Coleman, Carl G. Rosberg, 2023-04-28 The essays in this book focus attention on the role of political groups in the new functioning and development of the new African societies and the political systems of which they are a part The authors all recognized authorities have sought to identify and compare the manifestations of the general tendency among the new states of Tropical Africa toward the establishment and consolidation of one party political systems and to examine in the light of this general trend the different dimensions of the problem of integration This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1964 *Social Inequality and Class Radicalism in France and Britain* Duncan Gallie, 1984-01-26 This book first published in 1983 examines in depth the nature and sources of class radicalism in France and Britain and takes issue with some of the major theories of class consciousness and class action Drawing on data both from detailed case studies and from wider national surveys it shows that the conflict of class interests within capitalist societies can lead to sharply diverging attitudes to class inequality It argues that the explanation of such differences cannot be found in some general law of the evolution of social conflict in capitalist society It must be sought in the profound institutional differences that exist between the two societies In particular the study argues for a reassessment of the importance of the experience of

war and of the way in which the business and political elite handled the social crises generated by war in accounting for the long term structural divergence of capitalist societies
