Politics in Zambia William Tordoff, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 [Politics in Zambia](#) William Tordoff, Robert V. Molteno, 1974 [Party Politics and Populism in Zambia](#) Sishuwa Sishuwa, 2024 Analysis of the political history of Zambia through a study of Michael Sata shows the importance of individual political leadership to the success of opposition parties in Africa *Zambia's Foreign Policy* Douglas G Anglin, 2021-12-12 This volume examines Zambia's role in the search for African independence unity and development particularly in the context of southern Africa It also analyses the problems of dependence and underdevelopment and their impact on foreign policymaking By concentrating on the key issues and major crises that confronted Zambia's decision makers during the nation's first years the authors explain the country's current preoccupations and future prospects Although their primary focus is on Zambia they also treat a range of substantive and theoretical issues *Zambia's Youths and the 2021 General Election* Emmanuel Matambo, 2025-02-15 In Zambia's Youths and the 2021 General Election Rescuing Democracy through Activism and Social Media Emmanuel Matambo examines democracy in Zambia and shows how Zambia's youth voters became the central focus during the 2021 election Matambo analyzes the importance of social media leading up to the election as well as the role of music youth protests and the youths influence on registered voters that allowed for the end of the Patriotic Front's PF decade in power Through interviews and qualitative data he highlights the outspokenness and activism of the youth and how they went above and beyond to ensure that the United Party for National Development UPND won the election Further this book argues that the large number of votes for the UPND during the election was not due to enthusiastic support from the voters but rather was a rejection of the PF and was support for the party that had the most chance of ousting the PF Matambo provides a detailed discussion of Zambia's 2021 election and reflects on the power of the youth vote [Democracy and Political Change in Sub-Saharan Africa](#) John A. Wiseman, 2002-11 The book provides readers a set of case studies covering a diverse range of African states in order to identify the major causes of change and the movement towards democracy

Kenya's and Zambia's Relations with China 1949-2019 Jodie Yuzhou Sun, 2023 Examines the history of post colonial Kenya's and Zambia's relations with the People's Republic of China from ideological political economic and social perspectives Africa has become a major platform from which to analyse and understand China's growing influence in the global South Yet the impact of their historical relationship has been largely overlooked Through the triangulation of the global Cold War African history and Chinese history this study provides a detailed analysis of China Africa relations in the second half of the 20th century Examining the encounters conflicts and dynamics of China Kenya Zambia relations from the

1950s until the present as well as the basis on which historical narratives have been constructed the book presents two contrasting state perspectives underlining the concept of African agency Driven by a class based analysis of world revolution Communist China s foreign policy did not distinguish significantly between Kenya and Zambia Both countries sought ideological and material support from China in the years after their independence The Kenya African National Union under both Jomo Kenyatta and Daniel Moi pursued a consistently pragmatic foreign agenda and despite political tensions and ideological rifts with China since the mid 1960s Sino Kenyan trade has continued to grow steadily In contrast China Zambia relations under Kenneth Kaunda were cordial despite their political differences Zambian leaders maintained a relatively high consensus that any alleged Chinese Communist threat would not be allowed to fuel power struggles within their United National Independence Party Challenging both the widely accepted role of China Africa s historical lineage as well as the tendency to assume uniformity in China s relationships across the continent the author explains the development of these relationships and sheds light on the historical underpinnings or lack thereof on contemporary China Africa relations

Zambia Marcia Burdette, 2021-12-12 This accessible case study offers a fully rounded picture of Zambia s course since independence chronicling the periods of boom and decline after the fall in the price of copper around the mid 1970s The author advocates an internally oriented economic strategy to retain industries and livelihoods and investigates the ability of the current leadership to achieve this **Political Opposition and Democracy in Sub-Saharan Africa** Elliott

Green, Johanna Söderström, Emil Uddhammar, 2016-04-08 This book takes a closer look at the role and meaning of political opposition for the development of democracy across sub Saharan Africa Why is room for political opposition in most cases so severely limited Under what circumstances has the political opposition been able to establish itself in a legitimate role in African politics To answer these questions this edited volume focuses on the institutional settings the nature and dynamics within and between political parties and the relationship between the citizens and political parties It is found that regional devolution and federalist structures enable political opposition to organize and gain local power as a supplement to influence at the central level Generally however opposition parties are lacking in organization and institutionalization as well as in their ability to find support in civil society and promote the issues that voters find most important Overall strong executive powers unchecked by democratic institutions in combination with deferential values and fear of conflict undermine legitimate opposition activity This book was originally published as a special issue of Democratization *Adventures in Zambian*

Politics Guy Scott, 2019 Pockets of Effectiveness and the Politics of State-Building and Development in Africa Sam Hickey, 2023 This book shows that politics is the driving factor that shapes how well state agencies perform their roles It deploys a new conceptual framework the power domains approach to explore the shifting fortunes of key state agencies in five countries Ghana Kenya Rwanda Uganda and Zambia over the past three decades A Small State's Guide to Influence in World Politics Tom Long, Thomas Stephen Long, 2022 A complete guide for how small states can be strikingly successful

and influential if they assess their situations and adapt their strategies Small states are crucial actors in world politics Yet they have been relegated to a second tier of International Relations scholarship In *A Small State's Guide to Influence in World Politics* Tom Long shows how small states can identify opportunities and shape effective strategies to achieve their foreign policy goals To do so Long puts small states relationships at the center of his approach Although small states are defined by their position as materially weaker actors vis a vis large states Long argues that this condition does not condemn them to impotence or irrelevance Drawing on typological theory Long builds an explanation of when and how small states might achieve their goals The book assesses a global range of cases both successes and failures and offers a set of tools for scholars and policymakers to understand how varying international conditions shape small states opportunities for influence

Political Power and Colonial Development in British Central Africa 1938-1960s Alan Cousins, 2022-12-30 This book focuses on the late colonial history of Zambia and Malawi which between 1953 and 1963 were part of the Federation of Rhodesia and Nyasaland Although there were many links in their history and between their populations the two territories British protectorates under Colonial Office control contrasted greatly in power structures in their economies and in their development Europeans living in Northern Rhodesia with a power base in the mining economy were able to establish a dominant position in the territory after the Second World War By the 1950s it looked as though they would have with Southern Rhodesian Europeans a long hegemony gaining independence from Britain as a new Dominion which would mean control over both Northern Rhodesia and Nyasaland through the Federation Thus white ethnicity and ideology are essential factors in this book relating to the struggle for power from just before the Second World War up to the 1960s However crises in 1959 and 1960 led to the collapse of the Federation A second focus is on issues of social and economic development For Africans in Nyasaland and in rural parts of Northern Rhodesia there was a relatively weak economy in this period a pattern of limited cash crop production while many people became caught up in labour migration subordinate to powerful European dominated economic forces within southern Africa This meant that colonial policies aimed at rural development were fundamentally flawed The book also looks at the actual nature of rural economic change as opposed to colonial policies and discusses alternative visions of the future which were put forward The argument is put that historians have often concentrated on the activities of the main nationalist movements in Nyasaland and Northern Rhodesia seeing them as bringing progress away from colonialism and towards independence Here there is an attempt to draw out the complexities of life and a variety of responses in the colonial situation progress coming in a number of forms but not always being achieved
