

A dramatic landscape featuring a jagged, dark mountain peak in the foreground. The sky is a vibrant mix of orange, red, and purple, suggesting a sunset or sunrise. The overall mood is somber and contemplative.

Politics and the fate of mankind are
formed by men without ideals and without
greatness. Those who have greatness
within them do not go in for politics.

Politics And Fate:

Politics and Fate Andrew Gamble, 2013-07-10 Politics was once regarded as an activity which could give human societies control over their fate. However, there is now a deep pessimism about the ability of human beings to control anything very much, least of all through politics. This new fatalism about the human condition claims that we are living in the iron cages erected by vast impersonal forces arising from globalization and technology, a society that is both anti-political and unpolitical, a society without hope or the means either to imagine or promote an alternative future. It reflects the disillusion of political hopes in liberal and socialist utopias in the twentieth century and a widespread disenchantment with the grand narratives of the Enlightenment about reason and progress and with modernity itself. The most characteristic expression of this disenchantment is the endless discourses on endism: the end of history, the end of ideology, the end of the nation-state, the end of authority, the end of government, the end of the public realm, the end of politics itself. All have been proclaimed in recent years. Andrew Gamble's new book argues against the fatalism implicit in so many of these discourses, as well as against the fatalism that has always been present in many of the central discourses of modernity. It sets out a defence of politics and the political, explains why we cannot do without politics, and probes the complex relationship between politics and fate and the continuing and necessary tension between them. This book will be essential reading for students and scholars of politics, public affairs, and political thought.

Why We Hate Politics Colin Hay, 2013-04-23 Politics was once a term with an array of broadly positive connotations associated with public scrutiny, deliberation, and accountability. Yet today it is an increasingly dirty word, typically synonymous with duplicity, corruption, inefficiency, and undue interference in matters both public and private. How has this come to pass? Why do we hate politics and politicians so much? How pervasive is the contemporary condition of political disaffection? And what is politics anyway? In this lively and original work, Colin Hay provides a series of innovative and provocative answers to these questions. He begins by tracing the origins and development of the current climate of political disenchantment across a broad range of established democracies. Far from revealing a rising tide of apathy, however, he shows that a significant proportion of those who have withdrawn from formal politics are engaged in other modes of political activity. He goes on to develop and defend a broad and inclusive conception of politics and the political that is far less formal, less state-centric, and less narrowly governmental than in most conventional accounts. By demonstrating how our expectations of politics and the political realities we witness are shaped decisively by the assumptions about human nature that we project onto political actors, Hay provides a powerful and highly distinctive account of contemporary political disenchantment. *Why We Hate Politics* will be essential reading for all those troubled by the contemporary political condition of the established democracies.

Literature and Politics in Cromwellian England Blair Worden, 2007-12-06 In this book the pre eminent historian of Cromwellian England takes a fresh approach to the literary biography of the two great poets of the Puritan Revolution John Milton and Andrew Marvell Blair Worden reconstructs the political contexts within which Milton and Marvell wrote and reassesses their writings against the background of volatile and dramatic changes of public mood and circumstance Two figures are shown to have been prominent in their minds First there is Oliver Cromwell on whose character and decisions the future of the Puritan Revolution and of the nation rested and whose ascent the two writers traced and assessed in both cases with an acute ambivalence The second is Marchamont Nedham the pioneering journalist of the civil wars a close friend of Milton and a man whose writings prove to be intimately linked to Marvell's The high achievements of Milton and Marvell are shown to belong to world of pressing political debate which Nedham's ephemeral publications helped to shape The book follows Marvell's transition from royalism to Cromwellianism In Milton's case we explore the profound effect on his outlook brought by the execution of King Charles I in 1649 his difficult and disillusioning relationship with the successive regimes of the Interregnum and his attempt to come to terms in his immortal poetry of the Restoration with the failure of Puritan rule

American Identity and the Politics of Multiculturalism Jack Citrin, David O. Sears, 2014-08-11 The civil rights movement and immigration reform transformed American politics in the mid 1960s Demographic diversity and identity politics raised the challenge of *e pluribus unum* anew and multiculturalism emerged as a new ideological response to this dilemma This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group conscious policies The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants They argue that there is a consensus in rejecting harder forms of multiculturalism that insist on group rights but also a widespread acceptance of softer forms that are tolerant of cultural differences and do not challenge norms such as by insisting on the primacy of English

Politics in the Vernacular Will Kymlicka, 2001-01-19 This volume brings together eighteen of Will Kymlicka's recent essays on nationalism multiculturalism and citizenship These essays expand on the well known theory of minority rights first developed in his *Multicultural Citizenship* In these new essays Kymlicka applies his theory to several pressing controversies regarding ethnic relations today responds to some of his critics and situates the debate over minority rights within the larger context of issues of nationalism democratic citizenship and globalization The essays are divided into four sections The first section summarizes the state of the debate over minority rights and explains how the debate has evolved over the past 15 years The second section explores the requirements of ethnocultural justice in a liberal democracy Kymlicka argues that the protection of individual human rights is insufficient to ensure justice between ethnocultural groups and that minority rights must supplement human rights In particular Kymlicka explores why some form of power sharing such as federalism is often required to ensure justice for national minorities why indigenous peoples have distinctive rights relating to economic development and environmental protection and why we need to define fairer terms of integration for immigrants The third section focuses on nationalism Kymlicka discusses some of the familiar misinterpretations and preconceptions which liberals have about nationalism and defends the need to recognize that there are genuinely liberal forms of nationalism He discusses the familiar but misleading contrast between cosmopolitanism and nationalism and discusses why liberals have gradually moved towards a position that combines elements of both The final section explores how these increasing demands by ethnic and national groups for minority rights affect the practice of democratic citizenship Kymlicka surveys recent theories of citizenship and raises questions about how they are challenged by ethnocultural diversity He emphasizes the importance of education as a site of conflict between demands for accommodating ethnocultural diversity and demands for promoting the common virtues and loyalties required by democratic citizenship And finally he explores the extent to which globalization requires us to think about citizenship in more global terms or whether citizenship will remain tied to national institutions and political processes Taken together these essays make a major contribution to enriching our understanding of the theory and practice of ethnocultural relations in Western democracies

The Politics of Being Richard Wolin, 2016-11-15 Martin Heidegger's ties to Nazism have tarnished his stature as one of the towering figures of twentieth century philosophy The publication of the Black Notebooks in 2014 which revealed the full extent of Heidegger's anti-Semitism and enduring sympathy for National Socialism only inflamed the controversy Richard Wolin's *The Politics of Being* The Political Thought of Martin Heidegger has played a seminal role in the international debate over the consequences of Heidegger's Nazism In this edition the author provides a new preface addressing the effect of the Black Notebooks on our understanding of the relationship between politics and philosophy in Heidegger's work Building on his pathbreaking interpretation of the philosopher's political thought Wolin demonstrates that philosophy and politics cannot be disentangled in Heidegger's oeuvre Völkisch ideological themes suffuse even his most sublime philosophical treatises Therefore despite Heidegger's profundity as a thinker his critique of civilization is saturated with disturbing anti-democratic and anti-Semitic leitmotifs and claims

Politics Is for Power Eitan Hersh, 2020-06-30 A groundbreaking analysis of political hobbyism treating politics like a spectator sport and an urgent and timely call to arms for the many well meaning well informed citizens who follow political news but do not take political action Do you consider yourself politically engaged Probably yes But are you really The uncomfortable truth is that most of us have good intentions We vote sometimes and occasionally sign a petition or attend a rally But we mainly engage by consuming politics as if it's entertainment or a hobby We obsessively follow the news and complain about the opposition to our friends or spouse We tweet and post and share The hours we spend on politics are used mainly as pastime Instead political scientist and data analyst Eitan Hersh offers convincing evidence that we should be spending the same number of hours building political organizations implementing a long term vision for our local communities and getting to know our neighbors whose votes will be needed for solving hard problems We could be accumulating power so that when there are opportunities to make a difference to lobby to advocate to mobilize we will be ready Aided by cutting edge social science as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously this book shows us how to channel our energy away from political hobbyism and toward empowering our values In an age of political turmoil and as the 2020 election looms *Politics Is for Power* is an inspiring vital read that will make you hopeful for America's democratic future

Leo Strauss, Max Weber, and the Scientific Study of Politics Nasser Behnegar,2021-08-27 Can politics be studied scientifically and if so how Assuming it is impossible to justify values by human reason alone social science has come to consider an unreflective relativism the only viable basis not only for its own operations but for liberal societies more generally Although the experience of the sixties has made social scientists more sensitive to the importance of values it has not led to a fundamental reexamination of value relativism which remains the basis of contemporary social science Almost three decades after Leo Strauss s death Nasser Behnegar offers the first sustained exposition of what Strauss was best known for his radical critique of contemporary social science and particularly of political science Behnegar s impressive book argues that Strauss was not against the scientific study of politics but he did reject the idea that it could be built upon political science s unexamined assumption of the distinction between facts and values Max Weber was for Strauss the most profound exponent of values relativism in social science and Behnegar s explication artfully illuminates Strauss s critique of Weber s belief in the ultimate insolubility of all value conflicts Strauss s polemic against contemporary political science was meant to make clear the contradiction between its claim of value free premises and its commitment to democratic principles As Behnegar ultimately shows values the ethical component lacking in a contemporary social science are essential to Strauss s project of constructing a genuinely scientific study of politics
