through design While Wright's earliest exhibitions were largely for other architects by the 1930s he was creating public installations intended to inspire debate and change public perceptions about architecture The nature of his exhibitions expanded with the times beyond models drawings and photographs to include more immersive tools such as slides film and even a full scale structure built especially for his 1953 retrospective at the Guggenheim Museum Placing Wright's exhibitions side by side with his writings Smith shows how integral these exhibitions were to his vision and sheds light on the broader discourse concerning architecture and modernism during the first half of the twentieth century Wright on Exhibit features color renderings photos and plans as well as a checklist of exhibitions and an illustrated catalog of extant and lost models made under Wright's supervision

EXISTING IN COSTUME Chan-Hyo Bae, Kim Hong-hee, Bill Kounwenhoven, 2018-11-15 The book covers five photography series which Chan Hyo Bae has worked on so far Self Portrait

Fairy Tales Punishment Witch Hunting and the new series Jumping into the Oil Paintings Each series have been divided into individual categories but the book's editing shows that all series are above the same photographic context As the artist had been fiercely living as a stranger in the U K but was unable to be absorbed and experience alienation and anger as an Asian living in Western culture his artistic challenge to the meta discourse of Western culture became the key word of this series of work Meanwhile Jumping into the Oil Paintings is an extension of Existing in Costume but also a very different attempt In terms of the formality of the work Existing in Costume is a process that visualizes the artist's feelings of prejudice and alienation through elaborating exquisite plan and production while Jumping into the Oil Paintings do not simply damage but deconstruct the subject's essence by gilding on the printed photography or by copying the paintings images and transfer it to animal skins His new series could be seen as a way more aggressive challenge to the system of Western thought and through this we might carefully gauged the direction of his future works This photography book which contains 52 works from five series include articles of Kim Hong hee the art critic and the previous director of Seoul Museum of Art and also Bill Kuenhoven's article who has executive capacity in international photography scene since he had been worked as an editor of several major photography magazines for the past 20 years including Hotshoe International Thus those articles will support an in depth understanding of the artist's works has a meaning as a publication aiming at overseas photography experts and readers
