[National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.), **Arabic Dialogues** Rachel Mairs, 2024-03-04. During the nineteenth century and into the early twentieth century, more Europeans visited the Middle East than ever before as tourists, archaeologists, pilgrims, settler colonists, and soldiers. These visitors engaged with the Arabic language to differing degrees. While some were serious scholars of Classical Arabic in the Orientalist mould, many did not learn the language at all. Between these two extremes lies a neglected group of language learners who wanted to learn enough everyday colloquial Arabic to get by. The needs of these learners were met by popular language books which boasted that they could provide an easy route to fluency in a difficult language. **Arabic Dialogues** explores the motivations of Arabic learners and effectiveness of instructional materials principally in Egypt and Palestine by analysing a corpus of Arabic phrasebooks published in nine languages: English, French, German, Spanish, Portuguese, Italian, Yiddish, Hebrew, Russian, and in the territory of twenty-five modern countries. Beginning with Napoleon's Expedition to Egypt (1798-1801), it moves through the periods of mass tourism and European colonialism in the Middle East, concluding with the Second World War. The book also considers how Arab intellectuals understood the project of teaching Arabic to foreigners, the remarkable history of Arabic learning among Yiddish and Hebrew-speaking immigrants in Palestine, and the networks of language learners, teachers, and plagiarists who produced these phrasebooks. **Mutual Linguistic Borrowing between English and Arabic** Ahmed Abdullah Alhussami, 2020-07-06. This book focuses on the lexical borrowing between English and Arabic and offers historical background regarding the contact between these two languages. It sheds light on why and how both languages have come in contact, showing how the hegemony of the English language can be clearly seen in its impact on Arabic. Simultaneously, the text describes the role that Arabic played in shaping and enriching English in its early phase.

The Arabic Classroom Mbaye Lo, 2019-04-12. The Arabic Classroom is a multicontributor work for trainee and in-service teachers of Arabic as a foreign language. Collected here is recent scholarly work and also critical writing from Arabic instructors, Arabists, and language experts to examine the status of the teaching and learning of Arabic in the modern classroom. The book stresses the inseparability of the parameters of contexts, texts, and learners in the effective Arabic classroom and investigates their role in enhancing the experience of teaching and learning Arabic. The book also provides a regional perspective through global case studies and encourages Arabic experts to search for better models of instruction.

How "American" Is Globalization? William H. Marling, 2006-06-12 William Marling's provocative work analyzes in specific terms the impacts of American technology and culture on foreign societies Marling answers his own question how American is globalization with two seemingly contradictory answers less than you think and more than you know Deconstructing the myth of global Americanization he argues that despite the typically American belief that the United States dominates foreign countries the practical effects of Americanization amount to less than one might suppose Critics point to the uneven popularity of McDonalds as a prime example of globalization and supposed American hegemony in the world But Marling shows in a series of case studies that local cultures are intrinsically resilient and that local languages eating habits land use education systems and other social patterns determine the extent to which American culture is imported and adapted to native needs He argues that globalization can actually accentuate local cultures which often put their own imprint on what they import from translating films and television into hundreds of languages to changing the menu at a McDonalds to include the Japanese favorite Chicken Teriyaki Marling also examines the unexpected ways in which American technology travels abroad the technological transferability of the ATM the practice of franchising and shop floor American innovations like shipping containers bar codes and computers These technologies convey American attitudes about work leisure convenience credit and travel but as Marling shows they take root overseas in ways that are anything but American *The Routledge Handbook of Arabic Linguistics* Elabbas Benmamoun, Reem Bassiouney, 2017-12-22 The Routledge Handbook of Arabic Linguistics introduces readers to the major facets of research on Arabic and of the linguistic situation in the Arabic speaking world The edited collection includes chapters from prominent experts on various fields of Arabic linguistics The contributors provide overviews of the state of the art in their field and specifically focus on ideas and issues Not simply an overview of the field this handbook explores subjects in great depth and from multiple perspectives In addition to the traditional areas of Arabic linguistics the handbook covers computational approaches to Arabic Arabic in the diaspora neurolinguistic approaches to Arabic and Arabic as a global language The Routledge Handbook of Arabic Linguistics is a much needed resource for researchers on Arabic and comparative linguistics syntax morphology computational linguistics

Where the Paved Road Ends Carolyn Han, 2011-07-31 In 2004 Carolyn Han left her comfortable life and position as a lecturer in English at Hawaii Community College and went to live in one of the most remote and

mysterious places in the Middle East Yemen known in the West primarily for providing a haven for terrorists affiliated with al Qaeda The previous year she had sold her gold jewelry to travel with Bedouin by camel from Marib to Shabwa and the life changing experience opened the path for her to become the first American English instructor in Yemen s wild tribal area Marib Guided by fateful encounters and unfazed by warnings of danger Han allowed her life to unfold as it might with a sense of acceptance informed by the idea that whatever happens is meant to happen Learning and understanding would follow In this book Han paints a vivid portrait of Yemeni customs including their enjoyment of the stimulant qat and their proclivity for carrying AK 47s wherever they go and she conveys what it was like to be a woman alone surrounded by a culture not her own As the old saying goes Han the ostensible teacher became the student and through these pages she allows readers a rare glimpse into a Bedouin culture that most will never encounter
