**The New Gold Mountain** Ching Fatt Yong,1977      **In the Face of Diversity** Nathan D. Gardner Molina,2025-05-01

The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities

**"Kingdom-Minded" People** Denise Austin,2011-09-20 During the early twentieth century in China a number of key economic leaders converted to Christianity Whilst strongly influenced by cultural heritage powerful modernizing forces and tumultuous political changes the new Christian identity inculcated by Protestant missionaries motivated these entrepreneurs to modify their business practices improve their social environment and extend the influence of Christianity Protestant and Catholic sojourners likewise made significant contributions into their adopted communities With unprecedented economic growth in China today a fascinating contemporary parallel can be seen particularly through the influence of Pentecostal charismatic and evangelical training Previous research has explored the emergence of the urban Christian lite in modern China However this systematic study provides new understanding of how Christian identity motivates Chinese business Christians toward economic social and religious contribution      Archaeology of the Chinese Fishing Industry in Colonial Victoria Alister M. Bowen,2018-08-30 Reveals a fascinating story of how Chinese fish curers successfully dominated Australia's fishing industry how they lived worked organised themselves participated in colonial society and the reasons why they

suddenly disappeared      Made in Chinatown Peter Charles Gibson, 2022-04-01 Made in Chinatown delves into a little known aspect of Australia's past its hundreds of Chinese furniture factories These businesses thrived in the post goldrush era becoming an important economic activity for Chinese immigrants and their descendants and a vital part of Australia's furniture industry Yet owing to an exclusionary vision for Australia as a bastion of white industry and labour these factories were targeted by anti Chinese political campaigns and legislative restrictions Guided by Chinese manufacturers and workers own reflections and records this book examines how these factories operated under the exclusionary vision of White Australia Historian Peter Gibson uses previously untapped archival sources to investigate the local and international factors that boosted the industry and the business and labour practices associated with factory operation He explores the strategies employed in efforts to resist injustice and the place of Chinese furniture factories within the contexts of Australian enterprise work and consumerism more broadly Made in Chinatown argues that Chinese Australian furniture manufacturers and their employees were far more adaptable and the White Australia vision less pervasive than most histories would suggest

Asians in Australia Christine Inglis, S GUNASEKARAN, Gerard Sullivan, Chung-Tong Wu, 1992-12-01 The Asian migration controversy of the 1980s in Australia was reminiscent of that a century earlier However as this first major study of the new Asian migration of the 1980s illustrates the circumstances and characteristics have been vastly different The study places Asian immigration in a broader international context in which the emigration to Australia is part of a wider pattern of population movements with diplomatic ramifications and economic implications for both Australia and the emigrants homeland This study provides key Australian comparative data to set against the extensive Asian emigration in the 1980s to USA Canada and New Zealand      China's Rise and the Chinese Overseas Bernard Wong, Chee-Beng TAN, 2017-07-28 Since the 1978 opening up of China and her active engagement in economic reformation and modernization China has become a truly global economic power These developments have consequently had an impact on ethnic Chinese people living across the world Traditionally the study of immigrant communities has focused on internal factors such as the leadership and social organization of the actors inside the communities This book however turns attention to the exogenous factors which have helped shape the lives of the Chinese diaspora In doing so it provides a valuable contribution to the recent literature which focuses on the effect of globalisation on the Chinese overseas Using a number of empirical case studies including the San Francisco Bay Canada South Africa and Hungary it provides an investigation into how China's contemporary position in the world has affected the identity of the various locales of the Chinese in different continents Whilst demonstrating the implications of China's rise on patterns of circular migration and transnational movements it also explores how the social and economic relations between Chinese communities and their host and ancestral countries have changed Ultimately it highlights how China's rise has brought new economic opportunities and political clout for the Chinese overseas but at the same time has created new stereotypes and racial images by association As an in depth study of Chinese societies as well as

current migration trends this book will be useful for students of Chinese Studies Ethnic Studies Anthropology and Sociology

**Cultures in Contact** Dirk Hoerder, 2002-11-21 Analysis of migrations regional interregional continent wide and global and the resulting cultural interactions and societal changes *The Qiaopi Trade and Transnational Networks in the Chinese Diaspora* Gregor Benton, Hong Liu, Huimei Zhang, 2018-05-03 Originating in the 1820s and used for 150 years thereafter qiaopi is the name given in Chinese to letters written home by Chinese emigrants to accompany remittances Their key function was to preserve family ties Although such correspondence focused principally on the provision of economic support the qiaopi also touched on cultural political educational and gender themes This book therefore seeks to examine the qiaopi from two interconnected perspectives One views qiaopi from a political and institutional angle the other from a financial and social angle Bringing together the extensive research of a group of international scholars this multi authored volume sheds light on the larger significance of the qiaopi for modern China Taking an empirical evidence driven approach the contributors employ a wide range of primary sources in both Chinese and English and relate their findings to scholarship in both the Chinese speaking world and in non Chinese interdisciplinary fields In so doing this book helps to bridge the gap between Chinese and English speaking researchers in the field of qiaopi studies As one of the first books in English on the qiaopi trade and its significance this book will appeal to students and scholars of Chinese history and Chinese migration as well in Migration Studies and Diaspora Studies more generally *Digital Transnationalism* Wanning Sun, Haiqing Yu, 2023-02-06 This is the first book in English on Chinese language digital media in Australia The book comes at a time when the relationship between China and the West is at its most troubling since the end of the Cold War Combining rich ethnographic insights with dispassionate analysis this investigation into Australia's Chinese language digital and social media sheds new light on how migrants from the People's Republic of China negotiate two media cultural and political systems The book is a timely antidote to the polarized and often simplistic positions that dominate ongoing debates about the Chinese diaspora and diasporic media and injects much needed nuance into analyses of the changing face of Chinese transnationalism Chinese Migrants and Internationalism Gregor Benton, 2007-05-23 The transnational and diasporic dimensions of early Chinese migrant politics opened in the late nineteenth century when Chinese radical groups bent on overthrowing the Qing dynasty 1644 1911 vied with one another to win Chinese overseas to their modernizing projects and immigrants who had suffered discrimination welcomed their proposals The radicals' concentration on Chinese communities abroad as outposts of Chinese politics and culture strengthened the stereotype of Chinese as clannish unassimilable xenophobic and deeply introverted This book argues that such a view has its roots less in historical truth than in political and ideological prejudice and obscures a rich vein of internationalist practice in Chinese migrant or diasporic history which the study aims to restore to visibility In some cases internationalist alliances sprang from the spontaneous perception by Chinese and other non Chinese migrants or local workers of shared problems and common solutions in everyday life and work At other times they emerged from under

the umbrella of transnationalism when Chinese nationalist and anti imperialist activists overseas received support for their campaigns from local internationalists or the alliances were the product of nurturing by Chinese or non Chinese political organizers including anarchists communists and members of internationalist cultural movements like Esperantism Based on sources in a dozen languages and telling hitherto largely unknown or forgotten stories of Chinese migrant experiences in Russia Germany Cuba Spain and Australia this study will appeal to students and scholars of Chinese history labour studies and ethnic migration studies alike *Chinese Women and the Global Village* Jan Ryan,2003 This the first major study of Chinese women in Australia is all about global journeys and perspectives It is also a story of the various stories that connect Australia to the pathways of women of Chinese ancestry Ryan interrogates issues of ethnicity gender and identity to present the diversity of the women s lives

**Chinese Among Others** Philip A. Kuhn,2008-03-27 In this book distinguished historian Philip A Kuhn tells the remarkable five century story of Chinese emigration as an integral part of China s modern history Although emigration has a much longer past its modern phase dates from the sixteenth century when European colonialists began to collaborate with Chinese emigrants to develop a worldwide trading system The author explores both internal and external migration complementary parts of a far reaching process of adaptation that enabled Chinese families to deal with their changing social environments Skills and institutions developed in the course of internal migration were creatively modified to serve the needs of emigrants in foreign lands As emigrants Chinese inevitably found themselves among others The various human ecologies in which they lived have faced Chinese settlers with a diversity of challenges and opportunities in the colonial and postcolonial states of Southeast Asia in the settler societies of the Americas and Australasia and in Europe Kuhn traces their experiences worldwide alongside those of the others among whom they settled the colonial elites indigenous peoples and rival immigrant groups that have profited from their Chinese minorities but also have envied feared and sometimes persecuted them A rich selection of primary sources allows these protagonists a personal voice to express their hopes sorrows and worldviews The post Mao era offers emigrants new opportunities to leverage their expatriate status to do business with a Chinese nation eager for their investments donations and technologies The resulting new migration the author argues is but the latest phase of a centuries old process by which Chinese have sought livelihoods away from home

*Chinatowns in a Transnational World* Vanessa Künnemann,Ruth Mayer,2012-03-22 This book explores the history the reality and the complex fantasy of American and European Chinatowns and traces the patterns of transnational travel and traffic between China South East Asia Europe and the United States which informed the development of these urban sites Despite obvious structural or architectural similarities and overlaps Chinatowns differ markedly depending on their location European versions of Chinatowns can certainly not be considered mere replications of the American model Paying close attention to regional specificities and overarching similarities Chinatowns thus discloses the important European backdrop to a phenomenon commonly associated with North America It starts from the assumption

that the historical and modern Chinatown needs to be seen as complicatedly involved in a web of cultural memory public and private narratives ideologies and political imperatives Most of the contributors to this volume have multidisciplinary and multilingual backgrounds and are familiar with several different instances of the Chinese diasporic experience With its triangular approach to the developments between China and the urban Chinese diasporas of North America and Europe Chinatowns reveals connections and interlinkages which have not been addressed before **Chinese Migrants Abroad**

Michael W. Charney, Brenda S. A. Yeoh, Chee Kiong Tong, 2003 The study of the overseas Chinese has by now become a global enterprise raising new theoretical problems and empirical challenges New case studies of overseas Chinese such as those on communities in North America Cuba India and South Africa continually unveil different perspectives New kinds of transnational connectivities linking Chinese communities are also being identified It is now possible to make broader generalizations of a Chinese diaspora on a global basis Further the intensifying study of the overseas Chinese has stimulated renewed intellectual vigor in other areas of research The transnational and transregional activities of overseas Chinese for example pose serious challenges to analytical concepts of regional divides such as that between East and Southeast Asia

*Transpacific Reform and Revolution* Zhongping Chen, 2023-07-25 The late nineteenth and early twentieth centuries saw the turbulent end of China's imperial system violent revolutionary movements and the fraught establishment of a republican government During these decades of reform and revolution millions of far flung overseas Chinese remained connected to Chinese domestic movements This book uses rich archival sources and a new network approach to examine how reform and revolution in North American Chinatowns influenced political change in China and the transpacific Chinese diaspora from 1898 to 1918 Historian Zhongping Chen focuses on the transnational activities of Kang Youwei Sun Yat sen and other politicians especially their mobilization of the Chinese in North America to join reformist or revolutionary parties in patriotic fights for a Western style constitutional monarchy or republic in China These new reformist and revolutionary parties including the first Chinese women's political organization led transpacific movements against American anti Chinese racism in 1905 and supported constitutional reform and the Republican Revolution in China around 1911 achieving transpacific expansion through innovative use of cross cultural political ideologies and intertwined institutional and interpersonal networks Through network analysis of the origins interrelations and influences of Chinese reform and revolution in North America this book makes a significant contribution to modern Chinese history Asian American and Asian Canadian history and Chinese diasporic scholarship *Asian Material Culture* Marianne Hulsbosch, Elizabeth Bedford, Martha Chaiklin, 2009

This richly illustrated volume offers the reader unique insight into the materiality of Asian cultures and the ways in which objects and practices can simultaneously embody and exhibit aesthetic and functional characteristics as well as everyday and spiritual aspirations Though each chapter is representative rather than exhaustive in its portrayal of Asian material culture together they clearly demonstrate that objects are entities that resonate with discourses of human relationships personal and

group identity formations ethics values trade and above all distinctive futures *Chinese Australians* Sophie Couchman, Kate Bagnall, 2015-01-27 In *Chinese Australians Politics Engagement and Resistance* key scholars explore how Chinese Australians in the nineteenth and twentieth centuries influenced the communities in which they lived on a civic or individual level With a focus on the motivations and aspirations of their subjects the authors draw on biography world history case law newspapers and immigration case files to investigate the political worlds of Chinese Australians The book also introduces current literature and thinking about the history of the Chinese in Australia and includes a postscript that reflects on the importance of historical analysis to current day political science

**Immigrant Student Achievement and Education Policy** Louis Volante, Don Klinger, Ozge Bilgili, 2018-03-21 This book examines immigrant student achievement and education policy across a range of Western nations It is divided into 3 sections Part 1 introduces the topic of immigrant student achievement and the performance disadvantage that is consistently reported across a range of international jurisdictions Part 2 then presents national profiles from scholars in ten countries England Germany Italy Sweden Finland Netherlands Republic of Ireland Canada Australia and New Zealand These educational jurisdictions were selected because they represent a range of Western nations engaged in large scale reform efforts geared towards enhancing their immigrant students achievement Each of the national profiles provides a brief overview of the evolution of the cultural composition of their respective school aged student population explains the trajectory of achievement results in non immigrant and immigrant student groups in relation to both national and international large scale assessment measures and discusses the effectiveness of policy responses that have been adopted to close the achievement gap between non immigrant and immigrant student populations It also examines the relationships between education policies and immigrant student achievement and discusses how education policies have evolved across various cultural contexts In conclusion Part 3 analyzes cross cultural approaches designed to address the performance disadvantage of immigrant students and proposes future areas of inquiry stemming from the national profiles The book offers insights into a diverse cross section of nations and policy approaches to addressing the performance disadvantage

**The Last Half Century of Chinese Overseas** Elizabeth Sinn, 1998-01-01 The papers collected in this anthology look at Chinese overseas residing in five continents in the half century after the Second World War from many new perspectives Some papers raise questions about the Chinese diaspora in broad conceptual terms and inquire into the meaning of being Chinese outside China Other papers examine life in local communities analysing how historical and contemporary circumstances affect their lives and the ways they negotiate their identity in the host country In depth case studies further bring out the complexity of the subject by identifying the range of variables including the social economic political and cultural characteristics of the places of origin and destinations as well as emigration and immigration policies which affect the patterns of migration and the nature of settlement in any place at any time This is especially highlighted in chapters using a comparative approach With scholars from different disciplines

using different types of data methodologies and theoretical tools the richness of the subject matter becomes apparent This volume will no doubt go a long way both to broaden and deepen our understanding of the Chinese overseas and by showing the many possibilities for further investigation to strengthen Chinese overseas as a field of study
