The New Hollywood Peter Krämer, 2006-03-17 On December 8 1967 Time magazine put Bonnie and Clyde on its cover and announced The New Cinema Violence Sex Art The following decade has long been celebrated as a golden age in American film history In this innovative study Peter Krämer offers a systematic discussion of the biggest hits of the period including The Graduate 1967 The Exorcist 1973 and Jaws 1975 He relates the distinctive features of these hits to changes in the film industry in its audiences and in American society at large

New Hollywood Cinema Geoff King, 2002 What is New Hollywood The art cinema of the Hollywood Renaissance or the corporate controlled blockbuster The introverted world of Travis Bickle or the action heroics of Indiana Jones Buzz Lightyear and Maximus the Gladiator Innovative departures from the classical Hollywood style or superficial glitz special effects and borrowings from MTV Wholesale change or important continuities with Hollywood's past The answer suggested by Geoff King in New Hollywood Cinema is all of these and more He examines New Hollywood from three main perspectives film style industry and the social historical context Each is considered in its own right sometimes resulting in different ways of defining New Hollywood But one of the book's central arguments is that a combination of these approaches is needed if we are to understand the latest incarnations of the cinema that continues to dominate the global market King looks at the Hollywood Renaissance from the late 1960s to the late 1970s industrial factors shaping the construction of the corporate blockbuster the role of auteur directors genre and stardom in New Hollywood narrative and spectacle in the contemporary blockbuster and the relationship between production for the big and small screens Case studies considered include Taxi Driver Godzilla and Gladiator tracing the roots of New Hollywood from the 1950s to the start of the twenty first century

New Hollywood Cinema Geoff King, 2002 Addresses the stylistic industrial and socio historical contexts of the New

Hollywood cinema identifying its distinctive characteristics and its points of similarity with the Hollywood of the past Topics include the industrial context to the blockbuster format of contemporary Hollywood the frameworks of authorship genre and stardom through which New Hollywood films have been produced and consumed and the growing importance of small screen media to the overall economy of Hollywood Annotation copyrighted by Book News Inc Portland OR *Women and New Hollywood* Aaron Hunter,Martha Shearer,2023-05-12 The 1970s has often been hailed as a great moment for American film as a generation of New Hollywood directors like Scorsese Coppola and Altman offered idiosyncratic visions of what movies could be Yet the auteurist discourse hailing these directors as the sole authors of their films has obscured the important creative roles women played in the 1970s American film industry *Women and New Hollywood* revises our understanding of this important era in American film by examining the contributions that women made not only as directors but also as screenwriters editors actors producers and critics Including essays on film history film texts and the decade s film theory and criticism this collection showcases the rich and varied cinematic products of women s creative labor as well as the considerable barriers they faced It considers both women working within and beyond the Hollywood film industry reconceptualizing New Hollywood by bringing it into dialogue with other American cinemas of the 1970s By valuing the many forms of creative labor involved in film production this collection offers exciting alternatives to the auteurist model and new ways of appreciating the themes and aesthetics of 1970s American film **Hollywood's New Yorker** Marc Raymond,2013-04-01 A fresh look at the director s career **Hollywood's New Radicalism** Ben Dickenson,2005-11-25 Provides an up to date insightful take on modern American cinema s relations with and influence on Reagan s Clinton s and both Bush s administrations George W Bush Clinton and Ronald Reagan s relations are revealed with radical celebrities like Sean Penn Tim Robbins Susan Sarandon and Warren Beatty It contains unique behind the scenes stories and exclusive revealing interviews with Hollywood celebrities Described by Tony Garnett as an ambitious and refreshing book *Hollywood s New Radicalism* is a timely and contentious account of the last twenty five years of American cinema Ben Dickenson tells the story of the corporate take over of the movies in the 1970s and the subsequent transformation of Hollywood into the dominant force in the global media industry Writing from the intersection where politics society and cinema meet and using exclusive interviews with Hollywood personalities he explores the radicalising effect of such changes on liberal filmmakers like Warren Beatty Michael Moore and Sean Penn in the past decade He demonstrates how left wing messages smuggled their way into 1980s movies found a fuller voice in independent American cinema during the 1990s and flirted with mainstream popularity at the start of the new millennium Bringing the story up to and through the 2004 Presidential election he reveals how important Hollywood figures have become key members of a vigorous left wing opposition to George W Bush s Presidency New Wave, New Hollywood Gregory Frame,Nathan Abrams,2021-09-23 As a period of film history The American New Wave ordinarily understood as beginning in 1967 and ending in 1980 remains a preoccupation for scholars

and audiences alike In traditional accounts it is considered to be bookended by two periods of conservatism and viewed as a brief period of explosive creativity within the Hollywood system From Bonnie and Clyde to Heaven s Gate it produced films that continue to be watched discussed analysed and poured over It has however also become rigidly defined as a cinema of director auteurs who made a number of aesthetically and politically significant films This has led to marginalization and exclusion of many important artists and filmmakers as well as a temporal rigidity about what and who is considered part of the New Wave proper This collection seeks to reinvigorate debate around this area of film history It also looks in part to demonstrate the legacy of aesthetic experimentation and political radicalism after 1980 as part of the legacy of the New Wave Thanks to important new work that questions received scholarly wisdom reveals previously marginalised filmmakers and the films they made considers new genres personnel and films under the banner of New Wave New Hollywood and reevaluates the traditional approaches and perspectives on the films that have enjoyed most critical attention New Wave New Hollywood Reassessment Recovery Legacy looks to begin a new discussion about Hollywood cinema after 1967

The Way Hollywood Tells it David Bordwell,2006 Publisher description

Hollywood's America Stephen P Powers,2018-02-19 American motion pictures still dominate the world market with an impact that is difficult to measure Their role in American culture has been a powerful one since the 1930s and is a hallmark of our culture today Though much has been written about the film industry there has been very little systematic attention paid to the ideology of its creative elite How does the outlook of that elite impact on the portrayals of America that appear on the screen How do their views interact with the demands of the market and the structure of the industry to determine the product that is seen by mass audiences Hollywood s America is a marvellously rich and careful discussion of these questions It combines a meticulous systematic content analysis of fifty years of top grossing films with a history of the changing structure of the industry To that mixture it adds an in depth survey of Hollywood s creative elite comparing them to other leadership groups

The result is a balanced discussion of unique breadth and depth on a subject of national importance. Placing the film industry in the context of American society as a whole, the authors point out that Hollywood's creative leadership impacts the larger society even as it is influenced by that society. The creators of films cannot remove themselves too far from the values of the audiences that they serve. However, the fact that films are made by a relatively small number of people who, as the authors demonstrate, tend to share a common outlook means that over time motion pictures have had an undeniable impact on the beliefs, lifestyles, and actions of Americans. This study contributes to the debate over the role and influence of those who create and distribute the products of mass culture in the United States. The book also contains a devastating critique of the poststructuralist theories that currently dominate academic film criticism, demonstrating how they fail in their attempt to explain the political significance of motion pictures.

The Evolution of Hollywood's Calculated Blockbuster Films Alexander Ross, 2023-04-24 In this book, Alexander Ross highlights how creative entrepreneurs saved the Hollywood studios in the 1970s by establishing the calculated blockbuster, consisting of key replicable markers of success as Hollywood's preeminent business model. Ross demonstrates how visionary individuals such as Coppola, Spielberg, Lucas, and Zemeckis helped create the modern calculated blockbuster business model (BBM). However, with the rise of streaming giants and the studios struggling to compete, many consumers of entertainment now elect to partake from the comfort of their homes, making the difference between cinema and television anachronistic. Revisiting the history of those 1970s blockbusters and their ongoing impact on contemporary filmmaking, Ross offers distinct analysis on whether the calculated blockbuster can continue to lead or if the streamers will continue to generate their own content and eventually fully control the dissemination process. For scholars and students in film, pop culture, and business, along with aspiring filmmakers, screenwriters, producers, and executives, the book will be a valued resource.

Hollywood's Cold War Tony Shaw, 2007-09-19 Hollywood's Cold War **Hollywood's Last Golden Age** Jonathan Kirshner, 2012-11-15 Between 1967 and 1976, a number of extraordinary factors converged to produce an uncommonly adventurous era in the history of American film. The end of censorship, the decline of the studio system, economic changes in the industry, and demographic shifts among audiences, filmmakers, and critics created an unprecedented opportunity for a new type of Hollywood movie, one that Jonathan Kirshner identifies as the seventies film. In Hollywood's Last Golden Age, Kirshner shows the ways in which key films from this period, including *Chinatown*, *Five Easy Pieces*, *The Graduate*, and *Nashville*, as well as underappreciated films such as *The Friends of Eddie Coyle*, *Kluge*, and *Night Moves*, were important works of art in continuous dialogue with the political, social, personal, and philosophical issues of their times. These seventies films reflected the era's social and political upheavals, the civil rights movement, the domestic consequences of the Vietnam War, the sexual revolution, women's liberation, the end of the long postwar economic boom, the Shakespearean saga of the Nixon Administration, and Watergate. Hollywood films in this brief exceptional moment embraced a new aesthetic and a new approach to storytelling, creating self-consciously gritty, character-driven explorations of moral and narrative ambiguity.

Although the rise of the blockbuster in the second half of the 1970s largely ended Hollywood's embrace of more challenging films Kirshner argues that seventies filmmakers showed that it was possible to combine commercial entertainment with serious explorations of politics society and characters interior lives [Hollywood's Copyright Wars](#) Peter Decherney,2013-09-01 Beginning with Thomas Edison's aggressive copyright disputes and concluding with recent lawsuits against YouTube Hollywood's Copyright Wars follows the struggle of the film television and digital media industries to influence and adapt to copyright law Though much of Hollywood's engagement with the law occurs offstage in the larger theater of copyright many of Hollywood's most valued treasures from *Modern Times* 1936 to *Star Wars* 1977 cannot be fully understood without appreciating their legal controversies Peter Decherney shows that the history of intellectual property in Hollywood has not always mirrored the evolution of the law and recounts these extralegal solutions and their impact on American media and culture [The New Historical Dictionary of the American Film Industry](#) Anthony Slide,2014-02-25 The New Historical Dictionary of the American Film Industry is a completely revised and updated edition of Anthony Slide's *The American Film Industry* originally published in 1986 and recipient of the American Library Association's Outstanding Reference Book award for that year More than 200 new entries have been added and all original entries have been updated each entry is followed by a short bibliography As its predecessor the new dictionary is unique in that it is not a who's who of the industry but rather a what's what a dictionary of producing and releasing companies technical innovations industry terms studios genres color systems institutions and organizations etc More than 800 entries include everything from Academy of Motion Pictures Arts and Sciences to Zoom Lens from Astoria Studios to Zoetrope Outstanding Reference Source American Library Association *American Film History* Cynthia Lucia,Roy Grundmann,Art Simon,2015-09-08 From the American underground film to the blockbuster superhero this authoritative collection of introductory and specialized readings explores the core issues and developments in American cinematic history during the second half of the twentieth century through the present day Considers essential subjects that have shaped the American film industry from the impact of television and CGI to the rise of independent and underground film from the impact of the civil rights feminist and LGBT movements to that of 9 11 Features a student friendly structure dividing coverage into the periods 1960 1975 1976 1990 and 1991 to the present day each of which opens with an historical overview Brings together a rich and varied selection of contributions by established film scholars combining broad historical social and political contexts with detailed analysis of individual films including *Midnight Cowboy* *Nashville* *Cat Ballou* *Chicago* *Back to the Future* *Killer of Sheep* *Daughters of the Dust* *Nothing But a Man* *Ali* *Easy Rider* *The Conversation* *The Texas Chain Saw Massacre* *Longtime Companion* *The Matrix* *The War Tapes* the Batman films and selected avant garde and documentary films among many others Additional online resources such as sample syllabi which include suggested readings and filmographies for both general and specialized courses will be available online May be used alongside *American Film History* *Selected Readings* *Origins to 1960* to provide an authoritative study of
