Dementia Care with Black and Latino Families Delia González Sanders, Richard Harold Fortinsky, 2012 Print CourseSmart

Care in Practice Annemarie Mol, Ingunn Moser, Jeannette Pols, 2015-02-15 In what way is care a matter of tinkering Rather than presenting care as a preferably warm relation between human beings the various contributions to the volume give the material world usually cast as cold a prominent place in their analysis Thus this book does not continue to oppose care and technology but contributes to rethinking both in such a way that they can be analysed together Technology is not cast as a functional tool easy to control it is shifting changing surprising and adaptable In care practices all things are and have to be tinkered with persistently Knowledge is fluid too Rather than a set of general rules the knowledges in the plural relevant to care practices are as adaptable and in need of adaptation as the technologies the bodies the people and the daily lives involved

Geropsychology and Long Term Care Erlene Rosowsky, Joseph M. Casciani, Merla Arnold, 2010-01-23 It is with great pride that the Psychologists in Long Term Care PLTC have sponsored The Professional Educational Long Term Care Training Manual and now its second iteration Geropsychology and Long Term Care A Practitioner's Guide Education of psychologists working in long term care settings is consistent with PLTC's mission to assure the provision of high quality psychological services for a neglected sector of the population i.e residents in nursing homes and assisted living communities To this end direct training of generalist psychologists in the nuances of psychological care delivery in long term care settings has been a major priority It is a tribute to the accelerating nature of research in long term care settings that a revision is now necessary After all the Professional Educational Training Manual's initial publication date was only in 2001 However in the intervening years much progress has been made in addressing assessment and intervention strategies tailored to the needs of this frail but quite diverse population It is so gratifying to be able to say that there is now a corpus of scientific knowledge to guide long term care service delivery in long term care settings
