*The New Image* Tony Godfrey, 1986 This is the first book to cover the great resurgence that has occurred in Europe and America in the last ten years New Painting now dominates contemporary art in its various guises neo expressionism pattern painting anachronistic painting post graffiti This book clearly outlines the different aspects of this complex phenomenon the return to national traditions the re cycling of advertising media the various regional schools of Germany the use of such unorthodox materials as antlers straw lead and even porridge mixed into the paint The best known of these artists Baselitz Clemente Fetting Kiefer Paladino Salle Schnabel and others with their unique use of myth style and materials are all examined in detail Jacket New image painting in the 1980's (the). T. Godfrey, 1986 Unpackaging Art of the 1980s Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious Critics of the time feared that market hype and self promotion threatened the integrity of art They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps While controversies have since subsided critics still view art of the 1980s as a stylistic battlefield Alison Pearlman rejects this picture which is truer of the period s criticism than of its art Pearlman reassesses the works and careers of six artists who became critics biggest targets In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend Julian Schnabel and David Salle in association with Neo Expressionism Jean Michel Basquiat and Keith Haring vis vis Graffiti Art and Peter Halley and Jeff Koons in relation to Simulationism Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media Through in depth discussions of works from Haring s body paintings of Grace Jones to Schnabel s movie Basquiat Pearlman demonstrates how these artists interests exemplified a broader generational shift unrecognized by critics She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style art world structures and consumer culture converged to radically alter the course of American art Unpackaging Art of the 1980s offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art The Rise and Fall of American Art, 1940s-1980s Assoc Prof Catherine Dossin, 2015-03-28 This book challenges the perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition In her transnational and interdisciplinary study Dossin analyses changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors **The Rise and Fall of American Art, 1940s-1980s** Catherine Dossin, 2016-03-03 In *The Rise and Fall of American Art 1940s 1980s* Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical

recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period *After Modernist Painting* Craig Staff, 2025-01-23 This book presents both a historical survey and a critical re evaluation of the contested and contingent nature of the medium of painting over the last 60 years Offering a critical account of painting specifically rather than art more generally *After Modernist Painting* provides a timely exploration of what has remained a persistent and protean medium Taking Clement Greenberg s *Modernist Painting* as its starting point the book focuses on certain developments including the relationship of painting to Conceptual Art and Minimalism the pronouncement of painting s alleged death its response to Installation Art s foregrounding of site how painting both images and imagines the digital and how it continues to embody a particular set of ideas and responses to the world Revised and expanded to reflect developments in the field since the first edition was published in 2013 *After Modernist Painting* addresses a range of global artists and painting practices from the Dansaekhwa art movement in South Korea to the Conceptualism of Geta Bratescu in 1970s Romania Essential reading for students on fine arts painting courses the book is an invaluable resource for those seeking to understand the themes and issues that have pertained to painting within the context of postmodernism and contemporary artistic practice and also provides a valuable starting point for other more specialized histories of particular painters *The Image in American Painting & Sculpture, 1950-1980* ,1981 Inaugural exhibition of the Akron Art Museum in a new facility focusing on representational art in Abstract Expressionism Pop 70 s Realism Photo Realism Includes early appearances by Neo Expressionists Susan Rothenberg Julian Schnabel and Jonathan Borofsky **A Dictionary of Modern and Contemporary Art** Ian Chilvers, John Graves-Smith, 2009 This unique and authoritative reference work contains more than 2 000 clear and concise entries on all aspects of modern and contemporary art Its impressive range of terms includes movements styles techniques artists critics dealers schools and galleries There are biographical entries for artists worldwide from the beginning of the 20th century through to the beginning of the 21st from the Finnish architect Alvar Aalto to the French sculptor Jacques Zwobada With international coverage indications of public collections and publicly sited works and in depth entries for key topics for example Cubism and abstract art this dictionary is a fascinating and thorough guide for anyone with an interest in modern and contemporary culture amateur or professional Formerly the Dictionary of 20th

considerably across the European nations This volume and its companion *Hot Art Cold War Northern and Western European Writing on American Art 1945-1990* offer the reader a unique opportunity to compare how European art writers introduced and explained contemporary American art to their many and varied audiences Whilst many are fluent in one or two foreign languages few are able to read all twenty five languages represented in the two volumes These ground breaking publications significantly enrich the fields of American art studies and European art criticism

**American Artists On Art** Ellen Johnson, 2018-02-20 From the Preface The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in but does not explain the increasing amount of writing and talking on the part of contemporary artists Rather the whole history of the changing role of art and artists in a democratic industrial and technological society stands behind the spate of artists words and the public s hunger for them even some of the general public out there beyond art s little circle Statements by artists appeal somewhat the way drawings do they bring us or at least they hold the promise of bringing us closer to the artist s thoughts and feelings and to an understanding of his or her modus operandi they hold the keys to a mysterious realm And sometimes they offer us the sheer pleasure of good reading Such is the primary *raison d etre* of this book Its other motivation is educational and stems from the frustrating lack in teaching contemporary art of any single compilation of statements by American artists from 1940 to the present This anthology differs in several respects from those others that do include documents of American art since 1940 The selection I have made is devoted exclusively to statements of artists it is limited to the last four decades it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism and whenever possible it cites the first or among the very earliest documents signaling a shift in the definition intent or direction of art
