Politics Of Time Modernity And Avant Garde:

The Politics of Time Peter Osborne, 2011-01-10 If Aristotle sought to understand time through change might we not reverse the procedure and seek to understand change through time Once we do this argues Peter Osborne it soon becomes clear that ideas such as avant garde modern postmodern and tradition which are usually only treated as markers for empirically discrete periods movements or styles are best understood as categories of historical totalization More specifically Osborne claims such ideas involve distinct temporalizations of history giving rise to conflicting politics of time His book begins with a consideration of the main aspects of modernity and develops through a series of critical engagements with the major twentieth century positions in the philosophy of history He concludes with a fascinating history of the avant garde intervention into the temporality of everyday life in surrealism the situationists and the work of Henri Lefebvre **World**

Literature, Non-Synchronism, and the Politics of Time Filippo Menozzi, 2020-06-06 Drawing on a Marxist concept of world literature this book is a study of the manipulations of time in contemporary anglophone fiction from Africa and South Asia Through critical work and literary reading this research explores the times other than the present that seem to haunt an era of capitalist globalisation nostalgic feelings about bygone ideals of identity and community appeals to Golden Ages returns of the repressed and anxious anticipations of global extinction and catastrophe The term non synchronism explored in this book captures these dislocations of the present while offering a critical lens to grasp the politics of time of an era marked by the continuing expansion of capitalist modernity Most importantly non synchronism is a dialectical paradigm charged with antagonistic political valences The literary analysis presented in the volume hence connects the literary manipulation of time to discourses on extinction accumulation nostalgia modernity and survival in global politics and literature *The Sexual Politics of Time* Susannah Radstone, 2007-12-03 Looking at a diverse range of texts including

Marilyn French's *The Women's Room* Philip Roth's *Patrimony* the writings of Walter Benjamin and Fredric Jameson and films such as *Cinema Paradiso* Susannah Radstone argues that though time has been foregrounded in theories of postmodernism those theories have ignored the question of time and sexual difference *The Sexual Politics of Time* proposes that the contemporary western world has witnessed a shift from the age of confession to the era of memory In a series of chapters on confession nostalgia the memories of boyhood film and the memoir Susannah Radstone sets out to complicate this claim Developing her argument through psychoanalytic theory she proposes that an attention to time and sexual difference raises questions not only about the analysis and characterization of texts but also about how cultural epochs are mapped through time *The Sexual Politics of Time* will be of interest to students and researchers of time memory difference and cultural change in subjects such as Media and Cultural Studies Sociology Film Studies *The European Avant-Garde - A Hundred Years Later*, 2024-01-08 The title of this book *The European Avant Garde A Hundred Years Later* implies the European avant garde took place a century ago that it is a thing of the past However it does not aim to consolidate this position but to

question it It addresses temporality as the central dimension related to the notion of the avant garde The book brings forth original revisions of the theories of the avant garde the works of the avant garde the idea of the avant garde as being the vanguard the leading force of change It addresses the returning of the avant garde during the twentieth century and today

Religion and the Politics of Time Noah Shusterman, 2010-03-08 A study of the rise of government intervention in the everyday life of French society *The Invention of Politics in the European Avant-Garde (1906-1940)*, 2016-08-01 In 1906 for the first time in his life F T Marinetti connected the term avant garde with the idea of the future thus paving the way for what is now commonly called the modernist or historical avant garde Since 1906 the ties between the early twentieth century European aesthetic vanguard and politics have been a matter of debate With a century gone by *The Invention of Politics in the European Avant Garde* takes stock of this debate Opening with a critical introduction to the vast research archive on the subject this book proposes to view the avant garde as a political force in its own right that may have produced solutions to problems irresolvable within its democratic political constellation In a series of essays that combine close readings of texts and plastic works with a thorough knowledge of their political context the book looks at avant garde works as media producing political thought and experience Covering the canonised avant garde movements of Futurism Expressionism Dadaism and Surrealism but also focussing on the avant garde in Europe s geographical outskirts this book will appeal to all those interested in the modernist avant garde

Comparative Modernism and Poetics of Time Özen Nergis Dolcerocca, 2023-10-05 This book explores the conceptualization of time in early twentieth century literature and thought based on a transnational and translational model of literary history focusing on Turkish French and German literary traditions Each from different cultural backgrounds these modernists provide a radical critique of modern time regimes which calibrate time in singular temporal narratives The book traces the philosophical strand of this critical chronometry from Henri Bergson s theory of time through Walter Benjamin s ambivalence towards decay of tradition and finally to A H Tanp nar and Robert Walser s modernist fiction Negotiating regionally marked concepts and topoi of temporality it discusses

networks of cultural circulations and maps a revised intersection of Turkish and Western European literary histories It is an essential read for scholars and students of comparative and world literature modernist studies and cultural history **The Politics of Time** Peter Osborne,1995 If Aristotle sought to understand time through change might we not reverse the procedure and seek to understand change through time Once we do this argues Peter Osborne it soon becomes clear that ideas such as avant garde modern postmodern and tradition which are usually only treated as markers for empirically discrete periods movements or styles are best understood as categories of historical totalization More specifically Osborne claims such ideas involve distinct temporalizations of history giving rise to conflicting politics of time His book begins with a consideration of the main aspects of modernity and develops through a series of critical engagements with the major twentieth century positions in the philosophy of history He concludes with a fascinating history of the avant garde intervention into the temporality of everyday life in surrealism the situationists and the work of Henri Lefebvre

Approaches to Teaching the Works of C. P. Cavafy Peter Jeffreys, Demetres P. Tryphonopoulos, 2025-04-26 Known as a preeminent poet of queer male desire C P Cavafy lived most of his life as part of the Greek minority community in Alexandria Egypt He was inspired by the possibilities offered by peripheries whether sexual geographic or historical Volumes of his poems widely translated into English give anglophone readers access to his distinctive mixture of irony and tenderness directness and subtlety This volume will help instructors introduce students to Cavafy's works and explore them from many angles with the help of the extensive archives now available Essays address teaching Cavafy both as a poetic historian of the Hellenistic Roman and Byzantine worlds and through the lens of postcoloniality They also explore how he interpreted classical Greek works and how his work has been interpreted by composers poets and readers within and beyond Greece and the Greek diaspora Literary Modernism and Beyond Richard Lehan, 2012-01-09 Lehan has further widened his scope and deepened his insights with a sweeping study of modernism and postmodernism Literary Modernism provides an indispensable overview of literary creation and criticism over the past one hundred plus years It is an engrossing read as well as a useful research tool its index directing the reader to enlightening looks at particular writers and concepts in the context of their time and its tendencies Studies in American Naturalism In Literary Modernism and Beyond Richard Lehan tracks the evolution of modernism from its emergence in the late nineteenth century to its recent incarnations In his wide ranging study Lehan demonstrates how and why the originary vision of modernism changed radically after it gained prominence With critical discussions on a variety of modernist writers intellectuals and artists and their works including Virginia Woolf Gertrude Stein T S Eliot Wallace Stevens Andr Gide Franz Kafka Zora Neale Hurston Ian Fleming and J K Rowling Lehan examines the large scale changes that came about as critical authority moved from one generation to another Modernist Time Ecology Jesse Matz, 2018-12-03 A new view of the way modernist fiction writers tried to solve the problem of time Do our fictions transform time Do they cultivate the temporal environment Such was the hope or the fantasy at work in many

modernist novels for which time was not only the major subject but also an object of reparative aspiration. Aimed at a kind of stewardship of time, these fictions constitute a practice of modernist time ecology, an effort to restore those landscapes of time that have been thrown into crisis by modernity. In *Modernist Time Ecology*, Jesse Matz redefines temporal experimentation in central writers like Proust, Mann, Woolf, Ellison, and Cather, who developed literary forms to cultivate, restore, and enrich the temporal environment. He brings fresh attention to others who best exemplify this ecological motive, arguing that E. M. Forster, J. B. Priestley, and V. S. Naipaul are leading figures in this practice of temporal redress. Matz also reveals how contemporary film, social media movements, and public service efforts show what has become of the modernist interest in temporal stewardship. Matz combines an array of disciplines, including narrative theory, sociology, phenomenology, cognitive psychology, film studies, queer theory, and environmental studies, to theorize and explain the rationale and the limits to the idea that time might be subject to textual cultivation. *Modernist Time Ecology* is a deeply interdisciplinary book that changes what we think literature and the arts can do for the world at large.

Natural Resource Sovereignty and the Right to Development in Africa Carol Chi Ngang, Serges Djouyou Kamga, 2021-08-25 This book explores the nexus between natural resources ownership and the right to development in Africa. The right to sovereignty over natural resources and the right to development are recognised and protected in an extensive framework of international, regional, and domestic instruments. They guarantee people's entitlement to fully and freely utilise their natural resources as a means of subsistence and for economic, social, and cultural development. Yet, despite the abundance of natural resources in Africa, a majority of the people on the continent remain largely impoverished. This book articulates the central argument that to achieve the right to development in Africa requires appropriate governance of the

continent's natural resources to which the people of Africa are guaranteed sovereign ownership. With case study illustrations from Zimbabwe, Ghana, Ethiopia, and the Democratic Republic of Congo, chapters explore the normative measures, specific guarantees, and community entitlements to natural resources for the realisation of the right to development. The book will be an invaluable guide to scholars and postgraduate students of Natural Resources Development and African studies, as well as policymakers and practitioners in these areas.

Historical Turns Nicholas Baer, 2024-07-30. *Historical Turns* reassesses Weimar cinema in light of the crisis of historicism widely diagnosed by German philosophers in the early twentieth century. Through bold new analyses of five legendary works of German silent cinema: *The Cabinet of Dr. Caligari*, *Destiny*, *Rhythm 21*, *The Holy Mountain*, and *Metropolis*, Nicholas Baer argues that films of the Weimar Republic lent vivid expression to the crisis of historical thinking. With their experiments in cinematic form and style, these modernist films revealed the capacity of the medium to engage with fundamental questions about the philosophy of history. Reconstructing the debates over historicism that unfolded during the initial decades of moving image culture, *Historical Turns* proposes a more reflexive mode of historiography and expands the field of film and media philosophy. The book excavates a rich archive of ideas that illuminate our own moment of rapid media transformation and political, economic, and environmental crises around the globe.

The Past is the Present; It's the Future Too Christine Ross, 2012-06-28. The term temporality often refers to the traditional mode of the way time is a linear procession of past, present, and future. As philosophers will note, this is not always the case. Christine Ross builds on current philosophical and theoretical examinations of time and applies them to the field of contemporary art: films, video, installations, sculpture, and performance works. Ross first provides an interdisciplinary overview of contemporary studies on time, focusing on findings in philosophy, psychology, sociology, communications, history, postcolonial studies, and ecology. She then illustrates how contemporary artistic practices play around with what we consider linear time. Engaging the work of artists such as Guido van der Werve, Melik Ohanian, Harun Farocki, and Stan Douglas allows investigation through the art, as opposed to having art taking an ancillary role. *The Past is the Present; It's the Future Too* forces the reader to understand the complexities of the significance of temporal development in new artistic practices.

History, Memory, and State-Sponsored Violence Berber Bevernage, 2013-02-14. Modern historiography embraces the notion that time is irreversible, implying that the past should be imagined as something absent or distant. Victims of historical injustice, however, often claim that the past got stuck in the present and that it retains a haunting presence. *History, Memory, and State-Sponsored Violence* is centered around the provocative thesis that the way one deals with historical injustice and the ethics of history is strongly dependent on the way one conceives of historical time. That the concept of time traditionally used by historians is structurally more compatible with the perpetrators than the victims' point of view. Demonstrating that the claim of victims about the continuing presence of the past should be taken seriously instead of being treated as merely metaphorical, Berber Bevernage argues that a genuine understanding of the irrevocable past demands a radical break with

modern historical discourse and the concept of time By embedding a profound philosophical reflection on the themes of historical time and historical discourse in a concrete series of case studies this project transcends the traditional divide between empirical historiography on the one hand and the so called theoretical approaches to history on the other It also breaks with the conventional analytical philosophy of history that has been dominant during the last decades raising a series of long neglected big questions about the historical condition questions about historical time the unity of history and the ontological status of present and past programmatically pleading for a new historical ethics
