Morss,Niamh Stephenson,Hans van Rappard,2013-06-29 Theoretical Issues in Psychology is published as the discipline of psychology enters its at least third century The year 2001 brings with it millennial reflections as well as the strange sense of deja vu that we derive from the Kubrick movie As to the former a glance at the contents list of this volume will demonstrate both the maturity and the vigour of theoretical debate within psychology There is a level of sophistication here that should be the cause of quiet celebration Recent ideas about discursive practice and subjectivity chaos theory and autopoiesis are effortlessly entrained with classical issues Canonical texts are looked at with fresh eyes Unresolved social and political questions are doggedly persisted with and new perspectives on the human experience are pioneered We are not afraid of long words even if French in origin but nor are we afraid to recognise that we are physical beings who touch other beings who hold desire and remember and who talk talk talk For surely it is theoretically sensitive work in psychology whether critical or not that best represents what the discipline has to offer the wider community Art & Magic Kathryn Turley-Sonne,2024-09-23 The magical images and protest tools of Artemisia Gentileschi to Amanda Yates Garcia also known as the Oracle of LA are revealed in this book Art Witches have created powerful images that resonate with
