Park,2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al aqsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on al maghrib al aqsa than is the case for most modern nation states This third edition of Historical Dictionary of Morocco contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco *Historical Dictionary of Libya* Ronald Bruce St John,2014-06-04 Of all the states of the Middle East and North Africa Libya has long been the country about which the least is known It is only in recent times that scholars and the general public alike have begun to appreciate the complexity of Libya s turbulent history

including the recent February 17th Revolution in 2011 when protests broke out throughout Libya demanding better living conditions and more job opportunities When the Qaddafi regime responded with force killing scores of unarmed civilians the protesters called for regime change In what came to be known as the February 17th Revolution the Qaddafi regime was overthrown and Qaddafi was killed in October 2011 In July 2012 the Libyan people elected a General National Congress charged with overseeing the drafting of a new constitution and the election of a national government This fifth edition of Historical Dictionary of Libya covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities politics economy society conflicts and the culture of Libya This book is an excellent access point for students researchers and anyone wanting to know more about Libya

Christians, Muslims, and Jews in Medieval and Early Modern Spain Mark D. Meyerson, Edward D. English, 2000-08-31 The essays in this interdisciplinary volume examine the social and cultural interaction of Christians Muslims and Jews in Spain during the medieval and early modern periods Together the essays provide a unique comparative perspective on compelling problems of ethnoreligious relations Christians Muslims and Jews in Medieval and Early Modern Spain considers how certain social and political conditions fostered fruitful cultural interchange while others promoted mutual hostility and aversion The volume examines the factors that enabled one religious minority to maintain its cultural integrity and identity more effectively than another in the same sociopolitical setting This volume provides an enriched understanding of how Christians Muslims and Jews encountered ideological antagonism and negotiated the theological and social boundaries that separated them

The Jew in the Art of the Italian Renaissance Dana E. Katz, 2008-06-04 Dana E Katz reveals how Italian Renaissance painting became part of a policy of tolerance that deflected violence from the real world onto a symbolic world While the rulers upheld toleration legislation governing Christian Jewish relations they simultaneously supported artistic commissions that perpetuated violence against Jews

A Convert's Tale Tamar Herzig, 2019-12-03 Salomone da Sesso was a virtuoso goldsmith in Renaissance Italy Brought down by a sex scandal he saved his skin by converting to Catholicism Tamar Herzig explores Salamone s world his Jewish upbringing his craft and patrons and homosexuality In his struggle for rehabilitation we see how precarious and contested was the meaning of conversion
