New Directions In European Historiography Revised Edition

Hans M. Barstad

New Directions In European Historiography Revised Edition:

New Directions in European Historiography Georg G. Iggers, 1984-07 Impressive analytical essays on the transformation of historical studies in Europe In four impressively researched essays Georg Iggers recounts the transformation of historical studies in Europe during the twentieth century with particular emphasis on the historiography of the past fifteen years Although the book does survey a broad area of contemporary historical thought it is primarily a careful analytical examination of the methodological and theoretical reorientation of certain influential European historians The first essay discusses the emergence at German Universities during the eighteenth and nineteenth centuries of the concept of history as a scientific discipline distinct from the classical tradition of literary history and the later broad acceptance of this mode of Enquiry in the Western world Against this background Mr Iggers then considers the challenge to this mode of the political social and intellectual upheavals of the twentieth century especially after World War II The three essays following examine important attempts to develop alternate paradigms for historical study the French historians of the Annales tradition the German political historians of the 1960s the various Marxist historians of France Poland East Germany and Great Britain In despite of the frequent insistence by philosophers and theorists of history that history is not a science in contemporary terms historians themselves have striven in recent years to strengthen the quantitative aspects of historical study moving away from traditional patterns of writing and adopting methods and concepts from the systematic social sciences Mr Iggers book is an excellent introduction to these contemporary changes in historiography and in its comparative analyses itself makes a contribution to historical studies *The Many Faces of Clio* Q. Edward Wang, Franz L. Fillafer, Georg G. Iggers, 2007 Born in Germany Georg Iggers escaped from Nazism to the United States in his adolescence where he became one of the most distinguished scholars of European intellectual history and the history of historiography In his lectures delivered all over the world and in his numerous books translated into many languages Georg Iggers has reshaped historiography and indefatigably promoted cross cultural dialogue This volume reflects the profound impact of his oeuvre Among the contributors are leading intellectual historians but also younger scholars who explore the various cultural contexts of modern historiography focusing on changes of European and American scholarship as well as non Western historical writing in relation to developments in the West Addressing these changes from a transnational perspective this well rounded volume offers an excellent introduction to the field which will be of interest to both established historians and graduate students

Class and Other Identities Lex Heerma van Voss, Marcel van der Linden, 2002 With the onset of a more conservative political climate in the 1980s social and especially labour history saw a decline in the popularity that they had enjoyed throughout the 1960s and 1970s This led to much debate on its future and function within the historical discipline as a whole Some critics declared it dead altogether Others have proposed a change of direction and a more or less exclusive focus on images and texts The most constructive proposals have suggested that labour history in the past concentrated too much on

class and that other identities of working people should be taken into account to a larger extent than they had been previously such as gender religion and ethnicity Although class as a social category is still as valid as it has been before the questions now to be asked are to what extent non class identities shape working people s lives and mentalities and how these are linked with the class system In this volume some of the leading European historians of labour and the working classes address these questions Two non European scholars comment on their findings from an Indian resp American point of view The volume is rounded off by a most useful bibliography of recent studies in European labour history class gender religion and ethnicity

Israel's Past in Present Research V. Philips Long, 1999-06-30 The debate over history history writing and the scientific study of history is reaching an apex in the late twentieth century and shows no signs of abating in the near future The literature on the topic is prodigious The time is thus ripe for an anthology of essays of the sort that Professor Long has collected essays that trace the history of the issues that have fed into the debate The classic and contemporary essays presented here provide an overview and introduction to the topic bringing together the most essential of these in a handy compilation The book is organized in six sections 1 The State of Old Testament Historiography 2 Ancient Near Eastern Historiography 3 Ancient Israelite Historiography 4 Method in the Study of Ancient Israelite Historiography 5 The Historical Impulse in the Old Testament 6 The Future of Israel s Past Long s goal is to provide a context for Israelite history writing within the milieu of the ancient Near East expose the methodologies and assumptions of various approaches and perspectives on historiography and provide access to essays that examine the contribution of the Hebrew Scriptures themselves to the origins of history writing The final essay by Long points the way to future research and topics that will move the discussion forward into the next millennium Professor V Philips Long teaches Old Testament at Covenant Theological Seminary St Louis

History and Computing III Evan Mawdsley, 1990 *Storia della storiografia* , 2005 **Paul Miliukov and the Quest for a Liberal Russia, 1880-1918** Melissa Kirschke Stockdale, 1996 Paul N Miliukov was one of the most formidable intellectual and political forces of Russia s late imperial period A historian of international reputation Miliukov eventually became the principal theoretician and leader of Russian liberalism He helped found the country s first liberal political party led the party s faction in the Duma and edited an influential liberal daily In 1917 Miliukov took the lead in organizing the first Provisional Government Working tirelessly for a liberal order committed to social reform as well as political liberties and the rule of law Miliukov also strove to reconcile liberalism and nationalism championing the rights of national minorities while trying to promote the cohesion of the increasingly fragile empire Melissa Kirschke Stockdale s biography of Miliukov s life in Russia is the most comprehensive available in any language Drawing on his enormous published oeuvre and the five thousand folders of his personal archives in Moscow many never before available to Western scholars Stockdale examines Miliukov s contributions to Russian historiography liberal thought and nationality relations teases out the connections between his historical writing and his political practice and assesses his career in both a European and a Russian context In

so doing she illuminates the dilemmas involved in constructing a workable liberalism in an illiberal climate dilemmas with a startling contemporary relevance The Creation of History in Ancient Israel Marc Zvi Brettler,2002-11 Argues that the biblical historians were influenced by typology interpretation of earlier texts satire and ideology shows how with this model we can put together a history of ancient Israel using the Hebrew Bible as a key source **Narration and Explanation** ,2021-11-15 *Research Methodology In History* Tej Ram Sharma,2001 *Historical Archaeology* Pedro Paulo A. Funari,Martin Hall,Sian Jones,2013-03-07 Historical Archaeology demonstrates the potential of adopting a flexible encompassing definition of historical archaeology which involves the study of all societies with documentary evidence It encourages research that goes beyond the boundaries between prehistory and history Ranging in subject matter from Roman Britain and Classical Greece to colonial Africa Brazil and the United States the contributors present a much broader range of perspectives than is currently the trend **The Second Generation** Andreas W. Daum,Hartmut Lehmann,James J. Sheehan,2015-12-01 Of the thousands of children and young adults who fled Nazi Germany in the years before the Second World War a remarkable number went on to become trained historians in their adopted homelands By placing autobiographical testimonies alongside historical analysis and professional reflections this richly varied collection comprises the first sustained effort to illuminate the role these men and women played in modern historiography Focusing particularly on those who settled in North America Great Britain and Israel it culminates in a comprehensive meticulously researched biobibliographic guide that provides a systematic overview of the lives and works of this second generation Burial and Ancient Society Ian Morris,1987 This study of the changing relationships between burial rituals and social structure in Early Iron Age Greece will be required reading for all archaeologists working with burial evidence in whatever period This book differs from many topical studies of state formation in that unique and particular developments are given as much weight as those factors which are common to all early states The ancient literary evidence and the relevant historical and anthropological comparisons are extensively drawn on in an attempt to explain the transition to the city state a development which was to have decisive effects for the subsequent development of European society **History and the Hebrew Bible** Hans M. Barstad,2008 In this collection of essays Hans M Barstad deals thoroughly with the recent history debate and demonstrates its relevancy for the study of ancient Israelite history and historiography He takes an independent stand in the heated maximalist minimalist debate on the historicity of the Hebrew Bible Vital to his understanding is the necessity to realize the narrative nature of the ancient Hebrew and of the Near Eastern sources Equally important is his claim that stories too may convey positivistic historical facts The other major topic he deals with in the book is the actual history of ancient Judah in the Neo Babylonian and Persian periods Here the author makes extensive use of extant ancient Near Eastern sources both textual and archaeological and he puts much weight on economic aspects He shows that the key to understanding the role of Judah in the 1st millennium lays in the proper evaluation of Judah and its neighbouring city states

within their respective imperial contexts A proper understanding of the history of Judah during the 6th century BCE consequently can only be obtained when Judah is studied as a part of the much wider Neo Babylonian imperial policy

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

The Benefit of Broad Horizons Hans Joas, Barbro Klein, 2010-10-25 More than perhaps anybody else in the world the Swedish social scientist Björn Wittrock has contributed both on the intellectual and institutional level to making a truly global science possible This book is devoted to an appreciation of his contributions

New Directions in European Historiography Georg G. Iggers, 1984 **Social Democracy in the Austrian Provinces, 1918-1934** Charlie Jeffery, 1995 *John Grote, Cambridge University and the Development of Victorian Thought* John Richard Gibbins, 2013-10-07 John Grote struggled to construct an intelligible account of philosophy at a time when radical change and sectarian conflict made understanding and clarity a rarity This book answers three questions How did John Grote develop and contribute to modern Cambridge and British philosophy What is the significance of these contributions to modern philosophy in general and British Idealism and language philosophy in particular How were his ideas and his idealism incorporated into the modern philosophical tradition Grote influenced his contemporaries such as his students Henry Sidgwick and John Venn in both style and content he forged a brilliantly original philosophy of knowledge ethics politics and language from a synthesis of the major British and European philosophies of his day his social and political theory provide the origins of the new liberal ideas later to reach their zenith in the writings of Green Sidgwick and Collingwood he founded the Cambridge style associated with Moore Russell Broad McTaggart and Wittgenstein and he was also a major influence on Oakshott

In Defense of History Richard J. Evans, 2000-01-17 A master practitioner gives us an entertaining tour of the historian's workshop and a spirited defense of the search for historical truth E H Carr's *What Is History* a classic introduction to the field may now give way to a worthy successor In his compact intriguing survey Richard J Evans shows us how historians manage to extract meaning from the recalcitrant past To materials that are frustratingly meager or overwhelmingly profuse they bring an array of tools that range from agreed upon rules of documentation and powerful computer models to the skilled investigator's sudden insight all employed with the aim of reconstructing a verifiable usable past Evans defends this commitment to historical knowledge from the attacks of

postmodernist critics who see all judgments as subjective Evans brings a remarkable range a nose for the archives a taste for controversy and a fluent pen The New Republic to this splendid work Essential reading for coming generations Keith Thomas

This is likewise one of the factors by obtaining the soft documents of this **New Directions In European Historiography Revised Edition** by online. You might not require more become old to spend to go to the ebook launch as with ease as search for them. In some cases, you likewise get not discover the declaration New Directions In European Historiography Revised Edition that you are looking for. It will completely squander the time.

However below, past you visit this web page, it will be suitably definitely easy to acquire as well as download lead New Directions In European Historiography Revised Edition
