

Jehovah's Witnesses. A Christian religious group whose members worship Jehovah God and actively promote Bible education through various methods of evangelizing. The main focus of their Bible education work is to share the good news about God's Kingdom or government. (Matthew 24:14) The name distinguishes them from other religions, referring not only to whom they represent but also the ministerial work they volunteer to do in God's name. A person is not considered to be one of Jehovah's Witnesses until he obtains a reasonable understanding of basic Bible teachings, qualifies to participate in the public ministry in association with a congregation of Jehovah's Witnesses, and is baptized in symbol of his personal dedication to God. The first reference in an article should be the official full name. An acceptable alternative is "the Witnesses." When referring to an individual, use "a Witness" or "one of Jehovah's Witnesses." "Jehovah's Witness" is considered incorrect usage.—Isaiah 43:10.

The new Image of Man , Between Point Zero and the Iron Curtain ,2024-10-28 This volume edited by va Forgcs with contributions from art historians from across Europe and the Americas analyzes the artistic initiatives of the short time span between the end of World War II and the onset of the Cold War In this moment a new internationalism was anticipated by retrieving pre war modernism as well as creating the new era s new artistic lingua franca The chapters include in depth case studies that analyze the complex often interconnected projects throughout the world South America and Eastern and Western Europe that were soon ended by the Cold War Talcott Parsons and the Social Image of Man (RLE Social Theory) Ken Menzies,2014-08-21 This account of Talcott Parsons s work clarifies his basic concepts and sets out their correlation Dr Menzies believes that the philosophy of science working within the confines of the analytic synthetic distinction tends to provide a rigid static and sterile account of theories He presents a more dynamic account of the scientific enterprise in order to come to grips with the amorphous nature of theory and to provide the basic framework for his analysis of Parsons Menzies argues that Parsons s central problematic in *The Structure of Social Action* is utilitarianism in general and the classical economists account of the rise of capitalism in particular and as such the book is not a reconciliation of positivistic and idealistic elements and these run throughout his subsequent work Two major strands in Parsons s work the social action theory and the systems theory structural functionalism are separated and examined individually Modern Sculpture Reader Jon Wood,David Hulks,Alex Potts,2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture s radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture s physical properties and conditions of display both of which have important implications for the viewer s tactile and emotional interaction with sculptural works *The Humanistic View of Man* Jaideep Singh,2023-11-29 The Humanistic View of Man is a scientific study designed to achieve a deeper comprehension of human phenomena The views of man held by the following five leading contemporary humanistic psychologists Hubert Bonner James Bugental Erich Fromm Abraham Maslow and Rollo May have been analyzed and synthesized Comments on the synthesis have then been obtained from Jacob Bronowski a

leading natural scientist His essay A Twentieth Century Image of Man provides further insight into his viewpoint The study concludes with a discussion that highlights the distinctive uniqueness of the view of man held by the selected humanistic psychologists and points to the deeper inner powers that we must use to guide and energize us in our pursuit of a richer manifestation of our unlimited human wealth

The New God-image Edward F. Edinger, 1996 C G Jung saw in the cultural history of Western man a progressive evolution of its God image During the last ten years of his life he wrote a series of remarkable letters about the new God image which is now emerging through the discoveries of depth psychology Edinger discusses fourteen of these letters with respect to the epistemological premises modern man's new awareness of subjectivity the paradoxical God the nature of the new God image as a union of opposites and the continuing incarnation how the new God image is born in individual men and women

The Science of Behavior and the Image of Man Isidor Chein, 2017-07-05 Does a proper respect for science require psychologists to view man as an impotent reactor whose responses are completely determined by his physical constitution and the forces impinging upon him In this wise and well argued book Isidor Chein invites his readers to lift their eyes from experimental research for a time to consider the relationship between science and the image of man Few psychologists even the most gifted and dedicated among them pause to consider the philosophical underpinnings of their work It is almost as though the humanist secretly lurking in each of them is fearful of the bad news he might finally be forced to accept that man is essentially an exquisitely complicated robot This fear is misplaced and harmful It is largely responsible for the disturbing fact that scientific psychology has produced in Chein's estimate so little that is relevant to the humanities so little as he puts it that has lived up to psychology's promise to itself What must be more widely understood is that it does not follow that behavioral law is reducible to physiological law or that physiological law is reducible to physical law With an uncompromising commitment to scientific method Chein shows that when closely analyzed there is actually no need to assume an unbridgeable gap between scientific psychology and psychoanalytic humanistic psychology This is a lucid and powerful theoretical work of importance for scholars in all fields sharing the belief that the proper study of mankind is man The Science of Behavior and the Image of Man is written by the most intellectually stimulating and respected representative of scientific humanistic psychology Robert B Holt Professor of Psychology Graduate School of Arts and Sciences New York University

The Science of Behavior and the Image of Man Carl von Clausewitz, 2017-07-05 Does a proper respect for science require psychologists to view man as an impotent reactor whose responses are completely determined by his physical constitution and the forces impinging upon him In this wise and well argued book Isidor Chein invites his readers to lift their eyes from experimental research for a time to consider the relationship between science and the image of man Few psychologists even the most gifted and dedicated among them pause to consider the philosophical underpinnings of their work It is almost as though the humanist secretly lurking in each of them is fearful of the bad news he might finally be forced to accept that man is essentially an exquisitely complicated robot This fear is misplaced and harmful It

is largely responsible for the disturbing fact that scientific psychology has produced in Chein's estimate so little that is relevant to the humanities so little as he puts it that has lived up to psychology's promise to itself What must be more widely understood is that it does not follow that behavioral law is reducible to physiological law or that physiological law is reducible to physical law With an uncompromising commitment to scientific method Chein shows that when closely analyzed there is actually no need to assume an unbridgeable gap between scientific psychology and psychoanalytic humanistic psychology This is a lucid and powerful theoretical work of importance for scholars in all fields sharing the belief that the proper study of mankind is man The Science of Behavior and the Image of Man is written by the most intellectually stimulating and respected representative of scientific humanistic psychology Robert B Holt Professor of Psychology Graduate School of Arts and Sciences New York University

The Collected Works of Edward Schillebeeckx Volume 3 Edward Schillebeeckx, 2014-09-25 God the Future of Man focuses on religion and secularisation viewed from various vantage points secularisation and God talk secularisation and the church's liturgy secularisation and the church's new self understanding and finally secularisation and the future of humankind on earth in light of the eschaton church and social politics These thought provoking reflections are presented against the backdrop of Schillebeeckx's hermeneutic premises In the concluding chapter his reflections on secularisation culminate in a God concept that can function fruitfully in a modern culture that assigns the future pride of place God as the future of humankind Written in a period pregnant with Cultural Revolution and religious change the book foregrounds the pivotal issue of secularisation in a thought provoking way With feverish urgency he reflects on various forms of religiosity in the modern world His contribution to the debate could just as well have been written today

The Beauty of the Lord Jonathan King, 2018-05-30 Why is God's beauty often absent from our theology Rarely do theologians take up the theme of God's beauty even more rarely do they consider how God's beauty should shape the task of theology itself But the psalmist says that the heart of the believer's desire is to behold the beauty of the Lord In *The Beauty of the Lord* Jonathan King restores aesthetics as not merely a valid lens for theological reflection but an essential one Jesus our incarnate Redeemer displays the Triune God's beauty in his actions and person from creation to final consummation How can and should theology better reflect this unveiled beauty *The Beauty of the Lord* is a renewal of a truly aesthetic theology and a properly theological aesthetics

Eliot's Poetry** Mariwan Nasradeen Hasan Barzinji, 2012-11-21 The Image of Modern Man in T S Eliot's Poetry The book presents an original understanding of The Image of Modern Man in T S Eliot's complex and difficult poems in an easy and understandable way Eliot's vision of the Modern Man and the modern world is depicted throughout Eliot's most well known poems Eliot was criticized by some critics for the quality of his work The aim of this book is to show what an excellent and successful writer he is to reveal the value and the contemporaneity of his work His poetry is highly evaluated for its unique way of depicting the Modern humanity by realizing their problems as well as finding solutions for them The book is a great help not only for students but also for researchers as the writer has spent much time in reading Eliot's Poems He has also written an ample introduction about modernism modernity modern literature and modern poetry which might be enough to understand the rise of modern poetry All of Eliot's poems especially The Waste Land has presented readers with all the aspects of the modern life Life is depicted as a mirror broken and shattered into pieces as it is clear in the different parts of the poem Eliot unlike many poets did not leave the modern man lost in despair but he finds them their peace of mind by having a true and stable faith as well as their turning to God The only solution for the entire problems of modern man is to turn to God and neglect the world that completely occupied them spiritually Modern man has lost his values especially women by only looking after children many of them turned to prostitution because they did not have any source of income therefore they used that as a way to earn money to maintain life These are the characteristics of the modern city which are shared by all the countries especially Europe Eliot insists on the necessity of turning from world to God He believed that God can solve their problems because man or any other earthly power could not change that gloomy and aimless life which modern man complained against **Library of Congress Catalogs** Library of Congress, 1964
