Reframing Christian Education for a Global Generation Heesung Hwang, 2024-09-24 This groundbreaking book serves as a case study delving into the unique challenges faced by the global generation as they navigate the complexities of their hybrid identities. Heesung Hwang, drawing from her extensive experience as both a minister and theologian, presents a compelling vision for religious education inspired by the traditional Korean concept of madang. In this open space, faith communities gather to engage in communal interaction, fostering generative environments where all members are valued and their contributions esteemed. Through the lens of madang, Hwang invites readers to reimagine religious education as a holistic experience that transcends traditional boundaries, encompassing storytelling, conversation, play, and relationship building. This transformative work challenges religious educators to embrace innovative approaches that honor the diverse cultural and religious backgrounds of young people, ultimately paving the way for redemptive communities that empower the next generation to shape new cultural and religious expressions within society. Reframing Christian Education for a Global Generation promises to ignite important conversations and inspire meaningful change within faith communities worldwide.

Precision Abrasive Grinding in the 21st Century Harry G. Sachsel, C.A.E., 2010-08-10 The writing of this book, Precision Abrasive Grinding in the 21st Century, began more than thirty-five years ago with the writing of How To technical briefs that went with our abrasive products so that one has a better understanding of the product and with the application could be better used. I continued to write How To technical briefs with and about new precision abrasive grinding products and systems. During the day working on precision abrasive grinding applications, new ideas and information were learned. I wanted to retain this knowledge, so I decided to write the technical briefs I wrote in the middle of the night. This was a great time to write down on a large yellow pad my experiences of the day. This has continued for more than twenty years, resulting in these two hundred sixty-plus chapters and twelve sections. Unless one writes or records information, it can be lost or forgotten. In addition, you can learn more about the application and how to improve upon it by reviewing your notes and making changes. The chapters are not only a source of information for me but now in book form, these can achieve abrasive product information for others. While writing about my precision abrasive application experiences, I wrote them in layman's language so that all could gain and learn from me. Manufacturing precision abrasive grinding and life are a constant changing situation. So are the materials that are being used in all the new products. In the past, a simple metal product could be machined, heat treated, and then ground if necessary, but now no longer is that true. Material science has developed new lightweight hard metal abrasive ceramic aerospace medical electronic materials that only abrasives can remove, size, shape, and finish. In the past, the use of abrasives and precision abrasive grinding was looked upon as an art, but not any longer as it has now become a true science. Here I am in the year 2010 with all its problems and difficulties: War, unemployment, and all the other problems that you can think of, but here is one area with a bright light, and that is manufacturing with precision abrasive grinding. It has to do with increasing productivity and making a better product at a competitive cost so that work

once again comes back to USA This will increase employment productivity profits and make better products This is why I m having this book published Harry G Sachsels CAE E mail hgsachsels gmail com Junk Gillian Whiteley,2010-11-30 Trash garbage rubbish dross and detritus in this enjoyably radical exploration of Junk Gillian Whiteley rethinks art s historical and present appropriation of junk within our eco conscious and globalised culture She does this through an illustrated exploration of particular materials key moments and locations and the telling of a panoply of trash narratives Found and ephemeral materials are primarily associated with assemblage object based practices which emerged in the mid 1950s and culminated in the seminal exhibition The Art of Assemblage in New York in 1961 With its deployment of the discarded and the filthy Whiteley argues assemblage has been viewed as a disruptive transgressive artform that engaged with narratives of social and political dissent often in the face of modernist condemnation as worthless kitsch In the Sixties parallel techniques flourished in Western Europe the US and Australia but the idiom of assemblage and the re use of found materials and objects with artist as bricoleur is just as prevalent now This is a timely book that uncovers the etymology of waste and the cultures of disposability within these economies of wealth Closing the Achievement Gap in America Dr. Jesse J. Hargrove,2011-07-22 This book reveals how this new generation of learners the Deuce Millennium Generation DMG began their journey from Pre kindergarten at the start of the new millennium in fall 2001 to their middle school years This generation has endured the societal effects of the post 9 11 years for almost ten years yet the author asserts that they will be the best and the brightest He contends that the recent educational training delivered by highly skilled Teacher Training Institutions will contribute to an increase in students knowledge and performance on high stakes measures of assessments over the years The book acknowledges that accreditation is a key factor that plays an important role in the student achievement process This book is a primary source for understanding how the achievement gap in America can be closed The author contends that this scholarly work is the first comprehensive book written on the subject He engages the audiences in issues that are thought provoking and makes the case that the historical social and public education processes have a profound impact on the learning outcomes of students in American schools It is easy to understand why the author puts a name and a face on this new generation of learners The book reveals a clear picture concerning who this generation is and what effects will occur to them if the signs of the times are not reversed This book should be read and used by all Teacher Training Institutions teachers parents and decision makers who are interested in Closing the Achievement Gap in America The gap issue is a national imperative
