Making Peace with the 60s David Burner, 2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history

New Left Ideology James L. Wood, 1975

Historical Dictionary of the 1960s James S. Olson, 1999-12-30 Few eras in U S history have begun with more optimistic promise and ended in more pessimistic despair than the 1960s When JFK became president in 1960 the U S was the hope of the world Ten years later American power abroad seemed wasted in the jungles of Indochina and critics at home cast doubt on whether the U S was really the land of the free and the home of the brave This book takes an encyclopedic look at the decade at the individuals who shaped the era the civil rights movement the antiwar movement the women's movement and the youth rebellion It covers the political military social cultural religious economic and diplomatic topics that made the 1960s a unique decade in U S history

Sixties Radicals, Then and Now Ron Chepesiuk, 2007-12-26 Aroused by gains in civil rights and galvanized by the antiwar movement radical leaders of the 1960s sought to make revolutionary changes in American society Partly through their leadership a generation was awakened by the call for a counterculture That generation is now responsible for the same social and political structures they

so adamantly and sometimes violently opposed How did the sixties affect the counterculture leaders And what are they doing now Paul Krassner Cleveland Sellers Jane Adams Dave Dellinger Bill Ayers Warren Hinckle Peter Berg Noam Chomsky Tim Leary Philip Berrigan Anita Hoffman Jerry Rubin Erica Huggins Jim Fouratt Bernadine Dohrn Barry Melton Peter Coyote and Abbie Hoffman reflect on the seminal events that dominated the sixties and discuss the major issues and problems facing America and them today *Beyond Charismatic Leadership* Michele Teresa Aronica,2017-09-08 Dorothy Day died recently in New York City With her death the Catholic Worker Movement lost the last of its founders and leaders In this insightful and well documented study Aronica answers the question whether and how the Movement has survived beyond the founders Starting from the notion of charismatic leadership the author converts the Catholic Worker Movement into a test case for the classical analysis of social organization Through participant observation Aronica uncovers and explains the system of power and authority the process of incorporation and the services provided to the poor by the Catholic Worker Movement The Movement's paper the Catholic Worker was used to help provide a typology of membership categories The book is more than a study in the transformation of charismatic leadership it is also a study of the place of radical social thought within American Catholicism Aronica shows the problems that the church structure has with grass roots activities She also illustrates the difficulty that a grass roots organization has in transforming itself into a functioning bureaucracy The book adds a new organizational dimension to the growing number of books on social movements It is well suited for an audience interested in the sociology of religion and for those concerned with a fruitful application of modern ethnographic research to classical frameworks *Exploring Social Change* Kevin Leicht,Charles Harper,2018-08-15 Exploring Social Change provides a compelling analysis of theories that explain social change innovation social movements and revolution and concludes with reflections about how individuals do and should live in an uncertain and rapidly changing world Written in a personal and clear manner the authors provide definitions of key terms and analysis of theories and ideas from the study of social change The seventh edition includes updated examples reflecting the social changes that have occurred in the world around us including new discussions on the environmental and social landscapes as well as updated methods and discussions that reflect that changing field of social change study **The Activist 1960s** Robert C. Cottrell,2023-05-01 Throughout the Long Sixties which spanned much of the seemingly quiescent 1950s and continued into the 1970s progressive activists sought to change American policy both foreign and domestic Beginning with a civil rights crusade that later expanded to a campaign against the Vietnam War the movement eventually splintered into a series of focuses racial ethnic demographic political cultural gender based and environmental This work details activists efforts to ensure basic rights through fostering civic engagement Chapters demonstrate how the various campaigns within the movement were all successful to some extent but none brought about the results that many desired Nonetheless they contributed to a more open egalitarian participatory and emancipated nation that is still being shaped today *Exploring Social Change* Charles L. Harper,Kevin T.

Leicht,2015-08-13 For one semester junior senior and beginning level graduate courses in Social Change An introduction to social change that highlights theories on key topics including social change innovation social movements and revolutions Exploring Social Change America and the World 6e is a comprehensive introduction to social change The last part of the book shifts explicitly to the global level to analyze population and environmental issues and globalization Within this framework the book discusses topics about change and its problems familiar in sociology and social science **Civil Rights Digest** ,1976 Revolutionary Violence and the New Left Alberto Martin Alvarez,Eduardo Rey Tristán,2016-08-05 Leading figures and rising stars in the field present the first contribution explaining the transnational nature of the revolutionary violence of the New Left Focusing on the processes of dissemination of ideologies and mobilization of ideas and repertoires of action among the revolutionary organizations of the New Left in Latin America Europe and the United States this book contributes to our understanding of the dynamics of the New Left wave and at the same time helps explain the why of the emergence of very similar armed leftist groups in vastly different geographical and political contexts **Education and the City** Gerald Grace,2013-06-17 City schools especially those attended by working class and ethnic minority pupils are teh catalysts of many significant issues in educational debate and policy making They bring into sharp focus questions to do with class gender and race relations in education concepts of equality of opportunity and of social justice and controversies about the wider political economic and social context of mass schooling America Western Europe and Australia have all taken a keen interest in the problems of urban schooling The contributors to this collection of original essays all share a concern about these problems although they approach them from a wide range of theoretical and ideological positions Gerald Grace and his contributors criticis the current limitations of urban education as a field of study and they present a foundation for a more historically located and critically informed inquiry into problems conflicts and contradictions in urban schooling Part I presents contributions on theories of the urban Part II focuses upon the history of urban education both in Britain and the USA Part III discusses contemporary policy and practice with essays relating to education in inner city London and in New York City This book was first published in 1984 *Cuba and Western Intellectuals since 1959* K. Artaraz,2009-01-05 This timely book presents a history of the relationship between the Cuban Revolution and intellectuals and activists in France Britain and the United States exploring the complete cycle in this relationship and using it to examine the future of Cuba s symbolic status among intellectuals and activists in the West *Democratic Accountability and International Human Development* Kamran Ali Afzal,Mark Considine,2014-11-27 Scholars and policymakers have long known that there is a strong link between human development and spending on key areas such as education and health However many states still neglect these considerations in favour of competing priorities such as expanding their armies This book examines how states arrive at these decisions analysing how democratic accountability influences public spending and impacts on human development The book shows how the broader paradigm of democratic accountability extending beyond political democracy to also include

bureaucratic and judicial institutions as well as taxation and other modes of resource mobilisation can best explain how states allocate public resources for human development Combining cross country regression analysis with exemplary case studies from Pakistan India Botswana and Argentina the book demonstrates that enhancing human capabilities requires not only effective party competition and fair elections but also a particular nesting of public organisational structures that are tied to taxpaying citizens in an undisturbed chain of accountability It draws out vital lessons for institutional design and our approach to the question of human development particularly in the less developed states This book will be of great interest to postgraduate students and researchers in the fields of political economy public policy governance and development It also provides valuable insights for those working in the international relations field including inside major aid and investment organisations

Marx's Theories Today Ryszard Panasiuk, Leszek Nowak, 1998 **On Ideology** CCCS, 2013-12-16 First published in 2006 as WPCS 10 On Ideology is a product of discussions which were common to a number of working groups in the Centre It confronts the recurring problem of the articulation of cultural studies with some Marxist theories of ideology The first part is explicitly theoretical comprising expositions and critical readings of important theorists of ideology from Lukacs and Gramsci to Althusser and Poulantzas and an overview of sociological approaches Part II considers the theme in relation to two significant contributions to social democratic theories and policies education and community studies Part III discusses the problems raised by the notions of subjectivity and individuality From a series of theoretical engagements the book aims to provide perspectives from which to develop concrete and politically relevant studies of a key aspect of contemporary social formations The Centre for Contemporary Cultural Studies CCCS was a research centre at the University of Birmingham It is notable for producing many key studies and researchers in the field of Cultural Studies It was founded in 1964 by Richard Hoggart who became the first centre director The Cultural Studies department at the University of Birmingham was closed in 2002

France's Political Institutions at 50 Emiliano Grossman, Nicolas Sauger, 2013-10-18 Fifty years after the creation of the Fifth Republic French politics is undergoing profound changes The election of Nicolas Sarkozy has announced a general review of the French political system A special committee the comit constitutionnel is currently drafting a catalogue of potential reforms Debates focus on issues like presidentialization parliamentary scrutiny of the executive or the creation of a popular initiative to trigger constitutional review of given legislative texts These discussions reflect long standing trends in the Fifth Republic This volume aims at analysing those trends and at outlining the major perspectives for future development In particular it puts the French political system in comparative perspectives and provides in depth analysis of the evolution of the major political institutions and their relations The volume argues that substantial reforms have helped to partially reshape French politics Yet it also shows that the fundamental characteristics of semi presidential government have stood firm The question is whether current debates and subsequent reforms are likely to alter the current pattern This book was published as a special issue of West European Politics

Dream the Size of Freedom

R. Joseph Parrott, 2025-07-08 How anti colonial movements in Angola Mozambique and Guinea Bissau reshaped US activist engagement with the Global South from the 1960s through the 1970s *Dream the Size of Freedom* explores how anti colonial movements in Angola Mozambique and Guinea Bissau reshaped US activist engagement with the Global South from the 1960s through the 1970s and influenced American foreign policy as the Vietnam War drew to a close These Portuguese African liberation movements led by nationalists like Eduardo Mondlane and Amílcar Cabral built global solidarity networks to support their military and social challenges to empire while defending against Western intervention US activists disillusioned with the Cold War came to see African self determination as central to global campaigns for racial and economic justice A broad coalition ranging from Black Power radicals to religious liberals mobilized against the North Atlantic alliance with Portugal In the process this grassroots movement helped define a New Left Internationalism that championed decentralized multiracial organizing and a collaborative vision of US foreign policy to redress historic inequalities between Global North and South Drawing on more than fifty oral histories and research in government and activist archives on three continents in English Portuguese French and Afrikaans R. Joseph Parrott reconstructs the transnational anti imperial network that injected Global South priorities into US political debates Popular protests and informational campaigns led to collaborations with legislators eager to constrain the powerful executive branch In 1976 this grassroots legislative alliance halted Gerald Ford's anti communist intervention against the Soviet backed government of newly independent Angola This victory of New Left Internationalist ideas anticipated future anti apartheid and Latin American peace movements while also fueling a conservative revival of Cold War containment By exploring US engagement with the contested process of African decolonization *Dream the Size of Freedom* highlights the origins of two contrasting visions of American foreign policy that defined debates over the country's proper role in the Global South into the 1990s
