Mary McLeod Bethune and Black Women's Political Activism Joyce A. Hanson,2003-03-14 Mary McLeod Bethune was a significant figure in American political history She devoted her life to advancing equal social economic and political rights for blacks She distinguished herself by creating lasting institutions that trained black women for visible and expanding public leadership roles Few have been as effective in the development of women s leadership for group advancement Despite her accomplishments the means techniques and actions Bethune employed in fighting for equality have been widely misinterpreted Mary McLeod Bethune and Black Women s Political Activism seeks to remedy the misconceptions surrounding this important political figure Joyce A Hanson shows that the choices Bethune made often appear contradictory unless one understands that she was a transitional figure with one foot in the nineteenth century and the other in the twentieth Bethune who lived from 1875 to 1955 struggled to reconcile her nineteenth century notions of women s moral superiority with the changing political realities of the twentieth century She used two conceptually distinct levels of activism one nonconfrontational and designed to slowly undermine systemic racism the other openly confrontational and designed to challenge the most overt discrimination in her efforts to achieve equality Hanson uses a wide range of never or little used primary sources and adds a significant dimension to the historical discussion of black women s organizations by such scholars as Elsa Barkley Brown Sharon Harley and Rosalyn Terborg Penn The book extends the current debate about black women s political activism in recent work by Stephanie Shaw Evelyn Brooks Higginbotham and Glenda Elizabeth Gilmore Examining the historical evolution of African American women s activism in the critical period between 1920 and 1950 a time previously characterized as doldrums for both feminist and civil rights activity Mary McLeod Bethune and Black Women s Political Activism is important for understanding the centrality of black women to the political fight for social economic and racial justice **Women and Politics** Malliga Och,2023-02-14 Focusing on the distinct identities and diverse lived experiences of women in a wide range of countries and cultures this book provides a comprehensive overview of women in local regional and national politics around the world Woman and Politics takes on the historical challenges women have and continue to face and the victories they have achieved in political cultures and structures around the world The introduction walks readers through the key issues pressing concerns and foremost questions that researchers confront in their studies of

women in various political roles across the globe The remainder of the book divided into eight chapters covers such topics as women s suffrage the status of women in politics today women as national leaders barriers to women s political representation and others Leading experts and emerging scholars come together in this volume to ask and provide answers to the question of why gender parity is so important in politics They answer that only women who as a group have a distinct identity and lived experiences that differ from men s collective identities and interests can accurately represent themselves both at home and on the world stage

Catholic Women and Mexican Politics, 1750-1940 Margaret Chowning, 2024-11-05 Historians have long looked to networks of elite liberal and anti clerical men as the driving forces in Mexican history over the course of the long nineteenth century This traditional view writes Margaret Chowning cannot account for the continued power of the Catholic Church in Mexico which has withstood extensive and sustained political opposition for over a century How then must the scholarly consensus change to better reflect Mexico s history In this book Chowning shows that the church repeatedly emerged as a political player even when liberals won elections primarily because of the overlooked importance of women in politics Catholic women kept the church alive through the wars of independence and made it into the political force it continues to be in present day Mexico Using archival sources from ten Mexican states the book shows how women who were denied the vote and expected to stay out of the political sphere nevertheless forged their own form of citizenship through the church After Mexico gained its independence in 1821 women self consciously developed new lay associations and assumed leadership roles within them These new associations not only kept Catholicism vibrant they also pushed women into public sphere Methodologically this book shows the value of exploring gender in political and religious history and reveals the equal importance of informal political power to more formal activities like voting

Reconceiving Women's Equality in China Lijun Yuan, 2005-01-01 According to the author the subordination of Chinese women continued under different models of sex equality in China in twentieth century In *Reconceiving Women s Equality in China* Lijun Yuan discusses and assesses four models of womenOs equality first the traditional Confucian view of women which advocates that womenOs role is to follow and support men second the liberal feminist idea of formal equality for women introduced into China at the beginning of the twentieth century which is anti Confucian and advocates womenOs equal rights in education law and employment third MaoOs view of womenOs equality in production calling for substantive

equality between men and women finally the idea of equal opportunity in the economic transformation in the post Mao period the revival of Confucianism in this period and its convergence with the declining status of women According to Yuan each of these models has a variety of problems in dealing with women's equality However she sees one common thread running through all of them namely lack of emphasis on empowering women to develop their own visions of equality Ideologies imposed from the top down have rationalized the continuing subordination and exploitation of women either blatantly Confucianism or more subtly Maoism After exposing the common feature in their failure to reach the social ideal of women's equality the author proposes a more democratic conception of women's equality that will allow ideals to continue changing as material circumstances change in different stages of social development This book is a seminal work of research on the status of women in China during and after Mao's cultural revolution It is essential to studies of Chinese society politics and religion as well as to women's studies and philosophy Feminism, Sexuality, and Politics Estelle B. Freedman, 2006-12-08

One of a small group of feminist pioneers in the historical profession Estelle B. Freedman teaches and writes about women's history with a passion informed by her feminist values Over the past thirty years she has produced a body of work in which scholarship and politics have never been mutually exclusive This collection brings together eleven essays eight previously published and three new that document the evolving relationship between academic feminism and political feminism as Freedman has studied and lived it Following an introduction that presents a map of the personal and intellectual trajectory of Freedman's work the first section of essays on the origins and strategies of women's activism in U.S. history reiterates the importance of valuing women in a society that has long devalued their contributions The second section on the maintenance of sexual boundaries explores the malleability of both sexual identities and sexual politics Underlying the collection is an inquiry into the changing meanings of gender sexuality and politics during the nineteenth and twentieth centuries along with a concern for applying the insights of women's history broadly from the classroom to the courthouse **100 Questions**

about Women and Politics Manon Tremblay, 2018-09-30 Both yesterday's suffragists and today's feminists have battled for women to vote and hold office and their successes have made it possible for countries such as Argentina Brazil Germany Iceland Liberia and the United Kingdom to have female heads of state Despite these notable advances women are still largely underrepresented in parliaments and governments around the world Why after so many years of feminist struggle are women still obstructed from full political citizenship by a glass ceiling Manon Tremblay's 100 Questions about Women and Politics discusses electoral politics in Canada and abroad focusing on women's rights to vote and run for office in legislative elections political parties voting systems electoral quotas for women and participation in parliaments and governments Against a background of observations taken from academic research Tremblay uses an innovative approach by dividing her book into 100 questions and answers to address a range of important issues Are electorates sexist or homophobic Are family responsibilities a real obstacle to women's engagement in politics What strategies are available to increase the number of

Politics in the Women's Movement Barbara Ryan,2001-08 An essential collection that constructs the arguments of similarity and difference dividing and uniting women In recent years identity has come to be seen as a process rather than a fact or deterministic force Yet recognizable identity traits continue to draw people together and provide them with a sense of empowering commonality Although the plasticity afforded identity has freed up rigid definitions and guidelines for affiliation some believe that nebulous demarcations of identity may deprive women of a solid position from which to effectively contest centers of power Bringing together articles by well known authors and theorists such as Audre Lorde June Jordan Daphne Patai Barbara Smith Marilyn Frye Shane Phelan Leila J Rupp Hazel Carby and Adrienne Rich with lesser known writers and scholars this broad based anthology ranges widely from personal narratives to empirical research The book unpacks issues of race class gender ethnicity sexuality disability and age contributing a m lrange of sharp lively perspectives to current debate In a postmodern era of feminism how do women come to identify organize and mobilize themselves within a complex global network of relationships Identity Politics in the Women s Movement offers critical examination of the inescapable role of identity in academic and activist feminism and the opportunities challenges and conflicts identity politics pose **The**

Politics of Women's Rights in Iran Arzoo Osanloo,2009-03-09 In The Politics of Women s Rights in Iran Arzoo Osanloo explores how Iranian women understand their rights After the 1979 revolution Iranian leaders transformed the state into an Islamic republic At that time the country s leaders used a renewed discourse of women s rights to symbolize a shift away from the excesses of Western liberalism Osanloo reveals that the postrevolutionary republic blended practices of a liberal republic with Islamic principles of equality Her ethnographic study illustrates how women s claims of rights emerge from a hybrid discourse that draws on both liberal individualism and Islamic ideals Osanloo takes the reader on a journey through numerous sites where rights are being produced including Qur anic reading groups Tehran s family court and law offices as she sheds light on the fluid and constructed nature of women s perceptions of rights In doing so Osanloo unravels simplistic dichotomies between so called liberal universal rights and insular local culture The Politics of Women s Rights in Iran casts light on a contemporary non Western understanding of the meaning behind liberal rights and raises questions about the misunderstood relationship between modernity and Islam *Gender and Women's Leadership* Karen O'Connor,2010-08-18
