Chicano Politics Juan Gómez-Quíñones, 1990-07 How a new style of politics coalesced into an ethnic populism known as the Chicano movement *Latinos and Politics* F. Chris Garcia, 1991 Chicano Studies Michael Soldatenko, 2012-11-01 Chicano Studies is a comparatively new academic discipline Unlike well established fields of study that long ago codified their canons and curricula the departments of Chicano Studies that exist today on U S college and university campuses are less than four decades old In this edifying and frequently eye opening book a career member of the discipline examines its foundations and early years Based on an extraordinary range of sources and cognizant of infighting and the importance of personalities Chicano Studies is the first history of the discipline What are the assumptions models theories and practices of the academic discipline now known as Chicano Studies Like most scholars working in the field Michael Soldatenko didn't know the answers to these questions even though he had been teaching for many years Intensely curious he set out to find the answers and this book is the result of his labors Here readers will discover how the discipline came into existence in the late 1960s and how it matured during the next fifteen years from an often confrontational protest of dissatisfied Chicana o college students into a univocal scholarly voice or so it appears to outsiders Part intellectual history part social criticism and part personal meditation Chicano Studies attempts to make sense of the collision and occasional

wreckage of politics culture scholarship ideology and philosophy that created a new academic discipline Along the way it identifies a remarkable cast of scholars and administrators who added considerable zest to the drama *The Subaltern Speak* Michael W. Apple, Kristen L. Buras, 2013-01-11 The question of whose perspective experience and history is privileged in educational institutions has shaped curriculum debates for decades In this insightful collection Michael W Apple and Kristen L Buras interrogate the notion that some knowledge is worth more than others *The Subaltern Speak* combines an analysis of the ways in which various forms of power now operate with a specific focus on spaces in which subaltern groups act to reassert their own perceived identities cultures and histories *Mexicano and Latino Politics and the Quest for Self-Determination* Armando Navarro, 2015-01-08 This book examines the current status of Mexicano and Latino politics in the United States Political scientist and community activist Armando Navarro maintains that both represent a dysfunctional and failed mode of politics attributable to their system maintenance and mainstream ideological orientation and approach As colonial agents they protect both a United States that is decaying and declining and the degenerative liberal capitalist system Navarro argues that the United States is not a representative democracy but in fact is a White Corpocratic Dictatorship controlled by Capital which is evolving into a Fascist State The book provides an in depth analysis and contention that Mexicanos and Latinos in Aztlan Southwest are an occupied and internal colonized people It argues they are the Palestinians and Kurds of the United States His supposition is sustained by the book's profiles of Mexicano political history demography socioeconomics electoral politics immigration and the Triad Crisis e g Second Great Depression Global Economic Crisis and Global Capitalist Crisis Each chapter provides the justification and case for Navarro's two unique alternative change models applicable to today's bankrupt and failed Mexicano and Latino Politics in the twenty first century The preferred model is Aztlan's Politics of a Nation Within a Nation APNWN which is based on the models of the Mormon Nation of Utah and that of French Quebec Navarro therefore calls for the reformation of the United States liberal capitalist system by way of social democracy for the empowerment of Mexicanos and Latinos His second model is Aztlan's Politics of Separatism APS which offers two strategic options 1 Aztlan Southwest becoming a separate and sovereign nation state or 2 its reannexation and reintegration with Mexico Navarro outlines a plan of action for building a New Movement designed to attain APNWN or APS In addition several ominous forecasts are made such as the United States being in a state of decline and no longer a hegemonic superpower due to the rise of a multi polar world Moreover Navarro attributes the United States decline to the inherent contradictions of global capitalism His sobering message is that if the current economic conditions are left unchanged this will produce an End of Times scenario the unleashing of the Four Horsemen of the Apocalypse *Chicano! White Mythologies Robert J.C. Young, 2004-07-31 We must now argue get back to history but which one History has always been a problematical concept in Western theory particularly for Marxism In the wake of postmodernism its status has become ever less certain Is it possible to write history that avoids the trap of Eurocentrism Robert Young's investigation of the history of History from Hegel and Marx to Althusser and Foucault calls into question the Eurocentrism of traditional Marxist accounts of a single World History in which as he shows the Third World appears as an unassimilable excess surplus to the narrative of the West Young goes on to consider recent questionings of the limits of Western knowledge He argues that the efforts of Edward Said Gayatri Chakravorty Spivak and Homi Bhabha to formulate non historicist ways of thinking and writing history are part of a larger project of a decolonisation of History and a deconstruction of the West
