## Politics Of Belief In Nineteenth Century France:

*POLITICS OF BELIEF* PHILIP. Spencer, 1966      **Politics of Belief in Nineteenth-century France: Lacordaire, Michon, Veuillot** Philip Herbert Spencer, 1973      Languages of Belief and Early Sociology in Nineteenth-Century France Michiel Van Dam, 2024-09-27 This book presents a new reading of the history of French social science and religion through an investigation of early sociology's techniques for narrating the category of belief. The author argues that by looking at the history of social sciences in this manner we gain a deeper understanding of both our present debates on post-secularity as well as our modernist past, both of which were thoroughly shaped by their reflections and critiques on the notion of belief yet failed to enter into any sort of meaningful communication with each other. This book seeks to rectify this failure by introducing the concept of belief languages, an anthropological framework designed to historicize different discussions on belief and allow for their comparative description and analysis.

**Political Belief in France, 1927-1945** Caroline Campbell, 2015-12-09 In the inter-war era, the rise of the largest political movement in modern French history, the powerful Croix de Feu (1927-1936) and its successor, the Parti Social Français or PSF (1936-1945), led to a sharp rightward turn in France's political culture. *Political Belief in France, 1927-1945* traces the central role of women in this shift, arguing that they transformed the Croix de Feu/PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics, society, and culture of the French Republic. Following the creation of a Women's Section in 1934, the women of the Croix de Feu/PSF developed a wide array of social programs, including welfare services, youth development, and health care initiatives. At a time of economic depression and high unemployment, these popular programs tempered the organization's fearsome reputation as a violent paramilitary group. While the efforts of the Women's Section had the veneer of moderation, they accentuated the long-standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethno-religious backgrounds into the dominant national community. Croix de Feu/PSF women promoted their social agenda as a religious and patriotic duty, a reflection of the individual's responsibility to make personal sacrifices on behalf of their vision for France's Christian civilization. The Croix de Feu/PSF's ethno-religious nationalism circulated throughout the French imperial nation-state, making the movement the premier defender of an empire at the height of its power. But women in North African branches faced substantial marginalization, and the movement remained dangerously sectarian in the Maghreb, driving indigenous activists from reformism to anticolonialism. The Croix de Feu/PSF thus set the stage for both the authoritarian anti-Semitic Vichy regime and the decolonization that followed the war. The first book on women of the French far right in the age of fascism, *Political Belief in France, 1927-1945* contributes to the fields of French history, gender studies, the history of fascism, and the history of empire.

Religion, Society and Politics in France since 1789 Frank Tallett, 1991-07-01 This book has been carefully planned to give a coherent account of the impact of religion in France over the last two hundred years. Most books in English dealing with the subject are now dated, and in any case

concentrate on institutional questions of church state relations rather than on the wider influence of religion throughout France These essays summarise recent French research and provide a concise up to date introduction to the history of modern French Catholicism **Routledge Library Editions: 19th Century Religion** Various Authors,2021-07-09 Reissuing works originally published between 1973 and 1997 Routledge Library Editions 19th Century Religion 18 volumes offers a selection of scholarship covering historical developments in religious thinking Topics include the origin of Catholicism in America sexual liberation and religion in Europe and the emergence of Atheism in Victorian England This set also includes collections of sermons and essays from some of the most influential preachers of the nineteenth century

*Political Belief in France, 1927-1945* Barry Hannah,1995-03-01 *Populist Religion and Left-Wing Politics in France, 1830-1852* Edward Berenson,2014-07-14 Examining the democratic socialist politics of the Second Republic Edward Berenson delves into the largely unexplored content of the Montagnards ideology and traces its diffusion and reception in the populist religious culture of rural France This book shows how the urbanbased Montagnards were able to appeal to rural Frenchmen by advocating doctrines grounded in the ideals and morality of early Christianity Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Modern Catholic Social Teaching Kenneth R. Himes,2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s *Rerum Novarum* The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical *Caritas in Veritate* and one on Pope Francis s encyclical *Laudato Si* An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching

*Politics of Belief in Nineteenth-century France* Philip Spencer,1973 *Romantic Catholics* Carol E. Harrison,2014-02-05 In this well written and imaginatively structured book Carol E Harrison brings to life a cohort of nineteenth century French men and women who argued that a reformed Catholicism could reconcile the divisions in French culture and society that were the legacy of revolution and empire They include most prominently Charles de Montalembert Pauline Craven Am lie and

Frédéric Ozanam, Louis de Guérin and Victorine Monniot. The men and women whose stories appear in *Romantic Catholics* were bound together by filial love, friendship and in some cases marriage. Harrison draws on their diaries, letters and published works to construct a portrait of a generation linked by a determination to live their faith in a modern world. Rejecting both the atomizing force of revolutionary liberalism and the increasing intransigence of the church hierarchy, the romantic Catholics advocated a middle way in which a revitalized Catholic faith and liberty formed the basis for modern society. Harrison traces the history of nineteenth century France and in parallel the life course of these individuals as they grow up, learn independence and take on the responsibilities and disappointments of adulthood. Although the shared goals of the romantic Catholics were never realized in French politics and culture, Harrison's work offers a significant corrective to the traditional understanding of the opposition between religion and the secular republican tradition in France.

**Funerary Arts and Tomb Cult** Suzanne Glover Lindsay, 2017-07-05. Even before the upheaval of the Revolution, France sought a new formal language for a regenerated nation. Nowhere is this clearer than in its tombs, some among its most famous modern sculpture rarely discussed as funerary projects. Unlike other art historical studies of tombs, this one frames sculptural examples within the full spectrum of the material funerary arts of the period, along with architecture and landscape. This book further widens the standard scope to shed new and needed light on the interplay of the funerary arts, tomb cult and the mentalities that shaped them in France over a period famous for profound and often violent change. Suzanne Glover Lindsay also brings the abundant recent work on the body to the funerary arts and tomb cult for the first time, confronting cultural and aesthetic issues through her examination of a celebrated sculptural type, the recumbent effigy of the deceased in death. Using many unfamiliar period sources, this study reinterprets several famous tombs and funerals and introduces significant enterprises that are little known today to suggest the prominent place held by tomb cult in nineteenth century France. Images of the tombs complement the text to underline sculpture's unique formal power in funerary mode.
