The Politics of Social Policy Change in Chile and Uruguay Rossana Castiglioni Nunez, 2005-01-07 This work explains the causes of social policy reform in Chile and Uruguay in the areas of health care pensions and education Until the 1970s Chile and Uruguay shared striking similarities

The Politics of Social Policy Change in Chile and Uruguay Rossana Castiglioni Nunez, 2005-01-07 This work explains the causes of social policy reform in Chile and Uruguay in the areas of health care pensions and education Until the 1970s Chile and Uruguay shared striking similarities

Social Policy Expansion in Latin America Candelaria Garay, 2016 This book provides a novel explanation of widespread social policy expansion in Latin America beginning in the 1990s

The Oxford Handbook of Transformations of the State Stephan Leibfried, Evelyne Huber, Matthew Lange, Jonah D. Levy, Frank Nullmeier, John D. Stephens, 2015-06-11 This Handbook offers a comprehensive treatment of transformations of the state from its origins in different parts of the world and different time periods to its transformations since World War II in the advanced industrial countries the post Communist world and the Global South Leading experts in their fields from Europe and North America discuss conceptualizations and theories of the state and the transformations of the state in its engagement with a changing international environment as well as with changing domestic economic social and political challenges The Handbook covers different types of states in the Global South from failed to predatory rentier and developmental in different kinds of advanced industrial political economies corporatist statist liberal import substitution industrialization and in various post Communist countries Russia China successor states to the USSR and Eastern Europe It also addresses crucial challenges in different areas of state intervention from security to financial regulation migration welfare states democratization and quality of democracy ethno nationalism and human development The volume makes a compelling case that far from losing its relevance in the face of globalization the state remains a key actor in all areas of social and economic life changing its areas of intervention its modes of operation and its structures in adaption to new international and domestic challenges

Latin American Social Policy Developments in the Twenty-First Century Natália Sátyro, Eloísa del Pino, Carmen Midaglia, 2021-02-12 This book explores the scope of reforms and changes in the social protection systems in Latin America that have started at the beginning of the 21st century It describes how and to what extent changes in social protection systems and social policies have occurred in the region in recent decades Taking a comparative approach the volume identifies the triggers for the transformations and how such pressures are received by the welfare regime or a specific policy sector to finally yield a given type of reform The analysis is characterized by the presence of certain factors that explain the development of social protection systems in Latin America such as economic growth the consolidation of democratic political

regimes and the region's Left Turns The book also examines to what extent common challenges and processes induced by international institutions have led to convergence among countries or welfare regimes or whether each maintains its own identity

Squatters and the Politics of Marginality in Uruguay María José Álvarez-Rivadulla, 2017-06-22 This book unveils the political economy of land squatting in a third world city Montevideo in Uruguay It focuses on the effects of democratization on the mobilization of the poorest as well as on the role played by different types of brokers from radical Catholic priests to local leaders embedded in political networks Through a multi method endeavour that combines ethnography historical sources and quantitative time series the author reconstructs the history of the informal city since the late 1940s to the present From a social movements contentious politics perspective the book challenges the assumption that socioeconomic factors such as poverty were the only causes triggering land squatting

Gender, Institutions, and Change in Bachelet's Chile G. Waylen, 2016-04-08 Michele Bachelet Chile's first female president was elected with an explicit gender agenda in 2006 and then reelected in 2013 This volume focuses on Bachelet's efforts to introduce progressive measures and the constraints that she has faced in a context where both formal and informal political institutions can act as barriers to change

Gender and the Politics of Gradual Change Silke Staab, 2017-01-20 This book explores recent social policy reforms and innovations in Chile Focusing on four major reform episodes health pensions childcare and maternity leave Silke Staab unveils the complex interplay of factors that have shaped the successes and failures of actors pursuing positive gender change in social policy She shows that even in highly constrained settings positive gender change is possible but that its scope and quality are bound to vary in response to sector specific institutional constraints and opportunities

The Quest for Universal Social Policy in the South Juliana Martínez Franzoni, Diego Sánchez-Ancochea, 2016-10-20 Universal social policies have the power to reduce inequality and create more cohesive societies How can countries in the South deliver universalism This book answers this question through a comparative analysis of Costa Rica Mauritius South Korea and Uruguay and a detailed historical account of Costa Rica's successful trajectory Against the backdrop of democracy and progressive parties the authors place at center stage the policy architectures defined as the combination of instruments that dictate the benefits available to people The volume also explores the role of state actors in building pro universal architectures This book will interest advanced students and scholars of human development and public and social policies as well as policymakers eager to promote universal policies across the South

Development, Democracy, and Welfare States Stephan Haggard, Robert R. Kaufman, 2020-06-16 This is the first book to compare the distinctive welfare states of Latin America East Asia and Eastern Europe Stephan Haggard and Robert Kaufman trace the historical origins of social policy in these regions to crucial political changes in the mid twentieth century and show how the legacies of these early choices are influencing welfare reform following democratization and globalization After World War II communist regimes in Eastern Europe adopted wide ranging socialist entitlements while conservative dictatorships in East Asia sharply limited social

security but invested in education In Latin America where welfare systems were instituted earlier unequal social security systems favored formal sector workers and the middle class Haggard and Kaufman compare the different welfare paths of the countries in these regions following democratization and the move toward more open economies Although these transformations generated pressure to reform existing welfare systems economic performance and welfare legacies exerted a more profound influence The authors show how exclusionary welfare systems and economic crisis in Latin America created incentives to adopt liberal social policy reforms while social entitlements from the communist era limited the scope of liberal reforms in the new democracies of Eastern Europe In East Asia high growth and permissive fiscal conditions provided opportunities to broaden social entitlements in the new democracies This book highlights the importance of placing the contemporary effects of democratization and globalization into a broader historical context

The World Politics of Social Investment: Volume II Julian L. Garritzmann, Silja Häusermann, Bruno Palier, 2022-05-18 Welfare states around the globe are changing challenged by the development of knowledge economies In many countries policy makers main response has been to modernize welfare states by focusing on future oriented social investment policies that focus on creating mobilizing and preserving human skills and capabilities Yet there is massive variance in the development of social investment strategies The World Politics of Social Investment Political Dynamics of Reform is the second of two volumes of the World Politics of Social Investment WOPSI project which systematically maps and explains different welfare reform strategies in democratic countries around the world This volume traces the development of social investment reforms across the regions of Nordic Continental and Southern Europe as well as Central and Eastern Europe North and Latin America and North East Asia The chapters in this volume study the impact of different structural drivers for social investment e g demographic poverty demand for skill or lack of an available workforce the salience of social investment in the public debates and the different political coalitions that led to or prevented the adoption of social investment strategies The chapters are written by leading social policy scholars from different world regions They all apply a joint theoretical framework developed in the first of the two volumes to explain the politics of social investment in a range of contexts and policy fields Jointly with the first volume the WOPSI project offers the first worldwide analysis of social investment reforms around the globe

Nursing, Policy and Politics in Twentieth-century Chile Markus Thulin, Ricardo A. Ayala, 2023-03-16 This book offers the first in depth account of healthcare policy in Chile across the twentieth century It charts how nursing and nurses intersected with the political context of healthcare with a focus on the country s transition across welfare systems Drawing on extensive archival research and interviews with nurses and governmental representatives this book explores how the nursing profession implemented and challenged reform while policies had an impact on nurses It analyses nurses employment and mobility and their lobbying through the press and through unions The authors demonstrate that while Chilean health policy was influenced by US cultural politics reform depended on the flexibility and willingness of nurses to carry through reforms By

examining the participation of the largest female professional group the book offers new insights into the privatization of society on the pinnacle of industrial development and seeks to contribute to contemporary debates on Chile's welfare system. It is a vital read for scholars researching the history of public health. **The Oxford Handbook of the Welfare State**

Francis G. Castles, 2010-07-15 In a volume consisting of nearly 50 newly written chapters a broad range of the world's leading scholars offer a comprehensive account of everything one needs to know about the modern welfare state.

Translating Global Ideas Claudia Diaz-Rios, 2024-04-01 International organizations have consistently influenced education reforms in Latin America but not all countries have adopted the same policy recommendations. This book offers a unique comparative analysis of secondary education reforms in Chile, Argentina, and Colombia from the 1960s to the 2010s with a focus on three key areas: manpower planning, state retrenchment, market-based versus active state, and ideas about having a right to a quality education in an era of government accountability. While responding to similar policy recommendations, these countries have differed in how they have implemented decentralization, incorporated private actors, allocated authority over curriculum, and established instruments of accountability. Claudia Diaz Rios traces the legacies of previous education policies and local struggles among stakeholders in reshaping and sometimes rejecting foreign recommendations. *Translating Global Ideas* will be an invaluable resource for scholars of comparative politics and the globalization of education, particularly those interested in policy development in middle and low income countries as well as practitioners invested in promoting education policy changes in Latin America. **Social Revolt in Chile** Carlos Peña, Patricio Silva, 2022-01-13 This book investigates why Chile suddenly confronted a violent social revolt in October 2019 after almost thirty years of political stability during which time the country was broadly regarded as Latin America's most successful nation. Since democratic restoration in 1990, Chile's relatively high levels of political stability, increasing prosperity, and social modernisation have stood out in a region shaken by political convulsion and economic malaise. In early October 2019, President Sebastián Piñera confidently claimed that Chile represented a true oasis of political stability and economic vitality in Latin America. However, just weeks later, the announcement of a small increase in the price of Santiago's underground transport system unleashed an unprecedented wave of violent anti-government protests in the country, with protestors ultimately demanding Piñera's resignation and the end of neoliberalism and the 1980 Constitution among many other demands. This book analyses the causes of Chile's socio-political upheaval, arguing that the fast social and economic modernisation produced by the neoliberal system led to a series of destabilising socio-political processes in the country. At a time when much analysis of the October uprising tends to be superficial or polarised on ideological grounds, this book provides a much-needed sociological and institutional analysis of the crisis. It will be an important read for scholars of Latin American politics and development as well as those with a broader interest in state legitimacy, social movements, and political contestation against neoliberalism. **Direct Democracy Worldwide** David Altman, 2010-12-20 Challenging the common

assumption that models of direct democracy and representative democracy are necessarily at odds Direct Democracy Worldwide demonstrates how practices of direct and representative democracy interact under different institutional settings and uncovers the conditions that allow them to coexist in a mutually reinforcing manner Whereas citizen initiated mechanisms of direct democracy can spur productive relationships between citizens and political parties other mechanisms of direct democracy often help leaders bypass other representative institutions undermining republican checks and balances The book also demonstrates that the embrace of direct democracy is costly may generate uncertainties and inconsistencies and can be manipulated Nonetheless the promise of direct democracy should not be dismissed Direct democracy is much more than a simple pragmatic second choice when representative democracy seems not to be working as expected Properly designed it can empower citizens breaking through some of the institutionalized barriers to accountability that arise in representative systems

The Boric Government in Chile Carlos Peña,Patricio Silva,2023-10-02 This book analyses the victory of Gabriel Boric in Chile during the presidential elections of December 2021 He brought the radical left into power after three decades of centre left and right wing governments In order to explain this abrupt political mutation in the country the book explores a series of fast and deep social and cultural transformations experienced in the country in the last decades In addition the book considers the main features of the new Boric government both in terms of goals and in terms of performance in his first year in office in several key areas of policy making The triumph of the radical left in Chile poses several questions regarding the ability of the Boric administration to guarantee political and economic stability in the country Among the greatest challenges the Boric government will have to face in the coming years are the reduction of inflation the reactivation of the economy the regulation of illegal immigration and the improvement of public security among the population This book constitutes the first major academic attempt in the English language to provide a broad analysis of the Boric government in Chile and the changes the country will experience in the years ahead The book will be of interest to students scholars and practitioners who are interested in the evolution of the Latin American left in general and the Chilean left in particular The book has been conceived from a multidisciplinary perspective including insights coming from history sociology political science economics institutional law and development studies

Welfare and Social Protection in Contemporary Latin America Gibrán Cruz-Martínez,2019-03-19 Social protection serves as an important development tool helping to alleviate deprivation reduce social risks raise household income and develop human capital This book brings together an interdisciplinary team of international experts to analyse social protection systems and welfare regimes across contemporary Latin America The book starts with a section tracking the expansion of social assistance and social insurance in Latin America through the state led development era the neoliberal era and the pink tide The second section explores the role played by local and external actors modelling social policy in the region The third and final section addresses a variety of contemporary debates and challenges around social protection and welfare in the region such as gender roles and the

empowerment of CCT beneficiaries and welfare provision for rural outsiders The book touches on key topics such as conditional cash transfer programmes trade union inclusionary strategies transnational social policy state led versus market led welfare provision explanatory factors in the emerging dualism of social protection institutions social citizenship rights as a consequence of changing social policy architecture and different poverty reduction strategies This interdisciplinary volume will be of interest to economists political scientists sociologists anthropologists and historians working on social protection in Latin America or interested in welfare systems in the global south *Leftovers* Jorge G. Castañeda, Marco A. Morales, 2009-09-10 Written by specialists on the region this book provides a comprehensive account of the left across Latin America
