Adapting to Russia's New Labour Market Sarah Ashwin, 2004-08-02 Economic reform in post Soviet Russia created not only a devastating decline in living standards but also widespread insecurity and uncertainty This book is the first to analyse the situation from a gendered perspective shedding new light on the way in which Russians are coping with the transformation of the labour market The book examines gender differences in responses to economic reform and considers the implications of these for the labour market outcomes and wider well being of men and women during transition Based on original research carried out by an experienced team of sociologists the book analyses the journeys of 240 men and women through the turbulent Russian labour market of 1999-2001 It includes chapters on the way gender norms inherited from the Soviet era have influenced responses to transition sex segregation and discrimination in the labour market gender differences in work orientations and behaviour who benefits from networks which life events are most likely to initiate downward economic trajectories

Attitudes, Poverty and Agency in Russia and Ukraine Ann-Mari Sätre, Ildikó Asztalos Morell, 2017-10-02 One of the main ideas behind this book was to trace continuities from the Soviet time to post Soviet Russia There are many similarities between Russia and Ukraine indicating such a continuation Russia and Ukraine had a lot in common in terms of culture language and history partly also because of their common origin After the dissolution of the Soviet Union however the two independent countries chose different routes of development This makes it possible to distinguish between the effects of politics reforms on the one hand and the impacts from the Soviet system on the other After some more or less chaotic development paths in the 1990s showing clear differences between the two countries and before the contemporary conflict broke out in Eastern Ukraine 2013 they had once again more similarities in terms of political leadership and policies in general The chapters in this book focus on Ukraine and on two regions in Russia Nizhny Novgorod

and Archangelsk Contributors look at attitudes towards poverty and poor people strategies of the poor and policies against poverty This book was published as a special issue of the Journal of Contemporary Central and Eastern Europe **A Dream Deferred** Donald A. Filtzer, 2008 This volume brings together the latest work in Russian labour history based on exciting materials from previously closed archives and collections Sixteen essays focusing on peasants and workers explore the lives and struggles of working people Ranging over a century of dramatic upheaval from the late 1800s to the present the essays are organized around three broad themes workers politics incentives and coercion within industrial and rural workplaces and household strategies The volume explores the relationship between the peasantry and the working class a nexus that has been central to state policy oppositional politics economic development and household configuration It profiles a working class rent by divisions and defined not only by its relationship to the workplace or the state but also by its household strategies for daily survival The essays explore many topics accessible for the first time including the motivations of women workers roots of revolutionary activism the revolutionary movement outside the great cities socialist opposition to the Soviet regime reactions of workers to Stalinist terror socialist tourism peasant families in forced exile and work discipline on the collective farms Gender, State and Society in Soviet and Post-Soviet Russia Sarah Ashwin, 2012-10-12 One of the few English language studies to focus on the male experiences this book addresses the important questions raised by the rise and fall of the Soviet experiment in transforming gender relations Issues covered include the paternal role women as breadwinners men's loss of status at work changing gender roles in the press the relationship between the sexual and gender revolutions Featuring an outstanding panel of Russian contributors this collection is a valuable resource for students and scholars of Politics Gender Studies and Russian Studies **Masculinities under Neoliberalism** Andrea Cornwall, Frank G. Karioris, Nancy Lindisfarne, 2016-05-15 Neoliberalism has had a radical impact on the lived gendered experiences of people around the world But while the gendered dimensions of neoliberalism have already received significant scholarly attention the existing literature has given little consideration to men's identities and experiences Building on the work of Cornwall and Lindisfarne's landmark text *Dislocating Masculinity* this collection provides a fresh perspective on gender dynamics under neoliberalism Bringing together a series of short readable case studies drawn from new ethnographic fieldwork its subjects range from the experiences of working class men in Putin's Russia to colonial masculinities in Southern Rhodesia and from young British Muslim men to amateur footballers in Jamaica The Dilemmas of Lone Motherhood Randy Albelda, Sue Himmelweit, Jane Humphries, 2013-09-13 In today's society women having entered the workplace in growing numbers worldwide are increasingly expected to earn wages whilst still being primarily responsible for raising children While all parents confront the tensions of this double burden for lone mothers the situation can be especially acute as there is no other adult to share responsibilities and no access to a male wage The revealing essays in this volume address a range of the dilemmas lone mothers routinely face whilst also distinguishing important situational differences and considering other

social perspectives It asks How can governments help without undermining their ability to enter the workforce Should the state indefinitely support lone mothers How should we measure the success of a policy What roles do ethnicity race religion class and sexual orientation play The impressive range of contributors to this volume speak from numerous contrasting perspectives Here they study a variety of international settings such as Sri Lanka the US Germany England and Norway and in so doing they allow the reader to draw powerful conclusions by comparing such issues and potential resolutions in varying countries and contexts This book was previously published as a special issue of Feminist Economics

Beyond the Resources of Poverty Sebnem Eroglu, 2016-04-08 This groundbreaking volume researches the lives of gecekondu settlers in the capital city of Turkey in order to understand how households cope with poverty and why some households are more successful than others in reducing their deprivation It takes a critical stance towards existing conceptions such as household survival livelihood and coping strategy and develops an alternative model based on four types of household response to poverty income generation income allocation consumption and investment In explaining household responses and their outcomes for poverty the book demonstrates the role of different resources beyond income including social economic and cultural capital It emphasises broader structural factors such as labour market processes and state policies which influence the availability and or benefit delivery capacity of household resources and thereby moves beyond the dominant view which overemphasises the resilience of the poor Gender divisions within the household are also examined The book adopts an innovative method for measuring poverty The new method combines objective and subjective dimensions of deprivation to develop a unique way of addressing two central questions what are those standards of living whose absence indicates deprivation and how can the value of each standard of living be determined

Crisis and the Everyday in Postsocialist Moscow Olga Shevchenko, 2008-12-17 In this ethnography of postsocialist Moscow in the late 1990s Olga Shevchenko draws on interviews with a cross section of Muscovites to describe how people made sense of the acute uncertainties of everyday life and the new identities and competencies that emerged in response to these challenges Ranging from consumption to daily rhetoric and from urban geography to health care this study illuminates the relationship between crisis and normality and adds a new dimension to the debates about postsocialist culture and politics

[Men in Contemporary Russia](#) Rebecca Kay, 2016-12-05 Rebecca Kay assesses how men in post Soviet Russia are represented through media and popular discourses

Using case studies she explores the challenges which have arisen for men since 1991 and the ways in which their responses are shaped by and viewed through the prism of widely accepted attitudes towards gender The lives and concerns of men in provincial Russia are examined through ethnographic fieldwork combining extensive participant observation with in depth interviews The book reveals how individual men strive to maintain a sense of equilibrium between the activities in which they are engaged and the ways in which they are perceived both by others and by themselves The findings of the research have produced significant areas of contrast and comparison with the author s earlier work on women This is drawn out throughout the book placing the study of Russian men in a broader gendered context The issues raised by the men mirror concerns discussed in men s studies literature and popular discourse beyond Russia The book is therefore of interest to a wider international audience as well as contributing to ongoing interdisciplinary debates in Russian Studies Anthropology Sociology and Human Geography addressing the need for new approaches to understanding post Socialist change

On Living Through Soviet Russia Daniel Bertaux,Anna Rotkirch,Paul Thompson,2004-08-02 For a period of over seventy years after the 1917 revolutions in Russia talking about the past either political or personal became dangerous The new policy of glasnost at the end of the 1980s resulted in a flood of reminiscence almost nightly on television and more formally collected by new Russian oral history groups and western researchers This book is a fascinating collection of life stories and family history interview material collected by the editors and two Russian groups of interviewers

Gazing at Welfare, Gender and Agency in Post-socialist Countries Maija Jäppinen,Meri Kulmala,Aino Saarinen,2010-10-12 The volume presents a new and unique view of welfare in Russia and Eastern European countries from an intersectional perspective of welfare gender and agency Since the collapse of socialism the welfare structures of the post socialist states have experienced large and rapid changes The discussions on the reforming welfare models serve as the integrating theme for the volume The authors discuss past and current developments and make comparisons in time and space between the early 1990s and late 2000s and between post socialist and transitional countries Welfare and political democratization are analyzed on the one hand as structures and processes and on the other hand as cultural meanings and through agency which all are strongly gendered Macro level analyses and in depth case studies by scholars from different countries and disciplines provide a wide and multilayered picture of welfare developments and gendered practices of social services caregiving and civic activism among others Special attention is given to research methodologies particularly on fieldwork and micro level understanding of the related topics The contributors come from social and political sciences and from both former socialist and Western countries from Russia and Slovenia as well as the US the UK Germany and Finland In their studies the authors examine various regions of Russia and other post socialist countries such as the Czech Republic Romania Moldova and Slovenia

Informal Economies and Power Anna Danielsson,2018-10-26 The global ubiquity of informal economic activities has turned informality into a key policy question not least in international peace and state building This book explores a core

aspect of economic informality its resilience despite comprehensive international anti informality operations Using Kosovo as an illustrative case Danielsson suggests that to understand the resilience of informality two distinct areas of practice need to be studied in conjunction rather than separately The first concerns the professional practices enacted by international organisations in their attempts to formalise the informal economy in Kosovo The second area of practice concerns the everyday informal economic practices of social agents in Kosovo To study these areas of practice at their junction Danielsson uses Pierre Bourdieu s concept of symbolic power and argues that in post conflict Kosovo the distinct practices have become interwoven and co constitutive of a novel ordering and meaning of informality The resilience of the informal thus plays out through while undermining and reinforcing the need of the international anti informality operations Including scholarship from global governance global political economy and social theory this book s original perspective on informal economies and power will appeal to scholars and professionals located in peace studies development studies and the field of international relations

Rethinking

Development Economics Ha-Joon Chang, 2003 Impressive provides a very good compendium of what are usually classified as heterodox development economics an excellent volume Journal of International Development This important new collection tackles the failure of neoliberal reform to generate longterm growth and reduce poverty in many developing and transition economies As dramatically demonstrated in the collapse of the WTO s Seattle talks there is increasing dissatisfaction in both developing and developed countries with the emerging neoliberal global economic order The resignations of Joseph Stiglitz and Ravi Kanbur from the World Bank emphasize that this disillusionment with the orthodoxy now exists at the very heart of the establishment Yet the increasing demand for an alternative to this orthodoxy is not being met Over the last few decades the older generation of development economists have been edged out of most major universities particularly in the USA The situation in most developing countries is even worse although there is more demand for alternatives to orthodox development economics these countries have even less capability to generate such alternatives Rethinking Development Economics is intended to fill this gap It addresses key issues in development economics ranging from macroeconomics finance and governance to trade industry agriculture and poverty Bringing together some of the foremost names in the field this comprehensive and timely collection constitutes a critical staging post in the future of development economics
