**Mid-American Review of Sociology**, 1991      **Political Women in Japan** Susan J. Pharr, 2023-04-28 Drawing on interviews with one hundred young Japanese women engaged in a spectrum of voluntary political groups Susan J Pharr explores how politically active women overcome the constraints that bar or limit the political participation of the average woman The book treats political volunteers as agents of social change in a process of role redefinition by which prevailing concepts of women's roles gradually adjust to accommodate political behavior Tracing developments that led to the grant of suffrage and other political rights to women during the Allied occupation Pharr sets the stage for an analysis of that process as it unfolds in the experience of individual women She uses women's images of self and society and issues of political and gender role socialization career and life expectations and political role and participation to develop a three fold typology for looking at political women in Japan She examines both the satisfactions of political volunteerism from the exhilaration of addressing a crowd from a sound truck to the pleasure of speaking men's language and the psychological and social costs associated with it This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981      *Gender, Class and Education (Routledge Revivals)* Stephen Walker, Len Barton, 2013-11-05 First published in 1983 *Gender Class and Education* is a collection of papers that formed presentations at the Westhill Sociology of Education Conference in January 1982 and is the fifth such collection to emerge from the annual conference The conference theme Race Class and Gender was not only chosen because of its topicality but also to provide a framework for debate between educational researchers and teachers The papers focus on the reproduction of gender relations through education and provide important insights into how this process works how it is resisted in schools and colleges and the possibilities for radical intervention This volume includes three teaching bibliographies on gender and education which were not presented at the conference but were compiled specially for the book      **Affirmative Action And Equal Opportunity** Nijole V. Benokraitis, 2019-04-10 The affirmative action program has engendered a hostile reaction in many quarters Originating in presidential executive orders and civil rights legislation the program is intended to combat institutional race and sex discrimination by encouraging public and private organizations to go beyond the mere cessation of formal discriminatory practices to enact their own programs to end unfair practices In contrast to the passive nondiscrimination of equal opportunity affirmative action means that employers must act positively affirmatively and aggressively to remove all barriers however informal or subtle that prevent minorities and women from having equal access

to all levels of the nation's educational, industrial and government institutions. Is affirmative action in fact geared to equal opportunity? Or has it resulted in greater inequality for white males? The authors of this book empirically examine employment in government, industry and higher education and enrollment in colleges and universities to determine the current status of women and minorities as employees and students. They also describe the machinery of affirmative action, its budget and staff problems, the compliance and enforcement processes and the results of the program. Their final chapter includes a theoretical explanation for the very apparent resistance to affirmative action and expresses their pessimism about the program's ability to accomplish its goals, especially in light of recent efforts to weaken its already limited power. They close with a discussion of the future of affirmative action and the likelihood of achieving equal opportunity in employment. **Women and American Politics**

Susan J. Carroll, 2003. This volume brings together leading scholars in the field of women and politics to provide an account of recent developments and the challenges that the future brings for women in American politics. The book examines women's participation in the electoral arena and the emerging scholarship on the relationship between the media and women in politics, the participation of women of colour and women's activism outside the electoral arena. This volume demonstrates both the wealth of knowledge about women and American politics by the current generation of scholars and the vast number and range of important research questions which pose a challenge for the next generation. **Women's International**

**Network News** Women's International Network, 1978 **Women Transforming Politics** Cathy Cohen, Kathleen B.

Jones, Joan C. Tronto, 1997-07. Contains over thirty essays which explore the complex contexts of political engagement, family and intimate relationships, friendships, neighborhood, community, work, environment, race, religious and other cultural groupings that structure perceptions of women's opportunities for political participation. Claiming Her Place in Congress

Katherine H. Adams, 2019-07-22. The fall of 2018 saw an unprecedented number of women elected to Congress, changing estimates of how long it might take to achieve equal representation. For the first time, women candidates used techniques honed by America's political families which have helped women enter politics since 1916. Drawing on extensive research and conversations with successful women politicians, this book offers a history of the political opportunities provided through familial connections. Family networks have a long history of enabling women to run for political office. There is much for the latest group of candidates to emulate. **Woman in America** Virginia R. Terris, 1980 Dictionary of American History:

Subversion to Zuni Stanley I. Kutler, 2003. The third edition, first published in 1940 and last revised in 1976, has been updated completely. The editors have revised 448 articles, replaced 1360 articles and added 841 new entries. Gender, race and social history perspectives have been added to many entries. In another departure from the earlier editions, the editors have added maps and illustrations throughout the text.
