African Contextual Realities Rodney L. Reed, 2018-08-14. Everyone who has eyes to see acknowledges the growing importance of the African church to the future of global Christianity. But what does it mean for the church to take root in Africa? How should the message of the gospel and the practice of Christianity be contextualized for Africa? *African Contextual Realities* addresses many of the questions surrounding contextualization from a practical point of view and is the fruit of the 6th Annual Conference of the Africa Society of Evangelical Theology held in Nairobi in 2016. The book explores such questions as: In what ways should the mission of God be universally recognizable in every cultural context? In our efforts to contextualize, how do we avoid compromising the very gospel we are to proclaim? How can the African church wean itself away from dependency on the Western church? How does Christianity speak into some of the cultural and social issues arising out of contemporary African settings, issues like widow cleansing, Christian-Muslim relations, and peace building? All those who are interested to learn more about the contextualization of African Christianity will find this volume to be an important resource.

Christian Ethics and Contemporary Moral Problems Michael C. Banner, 1999-09-28 This book addresses such key ethical issues as euthanasia the environment biotechnology abortion the family sexual ethics and the distribution of health care resources Michael Banner argues that the task of Christian ethics is to understand the world and humankind in the light of the credal affirmations of the Christian faith and to explicate this understanding in its significance for human action through a critical engagement with the concerns claims and problems of other ethics He illustrates both the distinctiveness of Christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent The book's importance lies in its attempt to show the crucial difference which Christian belief makes to an understanding of these issues whilst at the same time demonstrating some of the weaknesses and confusions of certain popular approaches to them
