Caroline Sheridan Norton,2016-11-08 Excerpt from A Plain Letter to the Lord Chancellor on the Infant Custody Bill To what then does even the present admission by law of the father s right so hotly raved about by the opponents of the Bill amount Simply to this that While the child is of such tender years that the custody of the father must from the nature of circumstances be purely nominal while he is obliged to provide it with a nurse or some other substitute for its banished mother in short during that period of its life which God and nature point out as only fit for female care and tender ness the right of the male parent shall be strictly enforced and supported so strictly indeed that the mother who attempts to retain a child against her hus band s will is liable to imprisonment for her contumacy But if the child who is the subject of dispute have attained an age when if a girl one rash step may plunge it into irretrievable ruin and when if a boy female guid ance is generally of no earthly service and a father s authority becomes especially requisite then the undis puted right of custody ceases to have the protection of the legislature and the father who while his child was an infant at the breast could have imprisoned its own mother for rebellion against his claim may find himself totally unable to withdraw his more mature
