Arabs in the Early Islamic Empire Brian Ulrich,2019-05-09 Examining a single broad tribal identity al Azd from the immediate pre Islamic period into the early Abbasid era this book notes the ways it was continually refashioned over that time It explores the ways in which the rise of the early Islamic empire influenced the peoples of the Arabian Peninsula who became a core part of it and examines the connections between the kinship societies and the developing state of the early caliphate This helps us to understand how what are often called tribal forms of social organisation identity conditioned its growth and helped shape what became its common elite culture Studying the relationship between tribe and state during the first two centuries of the caliphate author Brian Ulrich's focus is on understanding the survival and transformation of tribal identity until it became part of the literate high culture of the Abbasid caliphate and a component of a larger Arab ethnic identity He argues that from pre Islamic Arabia to the caliphate greater continuity existed between tribal identity and social practice than is generally portrayed

Oman, Culture and Diplomacy Jeremy

Jones,2013-03-10 This book is a cultural history offering an historical account of the formation of a distinctive Omani culture arguing that it is in this unique culture that a specific conception and practice of diplomacy has been developed **New Islamic Dynasties** C. E. Bosworth,2019-06-01 Those coming to the study of Islamic history for the first time face a baffling array of rulers and dynasties in the many different areas of Islam This book provides a comprehensive and reliable reference source for all students of history and culture It lists by name the rulers of all the principal Islamic dynasties with Hijri and Common Era dates Each dynastic list is followed by a brief assessment of its historical significance and by a short bibliography Fully updated and substantially revised and expanded for a modern audience this handbook is based upon Bosworth s renowned *The Islamic Dynasties* first published in 1967 and revised in 1980 As well as increasing the number of dynasties covered from 82 to 186 innovations in the new edition include much more extensive listings of honorific titles and of filiations allowing genealogical connections within dynasties to be made Key Features Only reliable chronological and genealogical listing availableCovers all the areas of the Islamic world including Afghanistan the Arabian peninsula Central Asia East Africa Egypt India Indonesia Iran North Africa Persia South East Asia Spain Syria Turkey and West AfricaIncludes 186 dynastiesRecords those rulers who issued coins of great interest to Islamic numismatics *A History of Modern Oman* Jeremy Jones,Nicholas Ridout,2015-08-31 The ideal introduction to the history of modern Oman from the eighteenth century to the present this book combines the most recent scholarship on Omani history with insights drawn from a close analysis of the politics and international relations of contemporary Oman Jeremy Jones and Nicholas Ridout offer a distinctive new approach to Omani history building on post colonial thought and integrating the study of politics and culture The book addresses key topics including Oman s historical cosmopolitanism the distinctive role of Omani Islam in the country s social and political life Oman s role in the global economy of the nineteenth century insurrection and revolution in the twentieth century the role of Sultan Qaboos in the era of oil and Oman s unique regional and diplomatic perspective on contemporary issues *Encounters: Medieval Islamic History in 50 Objects* Marcus Milwright,2025-10-27 This book consists of fifty case studies and offers an innovative approach to the study of Medieval Islamic history concentrating on the analysis of physical objects from the seventh to the eighteenth centuries and across most of the regions that make up the pre Modern Islamic world These include a wide range of objects from portable items like coins vessels and books to major constructions including mosques tombs castles dams and canal systems The central argument is that the interdisciplinary study of physical objects provides invaluable perspectives that can deepen or challenge the evidence in the written record Object based study can also shed light on the lives of social groups who are seldom discussed in Islamic texts written before the modern period To demonstrate these points each case study focusses on a single object or small group of related objects The case studies combine close analysis of the material and visual characteristics with a discussion of the wider context in which such objects were commissioned made used adapted and exchanged The book is intended as an introduction to the historical study of

Islamic objects employing perspectives from the fields of art history archaeology numismatics ethnography and epigraphy Written with a minimum of technical language and supported by a critical introduction an extensive glossary a timeline and guide for further reading the book is aimed at students and general readers who are interested in the political economic social cultural religious and intellectual histories of the Islamic world Oman Reborn Linda Pappas Funsch,2015-12-29 The Sultanate of Oman is one of the few good news stories to have emerged from the Middle East in recent memory This book traces the narrative of a little known and relatively stable Arab country whose history of independence legacy of interaction with diverse cultures and enlightened modern leadership have transformed it in less than fifty years from an isolated medieval style potentate to a stable dynamic and largely optimistic country At the heart of this fascinating story is Oman s sultan Qaboos bin Sa id friend to both East and West whose unique leadership style has resulted in both domestic and foreign policy achievements during more than four decades in office Exploring Oman from a historical perspective Funsch examines how the country s unique blend of tradition and modernization has enabled it to succeed while others in the region have failed Accounts of the author s own experiences with Oman s transformation add rich layers of depth texture and personality to the narrative **Parable and Politics in Early Islamic History** Tayeb El-Hibri,2010-10-19 The story of the succession to the Prophet Muhammad and the rise of the Rashidun Caliphate 632-661 is familiar to historians from the political histories of medieval Islam which treat it as a factual account The story also informs the competing perspectives of Sunni and Shi i Islam which read into it the legitimacy of their claims Yet while descriptive and varied these approaches have long excluded a third reading which views the conflict over the succession to the Prophet as a parable From this vantage point the motives sayings and actions of the protagonists reveal profound links to previous texts not to mention a surprising irony regarding political and religious issues In a controversial break from previous historiography Tayeb El Hibri privileges the literary and artistic triumphs of the medieval Islamic chronicles and maps the origins of Islamic political and religious orthodoxy Considering the patterns and themes of these unified narratives including the problem of measuring personal qualification according to religious merit nobility and skills in government El Hibri offers an insightful critique of both early and contemporary Islam and the concerns of legitimacy shadowing various rulers In building an argument for reading the texts as parabolic commentary he also highlights the Islamic reinterpretation of biblical traditions both by Qur anic exegesis and historical composition *The A to Z of the Gulf Arab States* Malcolm C. Peck,2010-04-12 The A to Z of the Gulf Arab States comes at a time when the world s attention is riveted on the Middle East The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world s total oil reserves Beyond the strategic and economic importance conferred upon them by their vast oil reserves the Gulf Arab states are worthy of attention for the inherent interest of their history and culture No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states Investigations have brought to light extensive evidence of an

important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations

The A to Z of the Gulf Arab States is a paperback reprint of the Historical Dictionary of the Gulf Arab States This edition covers the history of the five countries through a chronology broken down by country a list of acronyms and abbreviations an introductory essay a bibliography and several hundred cross referenced dictionary entries on important persons places and events of each country Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world
