New Enemy:

Enemy Images in American History Ragnhild Fiebig-von Hase, Ursula Lehmkuhl, 1998-01-01 It seems to be a tenet of the human condition to perceive others as different and potentially hostile In nearly all societies stereotypes are developed to stigmatize suspected enemies within and without The American case is particularly interesting in this respect because American society consists of nothing but others to be open to others and welcome those who are different is one of the basic tenets of the country However this principle often conflicts with the need to integrate all these strangers into a homogeneous governable society which causes the formation of hostile stereotypes of certain ethnic groups that do not fit in The authors in this volume look at the development of these enemy images which form a fairly consistent pattern from the period of the American Revolution to the post World War II era In doing so they focus on the question of to what extent these enemy images influence the formulation and outcome of foreign domestic and immigration policies The Enemy in Contemporary Film Martin Löschnigg, Marzena Sokołowska-Paryż, 2018-08-21 Culture and conflict inevitably go hand in hand The very idea of culture is marked by the notion of difference and by the creative fraught interaction between conflicting concepts and values The same can be said of all key ideas in the study of culture such as identity and diversity memory and trauma the translation of cultures and globalization dislocation and emplacement mediation and exclusion This series publishes theoretically informed original scholarship from the fields of literary and cultural studies as well as media visual and film studies It fosters an interdisciplinary dialogue on the multiple ways in which conflict supports and constrains the production of meaning on how conflict is represented how it relates to the past and projects the present and how it frames scholarship within the humanities Editors Isabel Capeloa Gil Catholic University of Portugal Lisbon Portugal Paulo de Medeiros University of Warwick UK Catherine Nesci University of California Santa Barbara USA Editorial Board Arjun Appadurai New York University Claudia Benthien Universität Hamburg Elisabeth Bronfen Universität Zürich Bishnupriya Ghosh University of California Santa Barbara Joyce Goggin Universiteit van Amsterdam Lawrence Grossberg University of North Carolina at Chapel Hill Andreas Huyssen Columbia University Ansgar Ninning Universität Gießen Naomi Segal University of London Birkbeck College Marcio Seligmann Silva Universidade Estadual de Campinas Antônio Sousa Ribeiro Universidade de Coimbra Roberto Vecchi Università di Bologna Samuel Weber Northwestern University Liliane Weissberg University of Pennsylvania Christoph Wulf FU Berlin Longxi Zhang City University of Hong Kong **The teacher is the enemy** Pâmela Passos, Amanda Mendonça, 2021-12-10 In recent years Brazil has experienced a situation that brings together serious and constant episodes of attacks on human rights In addition to this factor we have the withdrawal of basic social rights such as access to food housing health education work among others A scenario where the dismantling of the State social deprotection and the insecurity of the population are directed towards a supposed threat of destruction of the family and the hegemonic moral order To talk about the construction of this new enemy Pâmela Passos and Amanda Mendonça recapture

the trajectory of one of the people responsible for this invention the Escola Sem Partido Movement MESP This movement by defending supposed pedagogical neutrality accuses educators of influencing their students by exercising persuasive power over them compared to pathology It is also important to say that MESP started to bring together a diversity of actors fundamentally combining sectors of the country's intellectual and party rights the Christian religious summit sectors of the Brazilian business community among others The combined performance of agents through a conservative coalition in defense of the neutral school A scenario where the family is at risk is consolidated a scenario where the education of children is in danger and the teacher is the important piece of this threat

Religions in International Political Economy Sabine Dreher, 2020-07-02 This book shows how religions and their internal struggles shape key actors and processes in the international political economy It highlights how fundamentalist business oriented Christians in the United States were instrumental in the neoliberal turn in US hegemony how Christianity in the form of prosperity religion transformed Latin America and how reactionary religious movements sharpened state competition through illiberal politics in Turkey India and elsewhere But reactionary movements are also confronted by liberationist or more progressive movements such as Islamic feminism that seek to build a more inclusive

global economy Religions and their ideas should be seen as a constitutive part of neoliberal globalization and its contestation in IPE

Protocol Alexander R. Galloway,2006-02-17 How Control Exists after Decentralization Is the Internet a vast arena of unrestricted communication and freely exchanged information or a regulated highly structured virtual bureaucracy In Protocol Alexander Galloway argues that the founding principle of the Net is control not freedom and that the controlling power lies in the technical protocols that make network connections and disconnections possible He does this by treating the computer as a textual medium that is based on a technological language code Code he argues can be subject to the same kind of cultural and literary analysis as any natural language computer languages have their own syntax grammar communities and cultures Instead of relying on established theoretical approaches Galloway finds a new way to write about digital media drawing on his backgrounds in computer programming and critical theory Discipline hopping is a necessity when it comes to complicated socio technical topics like protocol he writes in the preface Galloway begins by examining the types of protocols that exist including TCP IP DNS and HTML He then looks at examples of resistance and subversion hackers viruses cyberfeminism Internet art which he views as emblematic of the larger transformations now taking place within digital culture Written for a nontechnical audience Protocol serves as a necessary counterpoint to the wildly utopian visions of the Net that were so widespread in earlier days
