Politics Of Human Rights In East Asia:

The Politics of Human Rights in East Asia Kenneth Christie, Denny Roy, 2001-02-20 Refugees fleeing East Timor Tiananmen Square in China The killing fields in Cambodia Freedom of speech in Singapore The subject of human rights in Asia is a hotly debated one In *The Politics of Human Rights in East Asia* the authors survey the human rights records and attitudes of each country The countries covered are China Taiwan Korea Japan Indonesia Myanmar Cambodia Vietnam Thailand the Philippines Malaysia and Singapore Kenneth Christie covers Southeast Asia and Denny Roy covers Northeast Asia They conclude with a discussion of the Association of East Asian Nations ASEAN role and suggestions for the future Throughout they examine the competing meaning of human rights in the Western versus the non Western context and place the role of human rights within the framework of each country's history and political and economic development

Politics of Human Rights in Southeast Asia Philip J. Eldridge, 2013-01-11 The divide between the West and Southeast Asia seems to be nowhere more apparent than in debates about human rights Within these diverse geographical political and cultural climates human rights seem to have become relative and the quest for absolutes seems unattainable In this new book Philip J Eldridge seeks to question this stalemate He argues that the Association of Southeast Asian Nations inclusion in United Nations human rights treaties could be the common ground that bridges the gap between East and West Eldridge uses topical case studies and primary research from Malaysia Indonesia East Timor and Australia to compare the effectiveness of United Nations human rights directives on local democracies This study presents insightful research into a hotly debated topic As such it will be a thought provoking resource for students of human rights politics and international relations

The East Asian Challenge for Human Rights Joanne R. Bauer, Daniel A. Bell, 1999-02-13 *The East Asian Challenge for Human Rights* shows that critical intellectuals in East Asia have begun to chart a middle ground between the extremes of the international debate on human rights making particular headway in the areas of group rights and economic social and cultural ethnic minority rights The chapters form a collective intellectual inquiry into the following areas critical perspectives on the Asian values debate theoretical proposals for an improved international human rights regime with greater input from East Asians the resources within East Asian cultural traditions that can help promote human rights and key human rights issues facing East Asia as a result of rapid economic growth in the region

Human Rights and Participatory Politics in Southeast Asia Catherine Renshaw, 2019-02-18 In *Human Rights and Participatory Politics in Southeast Asia* Catherine Renshaw recounts an extraordinary period of human rights institution building in Southeast Asia She begins her account in 2007 when the ten members of the Association of Southeast Asian Nations ASEAN signed the ASEAN charter committing members for the first time to principles of human rights democracy and the rule of law In 2009 the ASEAN Intergovernmental Commission on Human Rights was established with a mandate to uphold internationally recognized human rights standards In 2013 the ASEAN Human Rights Declaration was adopted as a framework for human rights

cooperation in the region and a mechanism for ASEAN community building Renshaw explains why these developments emerged when they did and assesses the impact of these institutions in the first decade of their existence In her examination of ASEAN Renshaw asks how human rights can be implemented in and between states that are politically diverse Vietnam and Laos are Communist Brunei Darussalam is an Islamic sultanate Myanmar is in transition from a military dictatorship the Philippines and Indonesia are established multiparty democracies while the remaining members are less easily defined Renshaw cautions that ASEAN is limited in its ability to shape the practices of its members because it lacks a preponderance of democratic states However she concludes that in the absence of a global legalized human rights order the most significant practical advancements in the promotion of human rights have emerged from regional institutions such as the ASEAN

Asia Pacific and Human Rights Paul Close, David Askew, 2017-03-02 Human rights are acquiring an increasingly prominent role on the world stage Interest in concern about and action on human rights are widespread and rising albeit in a far from globally even uniform and untroubled fashion Human rights have generated a booming global industry while having become not unconnectedly highly controversial and deeply contested Human rights matters have emerged as a major source of disagreement dispute and discord at and between the local regional and global levels of social cultural political and economic life These developments are addressed in the book by an examination of the links between the evolving global human rights regime GHRR and the character and course of human rights in the world's most dynamic complex and problematic region that of the Asia Pacific The authors argue that although the Asia Pacific and human rights nexus is influenced by cultural clashes it is largely shaped by power distributions and struggles rooted in the global political economy GPE The prevailing GHRR reflects the way in which globalization processes have been Western led but its future is far from certain given the current shift in the balance of GPE power towards the Asia Pacific and especially East Asia Cultural Politics and Asian Values Michael D. Barr, 2012-11-12 Cultural Politics and Asian Values looks at the political cultural and religious background of East and Southeast Asian societies and those of the West with a view to seeing how they are affecting contemporary national and international politics democratization the international human rights discourse NGOs and globalization The book surveys the political history and pre history of the Asian values debate taking it up to the era of Megawati Sukarnoputri Chen Shui bian and Kim Dae jung In chapters on Confucianism Buddhism Islam Christianity and liberalism Barr explores the histories and conceptual essences of the world religions involved in or affected by the debate

Corporate Social Responsibility and Human Rights in Asia Robert J. Hanlon, 2014-04-16 As globalization has brought about new concerns and responsibilities for business particularly in the realm of human rights many multinational corporations MNC operating in Asia have argued that such rights are the responsibility of government However as globalization continues to improve market access for MNCs it increasingly exposes them to new forms of transnational social movements and as a result the private sector has emerged as one of the central stakeholders in the region's human rights

dialogue Taking three of Asia's fastest emerging economies Cambodia China and Thailand as its starting point Corporate Social Responsibility and Human Rights in Asia explores the business case for corporate social responsibility human rights and anti corruption in the region In doing so it examines how industry perceives human rights and corruption within the corporate social responsibility CSR paradigm and builds on the argument that the CSR regime is a socially constructed concept Drawing on interviews with key stakeholders including business leaders nongovernmental organizations international organizations and government officials Robert Hanlon argues that industry perceives human rights as outside their sphere of influence that divergent stakeholder interests are side lining the human rights debate and that human rights are increasingly ignored in the quest for profit maximization This leads to the conclusion that human rights and corruption will remain peripheral business issues until stakeholders find new ways of creating space for CSR engagement and business actors will continue to marginalize the human rights issue so long as governments in the region let them This interdisciplinary book draws on political science business and sociological perspectives and as such will be of great interest to students and scholars working across the fields of Asian business corporate social responsibility and business ethics human rights and international political economy

Pandemic, Politics, and a Fairer Society in Southeast Asia Syaza Shukri, 2023-07-20 Employing the Malaysian case as a starting point for examining a wider trend in Southeast Asia this book delves into how politicians and policymakers navigate political uncertainty and the impact of their decisions on creating and maintaining a fairer society

Political Change in South-East Asia Michael R.J Vatikiotis, 2005-06-21 Political Change in South East Asia takes up the debate between those who resist the pressure for democracy and point to unchanging Asian values and those who believe that the appeal of democracy is universal The author examines the case for both sides and concludes that the strong state will be a fixture of South East Asian politics for some considerable time to come Increasingly close links between the ten states of South East Asia are likely to reinforce perceptions of a common culture and in the end put up more effective defences against external cultural influence

Political Cultures in Asia and Europe Jean Blondel, Takashi Inoguchi, 2006-09-27 Drawing on data from the largest cross national survey on political culture for the last half a century this is an original and comprehensive study of the attitudes to political and social life among the citizens of eighteen countries in Europe and Asia
