Arthur Miller's *Death of a Salesman* or Sam Shepard's *True West* are often presented as universal. Little attention is given to the gender dynamics involved in the characters. This work looks at how contemporary playwrights including Miller, Shepard, Eugene O'Neill, David Mamet, and August Wilson stage masculinity in their works. It becomes apparent that male playwrights return often to the issues of troubled manhood, usually masked in other issues such as war, business, or family. The plays indicate both the attractiveness of the model of traditional masculinity and the illusive nature of this image, which all too often fractures and fails the characters who pursue it. O'Neill's play *The Hairy Ape* and the character Yank receive much attention.

The Hegemonic Male Miguel Vale de Almeida, 1996 Much revised and updated, this edition (last 1990) first discusses the trend toward democracy in the face of inequitable income distribution, debt, and violence. The remainder of the volume consists of a country by country political analysis of Latin America, including the Caribbean. Annotation copyright by Book News Inc., Portland, OR.
