Modern Catholic Social Teaching Joe Holland, 2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical *Rerum novarum* was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people Modern Catholic Social Teaching traces this historic shift as it played out in the writings of Leo and the popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergen

**Introducing Catholic Social**

**Thought** J. Milburn Thompson, 2015-02-26 Introduces Catholic social teaching of the twenty first century and includes encyclicals of Benedict XVI      Catholic Social Thought Jonathan Boswell, Francis P. McHugh, Johan Verstraeten, 2000 These essays are an attempt to recover something of the form style and force of Catholic non official social thinking in the face of contemporary social thought and contemporary injustice in advanced societies After an opening essay by the doyen of Catholic writers in this field Jean Yves Calvez SJ the book is divided into three sections The first and largest group of essays discuss patterns and predicaments of Catholic social thought in general terms and from different points of view The context here is partly the debate on modernity high modernity and post modernity partly the issue of how far and in what ways Catholic Social Thought can claim to be distinctive relative to contemporary secular thought The second section of the book focusses on relationships between Catholic social thought and its restatement and a number of contemporary debates on public issues Particular attention is given in successive essays to issues of anti poverty human rights economic theory and international finance A third and shorter section describes a number of institutional projects which attempt to carry Catholic social values forward into concrete action focussing on work in health and welfare grass roots economic co operation anti poverty and international peace and justice Final contributions by the reputed international scholar in this field John Coleman SJ and the book editors respectively evaluate the collection as a whole and discuss further steps      Modern Catholic Social Teaching Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s Rerum Novarum The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical Caritas in Veritate and one on Pope Francis s encyclical Laudato Si An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching      **Catholic Social Teaching and Theologies of Peace in Northern Ireland** Maria Power, 2020-07-07 This book investigates the response of the Catholic Church in Northern Ireland to the conflict in the region during the late Twentieth Century It does so through the prism of the writings of Cardinal Cahal Daly 1917 2009 the only member of the hierarchy to serve as a bishop throughout the entire conflict This book uses the prolific writings of Cardinal Daly to create a vision of the Peaceable Kingdom and demonstrate how Catholic social teaching has been used to promote peace justice and nonviolence It also explores the public role of the Catholic Church in situations of violence and conflict as well as the importance for national churches in developing a voice in the public square Finally the

book offers a reflection on the role of Catholic social teaching in contemporary society and the ways in which the lessons of Northern Ireland can be utilised in a world where structural violence as evidenced by austerity and reactions to Brexit in the United Kingdom is now the norm This work challenges and changes the nature of the debate surrounding the role of the Catholic Church in the conflict in Northern Ireland It will therefore be a key resource for scholars of Religious Studies Catholic Theology Religion and Violence Peace Studies and Twentieth Century History

**Sociology and Catholic Social Teaching** Stephen R. Sharkey, 2012-08-31 Sociology and Catholic Social Teaching Contemporary Theory and Research contains essays by key scholars in the territory where Catholic social thought and secular sociology meet and offers a much needed alternative to the relativism and individualism that so often characterize social scientific analysis today Contributors to this volume argue that Catholic social teaching as articulated so powerfully today in recent papal encyclicals and major summations such as the Compendium of the Social Doctrine of the Church offers a powerful moral framework for addressing today's pressing social problems This is especially true since many of its tenets find solid support in social scientific research on the nature of the person and the workings of culture and social institutions Sponsored by the Society of Catholic Social Scientists and including work by sociologists from both the Society and the Pontifical Academy of Social Sciences this volume is offered in the spirit of Pope John Paul II's exhortation to draw from contemporary social science whatever can help the Church better understand contemporary social issues and trends and thus better serve humanity Specific articles address such topics as the Church as a virtual nation in the international arena changing cultural norms regarding deviance the historical and contemporary relationship between Catholicism and mainstream academic sociology empirical support for a natural law perspective on family relations the social psychology of happiness and moral behavior among emerging adults the sociology of knowledge from a distinctively Catholic perspective and how the principles of subsidiarity and solidarity can be used to analyze and evaluate the functioning of institutions like the family education and the state Each author also offers some autobiographical reflections on how they relate sociology and their life of Faith This anthology will interest scholars in both sociology and Catholic social thought as well as advanced undergraduate and graduate students in these areas

*Catholic Social Teaching, 1891-Present* Charles E. Curran, 2002-03-30 Charles E Curran offers the first comprehensive analysis and criticism of the development of modern Catholic social teaching from the perspective of theology ethics and church history Curran studies the methodology and content of the documents of Catholic social teaching generally understood as comprising twelve papal letters beginning with Leo XIII's 1891 encyclical *Rerum novarum* two documents from Vatican II and two pastoral letters of the U S bishops He contends that the fundamental basis for this body of teaching comes from an anthropological perspective that recognizes both the inherent dignity and the social nature of the human person thus do the church's teachings on political and economic matters chart a middle course between the two extremes of individualism and collectivism The documents themselves tend to downplay any discontinuities with previous documents but

Curran's systematic analysis reveals the significant historical developments that have occurred over the course of more than a century. Although greatly appreciative of the many strengths of this teaching, Curran also points out the weaknesses and continuing tensions in Catholic social teaching today. Intended for scholars and students of Catholic social ethics as well as those involved in Catholic social ministry, this volume will also appeal to non-Catholic readers interested in an understanding and evaluation of Catholic social teaching.

The Catholic Social Imagination Joseph M. Palacios, 2008-11-15  
The reach of the Catholic Church is arguably greater than that of any other religion, extending across diverse political, ethnic, class, and cultural boundaries. But what is it about Catholicism that resonates so profoundly with followers who live under disparate conditions? What is it, for instance, that binds parishioners in America with those in Mexico? For Joseph M. Palacios, what unites Catholics is a sense of being Catholic, a social imagination that motivates them to promote justice and build a better world. In *The Catholic Social Imagination*, Palacios gives readers a feeling for what it means to be Catholic and put one's faith into action. Tracing the practices of a group of parishioners in Oakland, California, and another in Guadalajara, Mexico, Palacios reveals parallels and contrasts in the ways these ordinary Catholics receive and act on a church doctrine that emphasizes social justice. Whether they are building a supermarket for the low-income elderly or waging protests to promote school reform, these parishioners provide important insights into the construction of the Catholic social imagination. Throughout, Palacios also offers important new cultural and sociological interpretations of Catholic doctrine on issues such as poverty, civil and human rights, political participation, and the natural law.

Catholic Social Learning, Expanded Edition Roger Bergman, 2023-12-20  
The award-winning and widely read first edition of *Catholic Social Learning: Educating the Faith That Does Justice*, published in 2011, described the critical edge of the tradition of justice pedagogy in Catholic higher education at the end of the first decade of the twenty-first century. But living traditions change in response to new challenges and develop their own resources more fully. The most obvious and compelling development in recent years has been the publication in 2015 of Pope Francis' landmark encyclical *Laudato Si' On Care for Our Common Home*, the occasion for the new chapter length afterword to

this expanded edition of Catholic Social Learning The urgent imperative to defend creation is a major but not the only reason for a new edition Two new chapters on the many forms of shame as a pedagogical issue and on the Book of Job and belief in a just world add spiritual and theological depth to the original assessment of more than a decade ago Those three additions comprise the totally new Part IV The Critical Edge of the Tradition A new preface sets the argument in the context of current controversies over the place of painful emotions in educational settings      **Globalization, Spirituality, and Justice**

**Revised Edition** Daniel G. Groody, 2015-10-15 A theological reading of globalization and a global reading of theology This book offers a rigorously critical and yet inspiring vision of justice as an integral part of Christian spirituality in our complex globalized world At the same time Daniel Groody's analysis draws on the conviction that faith and spirituality have an integral role in the struggle to achieve a more just social order      **Confronting the Challenge** Suzanne Mulligan, 2010 This book examines some of the ways in which HIV AIDS is affecting South African society Catholic theological responses have focused extensively on the implications of HIV AIDS for the area of sexual ethics Although there are important questions to be answered here many more fundamental issues have been overlooked as a result This book responds to the need within Catholic theology for a greater examination of the injustices associated with the AIDS pandemic The author argues that the human rights challenges associated with poverty gender discrimination sexual violence and access to essential AIDS related health care are a crucial feature of the crisis The author turns to the social teaching of the Catholic Church for a fuller framework of analysis in this regard and provides a critical examination of that teaching's core concepts and principles The work of leading international economists Amartya Sen and Muhammad Yunus is explored as a means of relating the principles of Catholic social teaching to the concrete social and economic realities that exacerbate this global pandemic

*In the Spirit of St. Francis & the Sultan* George Dardess, Marvin L. Krier Mich, 2011 Here two practitioners of interfaith dialogue provide readers with a guide for Catholics and Muslims to reach greater mutual understanding and work for social justice      **Being Faithful: Christian Commitment in Modern Society** Judith A. Merkle, 2010-09-02 This book explores how the Christian life is lived in a pluralistic situation where different contexts of belonging give rise to different moral challenges While it is characteristic of modern life to exist in a postmodern situation where there is an erosion of comprehensive systems of meaning we still live today in contexts of belonging We still seek to gather out of the fragments of modern life the sustenance of a network of belonging belief and practice which comprise a faithful life The construction of such a life not only for us but for others serves as the framework for our moral commitments Furthermore sustaining and transforming social frameworks which shape various aspects of human life form the life task of adult Christians      **A Call to Fidelity** James J. Walter, Timothy E. O'Connell, Thomas A. Shannon, 2002-10-17 A Call to Fidelity seeks to thoughtfully examine and critically evaluate the contributions that Charles E Curran has made to the field of Catholic moral theology over the past forty years It also seeks to assess the development of specific topics in contemporary moral theology to which

Curran has made his unique mark particularly in fundamental ethics sexual and medical ethics social and political ethics and topics related to dialogue with other traditions and approaches to Catholic ethics Reviewing the many years of his influential writings thought and scholarship fourteen distinguished scholars examine his contributions and the current state of the topics under discussion which are as far ranging as academic freedom birth control gay and lesbian relationships and feminism Each contributor also provides a critical evaluation of Curran s work and outlines how these areas will hold or undergo transformation as the church looks toward its relationship with society and culture in the coming decades
