Epilogue The Fall of Self Determination Writing of the Formless Jaime Rodríguez Matos, 2016-12-01 In this book Jaime Rodríguez Matos proposes the formless as a point of departure in thinking through the relationship between politics and time. Thinking through both literary and political writings around the Cuban Revolution Rodríguez Matos explores the link between abstract symbolic procedures and various political experiments that have sought to give form to a principle of sovereignty based on the category of representation. In doing so he proposes the formless as the limit of modern and contemporary reflections on the meaning of politics while exploring the philosophical consequences of a formless concept of temporality for the critique of metaphysics. Rodríguez Matos takes the writing and thought of José Lezama Lima as the guiding thread in exploring the possibility of a politics in which time is imagined beyond the disciplining functions it has had throughout the metaphysical tradition: a time of the absence of time in which the absence of time no longer means eternity.

Gramsci Michael Ekers, Gillian Hart, Stefan Kipfer, Alex Loftus, 2012-10-17 This unique collection is the first to bring attention to Antonio Gramsci's work within geographical debates. Presenting a substantially different reading to Gramsci scholarship, the collection forges a new approach within human geography, environmental studies and development theory. Offers the first sustained attempt to foreground Antonio Gramsci's work within geographical debates. Demonstrates how Gramsci articulates a rich spatial sensibility whilst developing a distinctive approach to geographical questions. Presents a substantially different reading of Gramsci from dominant post-Marxist perspectives as well as more recent anarchist and post-anarchist critiques. Builds on the emergence of Gramsci scholarship in recent years, taking this forward through studies across multiple continents and asking how his writings might engage with and animate political movements today. Forges a new approach within human geography, environmental studies and development theory, building on Gramsci's innovative philosophy of praxis.

Education, Globalization and the State in the Age of Terrorism Michael A. Peters, 2015-12-03 Education plays an important role in challenging, combating and in understanding terrorism in its different forms, whether as counter-terrorism or as a form of human rights education. Just as education has played a significant role in the process of nation building, so education also plays a strong role in the process of empire, globalization and resistance to global forces and in terrorism, especially where it is linked to emergent statehood. This book focuses on the theme of education in an age of terrorism, exploring the conflicts of globalization and global citizenship, feminism, post-9/11 youth identities, citizenship and democracy in a culture of permanent war and the relation between education and war, with a focus on the war against Iraq.

Capitalism Geoffrey Ingham, 2013-04-24 Now with a substantial new postscript on the financial crisis. This book provides a basic introduction to the nuts and bolts of capitalism. It starts by examining the classic accounts of capitalism found in the works of Adam Smith, Karl Marx, Max Weber, Joseph Schumpeter and John Maynard Keynes. Each placed emphasis on different institutional elements of capitalism: Smith on the market's invisible hand, Marx on capital's exploitation of labour, Weber on the foundations of economic rationality and Schumpeter and Keynes on the instability that results from capitalism's

essentially monetary and financial character Drawing on these classic accounts Ingham then offers a succinct analysis of capitalism's basic institutions and their interconnections Market exchange the monetary system the enterprise capital and financial markets and the role of the state are dealt with in separate chapters which make use of contemporary material on the recent history of the capitalist system including the great inflation of the 1970s and the neo liberal backlash the dot com bubble of the late 1990s and the collapse of Enron and other US corporations This revised version includes a substantial new postscript on the financial crisis of 2007-8 and its aftermath The result is a concise masterly and up to date account of the world's most powerful economic system written in a way that is accessible to students and general readers alike

A Japanese Reconstruction Of Marxist Theory Robert Albritton, 1986-04-02 **The Privilege of Being Banal** Elayne Oliphant, 2021-06-01 France officially is a secular nation Yet Catholicism is undeniably a monumental presence defining the temporal and spatial rhythms of Paris At the same time it often fades into the background as nothing more than heritage In a creative inversion Elayne Oliphant asks in *The Privilege of Being Banal* what exactly is hiding in plain sight Could the banality of Catholicism actually be a kind of hidden power Exploring the violent histories and alternate trajectories effaced through this banal backgrounding of a crucial aspect of French history and culture this richly textured ethnography lays bare the profound nostalgia that undergirds Catholicism's circulation in nonreligious sites such as museums corporate spaces and political debates Oliphant's aim is to unravel the contradictions of religion and secularism and in the process show how aesthetics and politics come together in contemporary France to foster the kind of banality that Hannah Arendt warned against the incapacity to take on another person's experience of the world A creative meditation on the power of the taken for granted *The Privilege of Being Banal* is a landmark study of religion aesthetics and public space

Diverging Capitalisms Colin Hay, Daniel Bailey, 2018-12-30 This book analyses the changing nature of the British economy and the consequences of Brexit upon its place within the European economic space The overhang from the global financial crisis the Eurozone crisis the political negotiation of prolonged economic downturn and now the spectre of Brexit provide the backdrop for various forms of capitalist restructuring designed to restore competitiveness and prosperity This restructuring has clear implications for existing European growth models the structural imbalances and inequalities which characterise the British economy the fortunes of the City of London and competing financial districts internationally and the prospective strategies of progressive politics in this context Adopting a broadly critical political economy lens which gives analytical

weight to the relationship between economic and political dynamics the book will draw on the research of eminent scholars to assess divergence in the foundations of economic competitiveness and their social repercussions Modernity Britain David Kynaston, 2014-09-11 Following *Austerity Britain* and *Family Britain* the third volume in David Kynaston's landmark social history of post war Britain *Triumphant* A historian of peerless sensitivity and curiosity about the lives of individuals *Financial Times* This superb history captures the birth pangs of modern Britain It is a part of Kynaston's huge achievement that such moments of insight and pleasure should accompany what has become a monumental history of our recent past *The Times* _____ David Kynaston's history of post war Britain has so far taken us from the radically reforming Labour governments of the late 1940s in *Austerity Britain* and through the growing prosperity of *Family Britain*'s more placid 1950s Now *Modernity Britain* 1957-62 sees the coming of a new *Zeitgeist* as Kynaston gets up close to a turbulent era in which the speed of social change accelerated The late 1950s to early 1960s was an action packed often dramatic time in which the contours of modern Britain began to take shape These were the never had it so good years when the *Carry On* film series got going and films like *Room at the Top* and the first soaps like *Coronation Street* and *Z Cars* brought the working class to the centre of the national frame when *CND* galvanised the progressive middle class when youth emerged as a cultural force when the *Notting Hill* riots made race and immigration an inescapable reality and when meritocracy became the buzz word of the day In this period the traditional norms of morality were perceived as under serious threat *Lady Chatterley's Lover* freely on sale after the famous case and traditional working class culture was changing wakes weeks in decline the end of the maximum wage for footballers The greatest change though concerned urban redevelopment city centres were being yanked into the age of the motor car slum clearance was intensified and the skyline became studded with brutalist high rise blocks Some of this transformation was necessary but too much would destroy communities and leave a harsh fateful legacy This profoundly important story of the transformation of Britain as it arrived at the brink of a new world is brilliantly told through diaries letters newspapers and a rich haul of other sources and published in one magnificent paperback volume for the first time *Textual Ethos Studies, or: Locating Ethics*, 2016-08-01 What is the relationship between texts and ethics Who decides the ethics of a text the writer or the reader What happens to ethics in texts that portray dreams or psychoses Is violence always inherently unethical In dealing with others is violence to both them and oneself ever completely avoidable *Textual Ethos Studies* does not attempt to provide definitive answers to these questions so much as to be a springboard to the further discussion of ethics in relation to specific texts The essays illustrate varying perspectives ranging from the philosophical to the psychoanalytical to the linguistic that can be used to localize how texts engage or invite an engagement with ethics Twenty scholars representing Asia Europe Israel North America and South Africa highlight the complex relationship between cultural context and ethics and between the ethical and the unethical Several essays deal with the study of atypical texts that represent different attitudes toward the violent the disordered the

traumatized the psychotic and the sentimental in order to encourage or provoke further discussion of the relevance of these types of texts to ethics

Pandemic: A Test of the News Alan O'Connor, 2022-09-30 This book argues against the rapidly expanding literature about misinformation during the Covid 19 pandemic and that the real issues are much broader Mainstream news media except Fox News has generally done a good job in educating people about the basic facts and precautions to be taken *Pandemic A Test of the News* identifies the mainframes used to tell the media story With some exceptions such as long reads in *The New Yorker* and *the Guardian* the media has not included the fundamental factors that caused the pandemic the seriousness of a medical crisis that will last for several years and the same factors that will cause the next pandemic

What Is Enlightenment? Mohammed D. Cherkaoui, 2016-04-11 Political sociology has struggled with predicting the next turn of transformation in the MENA countries after the 2011 Uprisings Arab activists did not articulate explicitly any modalities of their desired system although their slogans ushered to a fully democratic society These unguided Uprisings showcase an open ended freedom to question after Arabs underwent their freedom from struggle from authoritarianism The new conflicts in Egypt Syria Yemen and Libya have fragmented shar iya legitimacy into distinct conceptualizations revolutionary legitimacy electoral legitimacy legitimacy of the street and consensual legitimacy This volume examines whether the Uprisings would introduce a replica of the European Enlightenment or rather stimulate an Arab Islamic awakening with its own cultural specificity and political philosophy By placing Immanuel Kant in Tahrir Square this book adopts a comparative analysis of two enlightenment projects one Arab still under construction with possible progression toward modernity or regression toward neo authoritarianism and one European shaped by the past two centuries Mohammed D Cherkaoui and the contributing authors use a hybrid theoretical framework drawing on three tanwiri enlightenment philosophers from different eras Ibn Rushd known in the west as Averroes the twelfth century Immanuel Kant the eighteenth century and Mohamed Abed Al Jabri the twentieth century The authors propose a few projections about the outcome of the competition between an Islamocracy vision and what Cherkaoui terms as a Demoslamic vision since it implies the Islamist movements flexibility to reconcile their religious absolutism with the prerequisites of liberal democracy This book also traces the patterns of change which point to a possible Arab Axial Age It ends with the trials of modernity and tradition in Tunisia and an imaginary speech Kant would deliver at the Tunisian Parliament after those vibrant debates of the new constitution in 2014

The fall and rise of the English upper class Daniel R. Smith, 2023-04-18 The fall and rise of the English upper class explores the role traditionalist worldviews articulated by members of the historic upper class have played in British society in the shadow of her imperial and economic decline in the twentieth century Situating these traditionalist visions alongside Britain's post Brexit fantasies of global economic resurgence and a socio cultural return to a green and pleasant land Smith examines Britain's Establishment institutions the estates of her landed gentry and aristocracy through to an appetite for nostalgic products represented with pastoral or pre modern symbolism It is demonstrated that these institutions and pursuits play a central role in situating social cultural and political belonging Crucially these institutions and pursuits rely upon a form of membership which is grounded in a kinship idiom centred upon inheritance and descent who inherits the houses of privilege inherits England
