Politics Of Adoption:

The Politics of Adoption Kerry O'Halloran, 2008-12-01 Adoption has always had a political dimension Its use to achieve political ends has been evident throughout history and in many different cultures In Roman times an emperor would adopt a successful general to 1 continue his rule In Ireland under the Brehon Laws the reciprocal placements of 2 children between clans was an accepted means of cementing mutual allegiances In Japan the adoption of non relatives was traditionally seen as a means of allying 3 with the fortunes of the ruling family The willingness of governments to use adoption as a political strategy was apparent for example in Australia where it was used to 4 further the assimilation of indigenous people It is now present in the phenomenon of intercountry adoption where the flow of children particularly in the aftermath of war is often politics by proxy Adoption can be profoundly affected by politics as demonstrated by the decision of the Chinese government to advocate one child families which resulted in very many Chinese girls being relinquished for adoption abroad as their parents exercised a preference for a male child Again as in Korea in the recent past c rently in some South American countries and in those states of eastern Europe newly emerged from under the blanket of totalitarianism governments can and do facilitate an outward flow of children for reasons of economic and political 5 expediency Relinquished Gretchen Sisson, 2024-02-27 FINALIST NONFICTION NATIONAL BOOK CRITICS CIRCLE AWARDS 2024 FINALIST 2024 GODDARD RIVERSIDE STEPHAN RUSSO BOOK PRIZE FOR SOCIAL JUSTICE Essential reading NPR Books We Love Dares to imagine a different world where Americans treat adoption like the justice issue it is Washington Post Impressively reported Sisson uses her deep well of knowledge to make the case that adoption is no solution for Americans reduced access to abortion San Francisco Chronicle A powerful decade long study of adoption in the age of Roe revealing the grief of the American mothers for whom the choice to parent was never real Adoption has always been viewed as a beloved institution for building families as well as a mutually agreeable common ground in the abortion debate but little attention has been paid to the lives of mothers who relinquish infants for private adoption Relinquished reveals adoption to be a path of constrained choice for those for whom abortion is inaccessible or for whom parenthood is untenable The stories of relinquishing mothers are stories about our country s refusal to care for families at the most basic level and to instead embrace an individual private solution to a large scale social problem With the recent decision in Dobbs v Jackson Women s Health Organization revoking abortion protections we are in a political moment in which adoption is increasingly being revealed as an institution devoted to separating families and policing parenthood under the guise of feel good family building Rooted in a long term study Relinquished features the in depth testimonies of American mothers who placed their children for domestic adoption The voices of these women are powerful and heartrending they deserve to be heard *Politics of Adoption* M. K. Benet, 1976

The Politics of Adoption Kerry O'Halloran, 2015-04-29 This book explains compares and evaluates the social and legal functions of adoption within a range of selected jurisdictions and on an international basis It updates and extends the second

edition published by Springer in 2009 From a standpoint of the development of adoption in England Wales and the changes currently taking place there it considers the process as it has evolved in other countries It identifies themes of commonality and difference in the experience of adoption in a common law context as compared and contrasted with that of other countries It looks at adoption in France Sweden and other civil law countries as well as Japan and elsewhere in Asia including a focus on Islamic adoption It examines the experience of indigenous people in New Zealand and Australia contrasting the highly regulated legal process of modern western society with the traditional practice of indigenous communities such as the Maori A new chapter studies adoption in China The book uses the international Conventions and associated ECtHR case law to benchmark developments in national law policy and practice and to facilitate a cross cultural comparative analysis The Politics of Adoption Bruno Perreau, 2014-05-02 An argument that French adoption policies reflect and enforce the state's notions of gender parenthood and citizenship In May 2013 after months of controversy France legalized same sex marriage and adoption by homosexual couples Obstacles to adoption and parenting equality remain however many of them in the form of cultural and political norms reflected and expressed in French adoption policies In The Politics of Adoption Bruno Perreau describes the evolution of these policies In the past thirty years Perreau explains political and intellectual life in France have been dominated by debates over how to preserve Frenchness and these debates have driven policy making Adoption policies he argues link adoption to citizenship reflecting and enforcing the postcolonial state's notions of parenthood gender and Frenchness After reviewing the complex history of adoption Perreau examines French political debates over adoption noting among other things that intercountry adoptions stirred far less controversy than the difference between the sexes in an adopting couple He also discusses judicial action on adoption child welfare agencies as gatekeepers to parenthood as defined by experts the approval process from the viewpoints of social workers and applicants and adoption's link to citizenship and its use as a metaphor for belonging Adopting a Foucaultian perspective Perreau calls the biopolitics of adoption pastoral it manages the individual for the good of the collective flock it considers itself outside politics and it considers not so much the real behavior of individuals as an allegorical representation of them His argument sheds new light on American debates on bioethics identity and citizenship *The Politics of Adoption* Kathryn Bryant, 1996 The Politics of Adoption Kerry O'Halloran, 2021-03-20 This book which updates and expands the third edition published by Springer in 2015 explains compares and evaluates the social and legal functions of adoption within a range of selected jurisdictions and on an international basis From the standpoint of the development of adoption in England Wales and the changes currently taking place there it considers the process as it has evolved in other countries It also identifies themes of commonality and difference in the experience of adoption in a common law context comparing and contrasting this with the experience under civil law and in Islamic countries and with that of indigenous people This book includes new chapters examining adoption in Russia Korea and Romania Further it uses the international conventions and the associated ECtHR case law to benchmark

developments in national law policy and practice and to facilitate a cross cultural comparative analysis **The Sage International Encyclopedia of Politics and Gender** Lia K. Roberts, 2025-09-02 This four volume encyclopedia set is organized to allow the reader to explore gender and politics from an updated interdisciplinary intersectional and global perspective The organization format will be an A Z approach of approximately 500 600 entries with entries ranging in word count from 1 500 3 000 words with some entries on foundational topics at around 5 000 Coverage will examine both the role gender plays within the realm of politics political participation leadership etc as well as policies that are based in gender abortion and reproductive policies transgender rights etc Foundational topics will include entries such as International Security and Gender which will introduce gender and war human trafficking gender and militarism and women and terrorism and International Relations and Gender which will introduce topics such as gender mainstreaming the Convention on the Elimination of All Forms of Discrimination Against Women CEDAW and eco feminism A Comparative Politics foundational entry will focus on research areas surrounding political representation and participation legislative processes and law such as gender quotas gender gap in political participation and leadership intersectionality and barriers in representation and leadership Ni Unos Menos Not One Less Movement recent significant activist movements and transgender specific law Concepts connected to feminist and queer theory as applied in regional studies will also be covered For example marianismo or the connection between Catholicism and gender roles in Latin American and Latinx communities Asian American and Pacific Islander AAPI voters and political mobilization and LGBTQIA leaders and social movements will be included This encyclopedia will be essential for any undergraduate or graduate course on gender studies in gender studies programs as well as sociology political science history or other related programs disciplines gender and politics international relations and gender or area specific courses such as Gender and Latin American Politics or Gender and African Studies *Same Sex, Different Politics* Gary Mucciaroni, 2009-05-15 Why is it so much harder for American same sex couples to get married than it is for them to adopt children And why does our military prevent gays from serving openly even though jurisdictions nationwide continue to render such discrimination illegal Illuminating the conditions that engender these contradictory policies *Same Sex Different Politics* explains why gay rights advocates have achieved dramatically different levels of success from one policy area to another The first book to compare results across a wide range of gay rights struggles this volume explores debates over laws governing military service homosexual conduct adoption marriage and partner recognition hate crimes and civil rights It reveals that in each area the gay rights movement s achievements depend both on Americans perceptions of its demands and on the political venue in which the conflict plays out Adoption policy for example generally takes shape in a decentralized system of courts that enables couples to target sympathetic judges while fights for gay marriage generally culminate in legislation or ballot referenda against which it is easier to mount opposition Brilliantly synthesizing all the factors that contribute to each kind of outcome *Same Sex Different Politics* establishes a new framework

for understanding the trajectory of a movement **Children and the Politics of Cultural Belonging** Alice Hearst,2012-08-27 Conversations about multiculturalism rarely consider the position of children who are presumptively nested in families and communities Yet providing care for children who are unanchored from their birth families raises questions central to multicultural concerns as they frequently find themselves moved from communities of origin through adoption or foster care which deeply affects marginalized communities This book explores the debate over communal and cultural belonging in three distinct contexts domestic transracial adoptions of non American Indian children the scope of tribal authority over American Indian children and cultural and communal belonging for transnationally adopted children Understanding how children belong to families and communities requires hard thinking about the extent to which cultural or communal belonging matters for children and communities who should have authority to inculcate racial and cultural awareness and finally the degree to which children should be expected to adopt and carry forward racial or cultural identities

motherhood that is socially and cu **Beggars and Choosers** Rickie Solinger,2002-09-18 In *Beggars and Choosers* Rickie Solinger shows that historical distinctions between women of color and white women between poor and middle class women persisted and were used in new ways during the era of choice Politicians and policy makers excluded certain women from the class of deserving mothers by using the language of choice to create public policies concerning everything from Medicaid funding for abortions to family tax credits infertility treatments international adoption teen pregnancy and welfare Solinger argues that a guarantee of choice when the word is imbued with the old prejudices of class and race is a shaky foundation on which to build our concept of reproductive freedom BOOK JACKET The Politics of Curriculum Decision-Making M. Frances Klein,1991-01-01 Recent proposals for school reform have involved a significant shift in how curriculum decisions are made particularly at the state level In response to these proposals actions taken by educators have underscored the critical nature of the issue regarding who makes curriculum decisions This book examines the issues involved in how this pivotal concern has been addressed in the past and how it is being handled now Each chapter contributes to a more complete understanding of the complexities involved in the recent trend toward the centralization of curriculum decision making The book will assist both researchers and practitioners in better understanding the issues involved as well as the impact of the movement Developments in French Politics 6 Helen Drake,Alistair Cole,Sophie Meunier,Vincent Tiberj,2020-11-28 This new version of a leading textbook on French politics offers expert analysis of recent national and international events discussing their significance for France itself as well as for Europe and the wider world It covers a wide range of current challenges facing the country under the presidency of Emmanuel Macron and considers how issues such as immigration multiculturalism and gender and sexual politics fit with wider patterns in global politics New to this Edition New co editor Helen Drake joins the book s experienced team of editors Completely revised to take stock of the presidency of Fran ois Hollande the first half of Emmanuel Macron s mandate and to look forward to the future of France and its significance to European and global politics Covers a range of new topics including the National Rally formerly the National Front immigration multiculturalism and gender and sexual politics **The Politics of Morality Policy** ,1999 **Congress of Arts and Science: History of politics and economics.
