White Noise ,1991 **America** Victor Kiernan, 2015-10-15 While there have been many analyses of American imperialism few have equalled the breadth or insight of this seminal text one of the first to provide a historical perspective on the origins of the American empire Victor Kiernan one of the world's most respected historians employs a nuanced knowledge of history literature and politics in tracing the evolution of American power Far reaching and ambitious in scope the book combines accounts of the changing relationship between Native Americans and the white population with readings of the works of key cultural figures such as Melville and Whitman as well as an analysis of the way in which money and politics became so closely intertwined in American democracy Also included is a preface by Eric Hobsbawm providing insight into his own views on American imperialism as well as a valuable introduction to Victor Kiernan's work Together they shed useful light on such issues as the uses and misuses of American military might its lack of respect for international agreements and the right to pre-emptive defence issues which remain just as urgent today **Don DeLillo** David Cowart, 2012-08-15 Don DeLillo author

of twelve novels and winner of the National Book Award the PEN Faulkner Award the William Dean Howells Medal and the Jerusalem Prize has begun to rival Thomas Pynchon as the definitive postmodern novelist Always thought provoking and occasionally controversial DeLillo has become the voice of the bimillennial moment Charting DeLillo's emergence as a contemporary novelist of major stature David Cowart discusses each of DeLillo's twelve novels including his most recent work The Body Artist 2001 Rejecting the idea that DeLillo lacks affinities across the cultural spectrum Cowart argues that DeLillo's work invites comparison with that of wide range of antecedents including Dunbar Whitman Wittgenstein Heidegger Freud Lacan Derrida Hemingway Joyce Rilke and Eliot At the same time Cowart explores the ways in which DeLillo's art anticipates parallels and contests ideas that have become the common currency of poststructuralist theory The major site of DeLillo's engagement with postmodernism Cowart argues is language which DeLillo represents as more mysterious

numinous even than current theory allows For DeLillo language remains what Cowart calls the ground of all making Don DeLillo *The Physics of Language* is a provocative investigation of the most compelling issues of contemporary fiction *The Fiction of Postmodernity* Stephen Baker,2000-06-07 *The Fiction of Postmodernity* is a significant and accessible study of the relation of postmodern fiction to theories of the postmodern Contemporary works of fiction by novelists such as Don DeLillo Toni Morrison Salman Rushdie Thomas Pynchon and Martin Amis are viewed in relation to critiques of the culture industry analyses of the postmodern condition and theories of simulacra The work of influential theorists of the postmodern such as Theodor Adorno Jean Fran ois Lyotard Fredric Jameson and Jean Baudrillard is explained and compared The book offers descriptions of the postmodern from both the Marxist critical tradition and from the perspective of postmarxism Key features in both these definitions are explained in relation to modernist and postmodern works of fiction Issues relating to the postmodern representation of history and the development of a postmodern politics are also addressed in relation to works of contemporary fiction **Don DeLillo** Peter Boxall,2006-04-18 One of the few available books of criticism on the topic this monograph presents the fullest account to date of Don DeLillo s writing situating his oeuvre within a wider analysis of the condition of contemporary fiction and dealing with his entire work in relation to contemporary political and economic concerns for the first time Providing a lucid and nuanced reading of DeLillo s ambivalent engagement with American and European culture as well as with modernism and postmodernism and globalization and terrorism this fascinating volume interrogates the critical and aesthetic capacities of fiction in what is an age of global capitalism and US cultural imperialism

Death in Literature Outi Hakola, Sari Kivistö, 2014-05-02 Death is an inevitable yet mysterious event Fiction is one way to imagine and gain knowledge of death Death is very useful to literature as it creates plot twists suspense mysteries and emotional effects in narrations But more importantly stories about death seem to have an existential importance to our lives Stories provide fictional encounters with death and give meaning for both death and life Thus death is more than a physical or psychological experience in literature it also highlights existential questions concerning humanity and storytelling This volume entitled Death in Literature approaches death by examining the narratives and spectacles of death dying and mortality in different literary genres The articles consider literary representations of death from ancient Rome to the Netherlands today and explore ways of dealing with death and dying The discussions also transcend the boundaries of literature by studying literary representations of such socially relevant and death related issues as euthanasia and suicide The articles offer a broad perspective on death s role in literature as well as literature s role in the social and cultural debates about death

The

Cambridge Companion to Don DeLillo John N. Duvall, 2008-05-29 With the publication of his seminal novel *White Noise* Don DeLillo was elevated into the pantheon of great American writers His novels are admired and studied for their narrative technique political themes and their prophetic commentary on the cultural crises affecting contemporary America In an age dominated by the image DeLillo's fiction encourages the reader to think historically about such matters as the Cold War the assassination of President Kennedy threats to the environment and terrorism This Companion charts the shape of DeLillo's career his relation to twentieth century aesthetics and his major themes It also provides in depth assessments of his best known novels *White Noise* *Libra* and *Underworld* which have become required reading not only for students of American literature but for all interested in the history and the future of American culture *Beautiful Chaos* Gordon Slethaug, 2000-11-09 Explores the way chaos theory is incorporated in the work of such writers as Toni Morrison Thomas Pynchon John Barth Don DeLillo and Michael Crichton **Ethical Diversions** Katalin Orban, 2013-09-13 First Published in 2005 This study focuses on a group of related texts which have struggled to rescue rather than eliminate the paradox of answering the original question Why ethics rather than nothing **Timelines of American Literature** Cody Marrs, Christopher Hager, 2019-01-29 A collection of engaging essays that seeks to uniquely reperiodize American literature It is all but inevitable for literary history to be divided into periods Early American antebellum modern post 1945 such designations organize our knowledge of the past and shape the ways we discuss that past today These periods tend to align with the watershed moments in American history even as the field has shifted its perspective away from the nation state It is high time we rethink these defining periods of American literary history as the drawing of literary timelines is a necessary even illuminating practice In these short spirited and imaginative essays 23 leading Americanists gamely fashion new unorthodox literary periods from 600 B C E to the present from the Age of Van Buren to the Age of Microeconomics They bring to light literary and cultural histories that have been obscured by traditional timelines and raise provocative questions What is our definition of modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945 How does the captivity narrative change when we consider it as a contemporary not just a colonial genre What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation Filled with challenges to scholars inspirations for teachers anchored by an appendix of syllabi and entry points for students *Timelines of American Literature* gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the literary past **Postmodern Counternarratives** Christopher Donovan, 2005-02-10 This book provides a wide ranging discussion of realism postmodernism literary theory and popular fiction before focusing on the careers of four prominent novelists Despite wildly contrasting ambitions and agendas all four grow progressively more sympathetic to the expectations of a mainstream literary audience noting the increasingly neglected yet archetypal need for strong explanatory narrative even while remaining wary of its limitations presumptions and

potential abuses Exploring novels that manage to bridge the gap between accessible storytelling and literary theory this book shows how contemporary authors reconcile values of postmodern literary experimentation and traditional realism Signs of the Signs William Brevda, 2011-05-16 This book is a study of signs in American literature and culture It is mainly about electric signs but also deals with non electric signs and related phenomena such as movie sets The sign is considered in both the architectural and semiotic senses of the word It is argued that the drama and spectacle of the electric sign called attention to the semiotic implications of the sign In fiction poetry and commentary the electric sign became a sign of manifold meanings that this book explores a sign of the city a sign of America a sign of the twentieth century a sign of modernism a sign of postmodernism a sign of noir a sign of naturalism a sign of the beats a sign of signs systems the Bible to Broadway a sign of tropes the Great White way to the neon jungle a sign of the writers themselves a sign of the sign itself If Moby Dick is the great American novel then it is also the great American novel about signs as the prologue maintains The chapters that follow demonstrate that the sign is indeed a sign of American literature After the electric sign was invented it influenced Stephen Crane to become a nightlight impressionist and Theodore Dreiser to make the fire sign his metaphor for the city An actual Broadway sign might have inspired F Scott Fitzgerald s *The Great Gatsby* In Manhattan Transfer and U S A John Dos Passos portrayed America as just a spectacular sign William Faulkner s electric signs are full of sound and fury signifying modernity *The Last Tycoon* was a sign of Fitzgerald s decline The signs of noir can be traced to Poe s *The Man of the Crowd* *Absence* flickers in the neons of Raymond Chandler s *Los Angeles* The death of God haunts the neon wilderness of Nelson Algren Hitler s empire was an non intentional parody of Nathanael West s *California* The beats reinvented Times Square in their own image Jack Kerouac s search for the center of Saturday night was a quest for transcendence *Partial Faiths* John A. McClure, 2010-01-25 Spiritual conversions figure heavily in such novels as Thomas Pynchon s *Vineland* Toni Morrison s *Paradise* and Louise Erdrich s *Love Medicine* What connects such varied works is that their convert characters are disenchanted with secularism yet apprehensive of dogmatic religiosity *Partial Faiths* is the first study to identify a body of contemporary fiction in such terms take the measure of its structures and strategies and evaluate its contribution to public discourse on religion s place in postmodern life Postsecularism is most often associated with philosophers and theorists such as Jacques Derrida Richard Rorty Charles Taylor William Connolly Jürgen Habermas and Gianni Vattimo But it is also being explored and invented says John A McClure by many novelists Leslie Marmon Silko Don DeLillo Michael Ondaatje and N Scott Momaday among others These novelists who are often regarded as belonging to different domains of contemporary fiction are fleshing out the postsecular issues that scholars treat more abstractly But the modes of belief elaborated in these novels and the new narrative forms synchronized with these modes are dramatically partial and open ended Postsecular fiction does not aspire to any full mapping of the reenchanting cosmos or any formal moral code nor does it promise anything like full redemption It is partial in another sense as well it is emphatically dedicated to progressive ideals of social

transformation and well being in repudiation of resurgent fundamentalist prescriptions for the same **The Cambridge Companion to American Novelists** Timothy Parrish, 2013 This volume provides newly commissioned essays from leading scholars and critics on the social and cultural history of the novel in America It explores the work of the most influential American novelists of the past 200 years including Melville Twain James Wharton Cather Faulkner Ellison Pynchon and Morrison Ethics of Literary Forms in Contemporary American Literature Rüdiger Heinze, 2005 This work links ethics and the formal arrangement of literary texts It shows that specific formal techniques and devices and the overall form of literary texts always have an ethical dimension and beg certain ethical questions Covering the three main genres of narrative drama and poetry the discussion addresses aspects of syntax line breaks mise en scene and narrative situation as well as the table of contents list of characters and chapter structure in six texts by contemporary American authors Paul Auster Don DeLillo Tony Kushner Suzan Lori Parks John Ashbery and Jorie Graham
