

DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility designs provide enough comfort for only the healthiest people living and exclude many who might otherwise ride.

IN ALL AGES & ABILITIES people deserve to use their local communities and provide ideas for alternative transportation. A city is inclusive if it's fully accessible to people of all ages and abilities. The Urban Bikeway Design Guide provides a practical guide for designers, policy makers, and advocates to create a safe, comfortable, and equitable environment for all people to use their local communities and provide ideas for alternative transportation.

Third Edition

The third edition of the Urban Bikeway Design Guide revised (existing) Guidelines to help cities and states create safe, comfortable, and equitable environments for all people to use their local communities and provide ideas for alternative transportation.

OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
