Redefining security in the Middle East Tami Jacoby, Brent Sasley, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license For over five decades the Cold War security agenda was distinguished by the principal strategic balance that of a structure of bipolarity between the United States US and the Soviet Union USSR This book seeks to draw from current developments in critical security studies in order to establish a new framework of inquiry for security in the Middle East It addresses the need to redefine security in the Middle East The focus is squarely on the Arab Israeli context in general and the Palestinian Israeli context in particular The character of Arab Israeli relations are measured by the Israeli foreign policy debate from the 1950s to the 1990s A dialogue between Islam and Islamism as a means to broaden the terrain on which conflict resolution and post bipolar security in the Middle East is to be understood is presented The Middle East peace process MEPP was an additional factor in problematizing the military strategic concept of security in the Middle East The shift in analysis from national security to human security reflects the transformations of the post Cold War era by combining military with non military concerns such as environmental damage social unrest economic mismanagement cultural conflict gender inequity and radical fundamentalism By way of contrast to realist international relations IR theory developing world theorists have proposed a different set of variables to explain the unique challenges facing developing states Finally the book examines the significance of ecopolitics in security agendas in the Middle East

Regional Security in the Middle East Pinar Bilgin, 2004-09-09 This is an accessible yet critical analysis of regional security in the Middle East Using a non realist approach Bilgin provides a comprehensive study of the past present and future of security in the region She also considers the question of identity formation explaining how and why various regional representations came into being and explor

Kemalism in Turkish Politics Sinan Ciddi,2009-01-13

This book is concerned with Turkey s political evolution the role of Kemalism and why a social democratic alternative has never fully developed Concentrating on the electoral weaknesses of the Turkish centre left represented by the Republican People s Party CHP Sinan Ciddi examines the roles of nationalism and the political establishment and the role of Kemalist ideology Established by Kemal Ataturk the CHP is seen to be the founding party of modern Turkey Kemalism sought to create a secular and democratic society based on the principles of republicanism populism secularism nationalism and revolutionism Although this leftist ideology became an integral part of Turkish politics by the early 1960s it has remained a comparatively weak representative movement Its strong ideological stance advocates an authoritarian and exclusionary position particularly in relation to matters such as multiculturalism and democratisation fuelling many debates concerning the role of religion and nationalism within Turkey and perpetuating elements of xenophobia and intolerance This book will be of interest to students of politics history and current affairs and of Turkish politics in particular *A History of Saudi Arabia* Madawi al-Rasheed,2002-07-11

Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world Yet it remains a closed society Its history in the twentieth century is dominated by the story of state formation After the collapse of the Ottoman Empire Ibn Sa ud fought a long campaign to bring together a disparate people from across the Arabian peninsula In 1932 the Kingdom of Saudi Arabia was born Madawi al Rasheed traces its extraordinary history from the age of emirates in the nineteenth century through the 1990 Gulf War to the present day She fuses chronology with analysis personal experience with oral histories and draws on local and foreign documents to illuminate the social and cultural life of the Saudis This is a rich and rewarding book which will be invaluable to students and to all those trying to understand the enigma of Saudi Arabia *Turkey* Meliha

Altunisik,Özlem Tür,2004-10-28 The authors put issues relevant to Turkey today such as consolidating democracy dealing with economic development issues improving its human rights record and its foreign policy in an historical context allowing comparisons with other late developers in the world and reflecting the complexity of Turkish political and socio economic

developments Turkey also argues that the modernization process that started in the nineteenth century with all its elements including secularization and Westernization has taken root

Radical Islam and International Security Efraim Inbar, Hillel Frisch, 2007-12-12 Radical Islam poses a political challenge in the modern world which is like that of no other radical religious movement Ideologically it is perceived by Western policy makers as threatening the liberal democratic ideology by which most states in the West abide and which most other states rhetorically espouse This book serves as a welcome addition to the intellectual and policy debate on the nature of the radical Islam phenomenon and how to respond to it The collection is divided into three parts the first part seeks to understand the Islamic challenge in broad comparative and historical terms while the second part deals with specific regional case studies which seek to identify patterns of uniformity and variation in radical Islam across a wide swath of terrain The third part is policy oriented suggesting possible responses to the Islamic challenge The contributors include distinguished researchers from Europe North America and the Middle East This book will be of much interest to students of Islamism political violence international security and Middle Eastern politics

A Most Masculine State Madawi Al-Rasheed, 2013-03-15 Women in Saudi Arabia are often described as either victims of patriarchal religion and society or successful survivors of discrimination imposed on them by others Madawi Al Rasheed's new book goes beyond these conventional tropes to probe the historical political and religious forces that have across the years delayed and thwarted their emancipation The book demonstrates how under the patronage of the state and its religious nationalism women have become hostage to contradictory political projects that on the one hand demand female piety and on the other hand encourage modernity Drawing on state documents media sources and interviews with women from across Saudi society the book examines the intersection between gender religion and politics to explain these contradictions and to show that despite these restraints vibrant debates on the question of women are opening up as the struggle for recognition and equality finally gets under way

The Gender Imperative Betty A. Reardon, Asha Hans, 2012-12-06 The book asserts that human security derives from the experience and expectation of human well being which depends on four essential conditions a life sustaining environment the meeting of essential physical needs respect for the identity and dignity of persons and groups protection from avoidable harm and expectations of remedy from them The book demonstrates their integral relationship to human security Patriarchy being the germinal paradigm from which most major human institutions such as the state the economy organised religions and social relations have evolved the book argues that fundamental inequalities must be challenged for the sake of equality and security The fundamental point raised is that expectation of human well being is a continuing cause of armed conflict which constitutes a threat to peace and survival of all humanity and human security cannot exist within a militarised security system The editors of the book bring together 14 essays which critically examine militarised security in order to find human security pathways show ways in which to refute the dominant paradigm indicate a clear gender analysis that challenges the current system and suggests alternatives to militarised security With a mix of

female and male feminist scholar activists as contributors the book makes an important contribution to a new discourse on human security **International Relations Scholarship Around the World** Arlene B. Tickner, Ole Wæver, 2009-06-24

This book provides the most comprehensive global analysis of international relations ever published assessing the state of the discipline in different corners of the world through insights derived from sociology of science and postcolonial theory

Archive Wars Rosie Bsheer, 2020-09-22 A study of the Saudi Arabian monarchy's efforts to construct and disseminate a historical narrative to legitimize its rule The production of history is premised on the selective erasure of certain pasts and the artifacts that stand witness to them From the elision of archival documents to the demolition of sacred and secular spaces each act of destruction is also an act of state building Following the 1991 Gulf War political elites in Saudi Arabia pursued these dual projects of historical commemoration and state formation with greater fervor to enforce their postwar vision for state nation and economy Seeing Islamist movements as the leading threat to state power they sought to de-center religion from educational cultural and spatial policies With this book Rosie Bsheer explores the increasing secularization of the postwar Saudi state and how it manifested in assembling a national archive and reordering urban space in Riyadh and Mecca The elites project was rife with ironies in Riyadh they employed world renowned experts to fashion an imagined history while at the same time in Mecca they were overseeing the obliteration of a thousand year old topography and its replacement with commercial megaprojects Archive Wars shows how the Saudi state's response to the challenges of the Gulf War served to historicize a national space territorialize a national history and ultimately refract both through new modes of capital accumulation Praise for Archive Wars An instant classic With incredible insight creativity and courage Rosie Bsheer peels away the political and institutional barriers that have so long mystified others seeking to understand Saudi Arabia Bsheer tells us remarkable new things about the exercise and meaning of power in today's Saudi Arabia Toby Jones Rutgers University author of Desert Kingdom How Oil and Water Forged Modern Saudi Arabia There are now two distinct eras in the writing of Saudi Arabian history before Rosie Bsheer's Archive Wars and after Robert Vitalis University of Pennsylvania author of Oilcraft Archive Wars explores with conceptual brilliance and historical aplomb the various forms of historical erasure central not just to the Kingdom of Saudi Arabia but to all modern states In a finely grained analysis Rosie Bsheer rethinks the significance of archives historicism capital accumulation and the remaking of the built environment A must read for all historians concerned with the materiality of modern state formation Omnia El Shakry University of California Davis author of The Great Social Laboratory Subjects of Knowledge in Colonial and Postcolonial Egypt [Europe after the Wall: The New Frontier](#) Pasquale De Marco, 2025-05-10 Europe after the Wall The New Frontier is a comprehensive and up to date analysis of the challenges and opportunities facing Europe in the 21st century The book examines the political economic social and cultural transformations that have occurred in Europe over the past three decades and assesses the challenges and opportunities that lie ahead Europe after the Wall The New Frontier is divided into ten chapters each of which focuses
