Practice and research of peace education has grown in the recent years as shown by a steadily increasing number of publications programs events and funding mechanisms The oft cited point of departure for the peace education community is the belief in education as a valuable tool for decreasing the use of violence in conflict and for building cultures of positive peace hallmarked by just and equitable structures Educators and organizations implementing peace education activities and programming however often lack the tools and capacities for evaluation and thus pay scant regard to this step in program management Reasons for this inattention are related to the perceived urgency to prioritize new and more action in the context of scarce financial and human resources notwithstanding violence or conflict the lack of skills and time to indulge in a thorough evaluative strategy and the absence of institutional incentives and support Evaluation is often demand driven by donors who emphasize accounting given the current context of international development assistance and budget cuts Program evaluation is considered an added burden to already over tasked programmers who are unaware of the incentives and of assessment techniques Peace education practitioners are typically faced with forcing evaluation frameworks techniques and norms standardized for traditional education programs and venues Together these conditions create an unfavorable environment in which evaluation becomes under valued de prioritized and mythologized for its laboriousness This volume serves three inter related objectives First it offers a critical reflection on theoretical and methodological issues regarding evaluation applied to peace education interventions and programming The overarching questions of the nature of peace and the principles guiding peace education as well as governing theories and assumptions of change transformation and complexity are explored Second the volume investigates existing quantitative qualitative and mixed methods evaluation practices of peace educators in order to identify what needs related to evaluation persist among practitioners Promising practices are presented from peace education programming in different settings formal and non formal education within various groups e g children youth police journalists and among diverse cultural contexts Finally the volume proposes ideas of evaluation novel techniques for experimentation and creative adaptation of tools from related fields in order to offer pragmatic and philosophical substance to peace educators next moves and inspire the agenda for continued exploration and innovation The authors come from variety of fields including education peace and conflict studies educational evaluation development studies comparative education economics and psychology *The Middle East Peace Process* Ilan Peleg,1998-01-01 A comprehensive interdisciplinary look at the history of and complex issues surrounding the peace process

in the Middle East *Revise HSC Modern History Core in a Month* Ron Ringer, 2001 *Plotting for Peace* Daniel Larsen, 2021-04-01 With Britain by late 1916 facing the prospect of an economic crisis and increasingly dependent on the US rival factions in Asquith's government battled over whether or not to seek a negotiated end to the First World War In this riveting new account Daniel Larsen tells the full story for the first time of how Asquith and his supporters secretly sought to end the war He shows how they supported President Woodrow Wilson's efforts to convene a peace conference and how British intelligence clandestinely breaking American codes aimed to sabotage these peace efforts and aided Asquith's rivals With Britain reading and decrypting all US diplomatic telegrams between Europe and Washington these decrypts were used in a battle between the Treasury which was terrified of looming financial catastrophe and Lloyd George and the generals This book's findings transform our understanding of British strategy and international diplomacy during the war *Guarantee of Peace* Peter J. Yearwood, 2009-01-15 Peter Yearwood reconsiders the League of Nations not as an attempt to realize an idea but as an element in the day to day conduct of Britain's foreign policy and domestic politics during the period 1914-25 He challenges the usual view that London reluctantly adopted the idea in response to pressure from Woodrow Wilson and from domestic public opinion and that it was particularly wary of ideas of collective security Instead he examines how London actively promoted the idea to manage Anglo American relations in war and to provide the context for an enduring hegemonic partnership The book breaks new ground in examining how London tried to use the League in the crises of the early 1920s Armenia Persia Vilna Upper Silesia Albania and Corfu It shows how in the negotiations leading to the Draft Treaty of Mutual Assistance the Geneva Protocol and the Locarno accords Robert Cecil Ramsay MacDonald and Austen Chamberlain tried to solve the Franco German security question through the League This involves a re-examination of how these leaders tried to use the League as an issue in British domestic politics and why it emerged as central to British foreign policy Based on extensive detailed archival research this book provides a new and authoritative account of a largely misunderstood topic

The Peace Continuum Christian Davenport, Erik Melander, Patrick M. Regan, 2018-05-21 The idea of studying peace has gained considerable traction in the past few years after languishing in the shadows of conflict for decades but how should it be studied The Peace Continuum offers a parallax view of how we think about peace and the complexities that surround the concept i.e. the book explores the topic from different positions at the same time Toward this end we review existing literature and provide insights into how peace should be conceptualized particularly as something more interesting than the absence of conflict We provide an approach that can help scholars overcome what we see as the initial shock that comes with unpacking the zero in the war peace model of conflict studies Additionally we provide a framework for understanding how peace and conflict have not been related to one another in the literature To reveal how the Peace Continuum could be applied we put forward three alternative ways that peace could be studied With this approach the book is less trying to control the emerging peace research agenda than it is trying to assist in encourage thinking about the topic that we all have

some opinion on but that has yet to be measured and analyzed in a way comparable to political conflict and violence Indeed we attempt to help facilitate a veritable explosion of approaches and efforts to study peace Chances for Peace Elie Podeh,2015-11-15 Drawing on a newly developed theoretical definition of missed opportunity Chances for Peace uses extensive sources in English Hebrew and Arabic to systematically measure the potentiality levels of opportunity across some ninety years of attempted negotiations in the Arab Israeli conflict With enlightening revelations that defy conventional wisdom this study provides a balanced account of the most significant attempts to forge peace initiated by the world s superpowers the Arabs including the Palestinians and Israel From Arab Zionist negotiations at the end of World War I to the subsequent partition the aftermath of the 1967 War and the Sadat Initiative and numerous agreements throughout the 1980s and 1990s concluding with the Annapolis Conference in 2007 and the Abu Mazen Olmert talks in 2008 pioneering scholar Elie Podeh uses empirical criteria and diverse secondary sources to assess the protagonists roles at more than two dozen key junctures A resource that brings together historiography political science and the practice of peace negotiation Podeh s insightful exploration also showcases opportunities that were not missed Three agreements in particular Israeli Egyptian 1979 Israeli Lebanese 1983 and Israeli Jordanian 1994 illuminate important variables for forging new paths to successful negotiation By applying his framework to a broad range of power brokers and time periods Podeh also sheds light on numerous incidents that contradict official narratives This unique approach is poised to reshape the realm of conflict resolution The New York Times Index ,1913 Prospects for Peace in South Asia Rafiq Dossani, Henry S. Rowen,2005 Dossani s book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947
