## **New Ideas In The Four Knights:**

The Sicilian Four Knights David Willis, 2021-07-19 A Straightforward and Solid Way to Meet 1 e4 With all the many books and articles on the Sicilian Defense there is surprisingly little about the Four Knights Variation Its starting position is reached after 1 e4 c5 2 Nf3 e6 3 d4 cxd4 4 Nxd4 Nf6 5 Nc3 Nc6 It may also be reached after 1 e4 c5 2 Nf3 Nc6 3 d4 cxd4 4 Nxd4 Nf6 5 Nc3 e6 Some prefer 2 e6 to 2 Nc6 because it avoids 3 Bb5 The fundamentals of the Sicilian Four Knights are not hard to learn Black reaches the middlegame quickly and safely with lively piece play in the dynamic positions which arise There is no easy ride for White here and in particular if he gets over ambitious he can find himself on the receiving end of a powerful attack very quickly The material is very well structured and the assessments are objective and backed with accurate analysis which will not cause the reader fatigue by becoming exceedingly elaborate But above all this is an opening that is definitely sound and this work proves it It will improve your ability to score against both weaker and stronger opposition offering clear cut and occasionally bold play Author David Willis has done a fine job of clearly presenting the analysis providing us with comprehensive explanations and sound lines in an opening that deserves more attention and popularity I can wholeheartedly recommend the Four Knights to all levels of players From the Foreword by Vassilios Kotronias About the Author Correspondence senior master David Willis is one of the strongest American correspondence chessplayers He is also a master in over the board play and has been relying on the Sicilian Four Knights as his go to defense against 1 e4 for years He lives with his family in San Diego This is his first book for Russell Enterprises      **New Ideas in the Four Knights** John Nunn, 1993      **How to Out-Prepare Your Opponent** Jeroen Bosch, 2022-06-23 The number of hours you can spend on opening preparation is endless Books videos and databases offer hundreds of ever widening variations But how do you find your way through this labyrinth Where do you start And maybe even more importantly where do you stop International Master Jeroen Bosch provides a solution to those answers He presents a structured approach to the study of openings and the preparation for a club match or a tournament game Every time strapped chess improver will love Bosch s approach instead of studying more hours or memorizing more lines he advises you to start making smart choices The goal is not to reach a slight advantage in every possible line The goal is to dictate what will happen on the board You want to get a position you understand and are happy to play and make your opponent feel uncomfortable Jeroen Bosch provides you with all the tools you need to dominate the opening phase of the game how to use move order and how to use tactics He explains when to play a main line when to come up with an opening surprise or when to risk a gambit And much much more      *The Oracle Of Tarot* Ann Davies, 2021-01-14 Tarot divination is not fortune telling The practice of fortune telling is based on the false notion that human life is governed by luck chance fate or obscure powers at work outside the personality True divination rests upon the occult truth that the causes of all events in human life are really internal proceeding from the Gause of Causes the Universal Intelligent Energy or Life power which is the Source Mover and Knower behind all the phenomena of the universe
