Martha Crenshaw

Political Violence And Terror Motifs And Motivations:

Political Violence and Terror Peter H. Merkl, Peter Hans Merkl, 1986-01-01 *Political Violence and Terror* Peter H. Merkl, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986 **The Sociology of Terrorism** Stephen Vertigans, 2013-03-01 This is the first terrorism textbook based on sociological research It adopts an innovative framework that draws together historical and modern local and global and social processes for a range of individuals groups and societies Individual behaviour and dispositions are embedded within these broader relationships and activities allowing a more holistic account of terrorism to emerge In addition the shifting forms of identification and interwoven attitudes to political violence are discussed in order to explain the emergence continuation and end of terrorist careers The book draws on examples from across the discursive spectrum including religious red and black racist nationalist and trans national It also spans territories as diverse as Chechnya Germany Italy Japan Northern Ireland Pakistan Palestine Saudi Arabia South America the UK and the US

Clandestine Political Violence Donatella della Porta, 2013-07-22 This volume compares four types of clandestine political violence left wing right wing ethnonationalist and religious fundamentalist **Terrorists' Target Selection** C. Drake, 1998-08-26 The author examines the factors which influence terrorists target selection In particular he looks at the influence of the ideologies strategies and tactics of terrorist groups and describes how these are restricted by the terrorists resources by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters He concludes that terrorists target selection is often both explicable and logical

Terrorism in Context Martha Crenshaw, 2010-11-01 *The History of Social Movements in Global Perspective* Stefan Berger, Holger Nehring, 2017-01-12 Social movements have shaped and are shaping modern societies around the globe this is evident when we look at examples such as the Arab Spring Spain's Indignados and the wider Occupy movement In this volume experts analyse the classic and new social movements from a uniquely global perspective and offer insights in current theoretical discussions on social mobilisation Chapters are devoted both to the study of continental developments of social movements going back to the nineteenth century and ranging to the present day and to an emphasis on the transnational dimension of these movements Interdisciplinary and truly international this book is an essential text on social movements for historians political scientists sociologists philosophers and social scientists *Critical Terrorism Studies* Richard Jackson, Marie Breen Smyth, Jeroen Gunning, 2009-02-05 In direct response to the growth of a critical perspective on contemporary issues of terrorism this edited volume brings together a number of leading scholars to debate the need for and the shape of the exciting new subfield of critical terrorism studies *Terrorism: The third or new left wave* David C.

Rapoport, 2006 Takes a chronological approach to provide a history of modern rebel or non state terror In addition to articles in academic journals the collection includes discussions statements and government documents

Avoiding The Terrorist Trap: Why Respect For Human Rights Is The Key To Defeating Terrorism Thomas David Parker, 2019-06-17 This book makes uncomfortable reading both in its detailed analysis of terrorism and its causes and in the critique of state responses particularly in modern times It is unusual to have such a defence of a human rights framework from a counter terrorism practitioner rather than from within the legal fraternity It is this that makes the case even more persuasive All who are involved in counter terrorism strategy should consider carefully the arguments put forward Global Policy Journal For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary sources *Avoiding the Terrorist Trap* addresses common misconceptions underpinning flawed counter terrorist policies identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule of law is the most effective approach to defeating terrorism

Serenade of Suffering Richard J. Chasdi, 1999-01-01 In this book Richard Chasdi brings an impressive degree of scientific rigor and statistical analysis to bear on the topic of terrorist violence in the contemporary Middle East He has constructed an original and highly useful typology of terrorist groups that takes into consideration three main factors ideology goals and recruitment patterns With the assistance of this functional typology Chasdi argues that many patterns of terrorism have predictive value thereby allowing for preventive measures to be taken on both the local and international levels Yet *Serenade of Suffering* is more than just a tool for anti terrorist professionals It is also an insightful and complex portrait of modern terrorism in general its root causes the key differences between state sponsored and nonstate terrorist organizations and the questionable wisdom of trying to distinguish between good and bad types of terrorism A must read for area specialists students of conflict studies and international development professionals

Terror's Triumph William Meier, 2024-11-19 The idea of modern terrorism and the practice of terrorist violence emerged in Britain's first colony Ireland before spreading through imperial networks to South and East Asia to Africa and to the Middle East Thus empire not only birthed terror but also made it global And the sheer spread diversity and longevity of that empire produced multiple stages in the evolution of terrorism from rural intimidation to urban guerilla warfare to homegrown radicalism Indeed today's global

terror challenges the ethics of counter terrorism the threats of Islamist and international terrorism and the rise of homegrown right wing extremism all have roots in colonialism

The Revolutionary Mystique and Terrorism in

Contemporary Italy Richard Drake, 2021-03-02 What drives terrorists to glorify violence In *The Revolutionary Mystique and Terrorism in Contemporary Italy* Richard Drake seeks to explain the origins of Italian terrorism and the role that intellectuals played in valorizing the use of violence for political or social ends Drake argues that a combination of socioeconomic factors and the influence of intellectual elites led to a sanctioning of violence by revolutionary political groups in Italy between 1969 and 1988 Drake explores what motivated Italian terrorists on both the Left and the Right during some of the most violent decades in modern Italian history and how these terrorists perceived the modern world as something to be destroyed rather than reformed In 1989 *The Revolutionary Mystique and Terrorism in Contemporary Italy* received the Howard R Marraro Prize from the Society for Italian Historical Studies It was awarded for the best book that year on Italian history The book is reissued now with a new introduction for the light it might shed on current terrorist challenges The Italians had success in combating terrorism We might learn something from their example The section of the book dealing with the Italian superfascist philosopher Julius Evola holds special interest today Drake's original work takes on new significance in the light of Evola's recent surge of popularity for members of America's alt right movement

The Mind of the Terrorist Jerrold M. Post, 2024-09-04 In contrast to the widely held assumption that terrorists as crazed fanatics Jerrold Post demonstrates they are psychologically normal and that hatred has been bred in the bone He reveals the powerful motivations that drive these ordinary people to such extraordinary evil by exploring the different types of terrorists from national separatists like the Irish Republican Army to social revolutionary terrorists like the Shining Path as well as religious extremists like al Qaeda and Aum Shinrikyo In *The Mind of the Terrorist* Post uses his expertise to explain how the terrorist mind works and how this information can help us to combat terrorism more effectively

Politics of Violence Charlotte Heath-Kelly, 2013-10-15 Critical thinkers like Foucault Benjamin Derrida and Iek have long challenged the liberal separation of violence and politics by highlighting the implicit violence within political and economic structures But in an era of international terrorism and counter terrorism should we not also reverse the question to ask what is political about violence Using interviews with ex militants from Italian leftist struggle of the 1970s and the Cypriot anti colonial militancy of the 1950s Heath Kelly explores the political utility of violence Studies of conflict and international politics rarely address how killing and injuring function to win wars or overturn regimes But by rejecting conceptions of violence as a means to an end found in the works of Clausewitz and Arendt this book draws upon studies of pain to explore the ways in which armed struggle produces new political subjects and regimes and discredits others through experiences of violence Using Elaine Scarry's conception of pain as world destroying and Walter Benjamin's delineation of violence as either lawmaking or law preserving to frame ex militant discussions of participation in armed struggle the book contributes a pathbreaking empirical exploration of violence to

international politics literatures moving the study of political violence away from an understanding of violence as just a means to an end Drawing out insights that have a far wider resonance and significance for the analysis of the politicality of political violence this work will be of interest to students and scholars in areas such as international relations security studies and international relations theory **Evaluating the Political Rationality of Terrorist Groups** Eric van Um, 2015-11-10

This book improves our understanding of terrorists motivations and rationality and may ultimately also indicate how to respond to the phenomenon of terrorism In his research studies Eric van Um explores the political rationality of terrorist groups The political rationality model builds on rational choice theory It demands that terrorist groups take into account the costs and benefits of their available options and choose the option promising them the highest political utility Testing the explanatory power of this model is relevant as rational choice approaches have become very prominent in terrorism research But at the same time their empirical power remains highly contested Increased knowledge of the political rationality model not only promises added value for terrorism research itself but also for social sciences more generally **The Oxford**

Handbook of Italian Politics Erik Jones, Gianfranco Pasquino, 2015 The Oxford Handbook of Italian Politics provides a comprehensive look at the political life of one of Europe s most exciting and turbulent democracies Under the hegemonic influence of Christian Democracy in the early post World War II decades Italy went through a period of rapid growth and political transformation In part this resulted in tumult and a crisis of governability however it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation The great strength of Italy lay in its constitution its great weakness lay in certain legacies of the past Organized crime popularly but not exclusively associated with the mafia is one example A self contained and well entrenched caste of political and economic elites is another These weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s This ushered in a combination of populist political mobilization and experimentation with electoral systems design and the result has been more evolutionary than transformative Italian politics today is different from what it was during the immediate post World War II period but it still shows many of the influences of the past **The Routledge Handbook on Radicalisation and Countering**

Radicalisation Joel Busher, Leena Malkki, Sarah Marsden, 2023-11-28 This handbook provides a theoretical and methodological exploration of the research on radicalisation and counter radicalisation one of the most influential concepts in Security Studies International Relations and Peace and Conflict Studies Sitting at the heart of high profile research and policy agendas on preventing and countering violent extremism P CVE radicalisation as a concept has transformed the way researchers policymakers and societies think about how to counter terrorism and political violence Deliberations about radicalisation and countering radicalisation have become further embedded as efforts to prevent and counter violent extremism have been mainstreamed into other areas of public policy and practice such as education gender relations health peacebuilding aid and development Theoretically and methodologically pluralistic this handbook addresses radicalisation and

countering radicalisation as they relate to a wide range of groups and milieus articulating diverse ideological positions drawing together insight and experience from multiple geographic and institutional settings integrating global perspectives and including scholarship focused on a range of policy fields This book will be an essential reference point for anybody working on radicalisation countering radicalisation or terrorism and political violence more broadly The insight that it provides will be relevant for both academics and members of relevant policy and practitioner communities **Sexual Jihad**

, Christine Sixta Rinehart, 2019-06-03 Female terrorists are a rare phenomenon Less than ten terrorist organizations throughout the world have women members These terrorist groups are either Marxist atheist or Jihadist in their ideologies Sexual Jihad The Role of Islam in Female Terrorism ascertains What is the role of Islam in female terrorism It explores the roles of women in eight jihadist case studies including Al Aqsa Martyrs Brigade Boko Haram the Chechen Separatists HAMAS Hezbollah ISIS the Egyptian Muslim Brotherhood and Al Qaeda Primary sources and secondary sources are used including research conducted on Palestinian women in Israeli prisons who have been convicted of terrorism It is argued that there are three roles for women in Jihadist terrorism the disposable the domestic and the secretary The theory posited in this book is that the roles of women in terrorist groups are similar to their cultural religious roles in society **Terrorism Research and Public Policy**

Clark McCauley, 2012-11-12 First Published in 1991 This book includes several contributions to the new look in terrorism research including a history of terrorism that reaches back two thousand years an examination of the life cycle of terrorist groups that have come and gone since World War II and a new theory of the stages by which political protest becomes political violence and terrorism

Right here, we have countless ebook **Political Violence And Terror Motifs And Motivations** and collections to check out. We additionally find the money for variant types and after that type of the books to browse. The tolerable book, fiction, history, novel, scientific research, as competently as various supplementary sorts of books are readily clear here.
