Performative Contradiction and the Romanian Revolution Jolan Bogdan, 2017-03-29 The Romanian Revolution of 1989 ended 42 years of Communist rule It was the bloodiest revolution in a Warsaw Pact country culminating in the overthrow and execution of Nicolae Ceaușescu However there was no major democratic reform and power remained in the hands of key figures from the old regime This has led many theorists to question the authenticity of the entire revolution *Performative Contradiction and the Romanian Revolution* focuses in on the circumstances which led to these accusations It argues that the notion of an authentic revolution as a conceptual paradigm is neither a sufficient appropriate nor useful tool for an analysis of the events in Romania Engaging with the work of theorists including Stiegler Agamben Baudrillard Badiou

Spinoza and Derrida it argues that performative contradiction is a more useful theoretical model for exploring this event Applying the concept to specific cases within the revolution the book demonstrates the power of performative contradiction as an analytic tool Gender Politics and Everyday Life in State Socialist Eastern and Central Europe S. from the perspective of the 21st century this book shows how Eastern Europe's trajectory since 1989 fits into the longer history of its Communist past. Rather than focusing on high politics, Communism in Eastern Europe concentrates on the politics of daily life, melding political history with social, cultural, and gender history. It tells the history of this complicated era through the voices and experiences of ordinary people. By focusing on the complex interactions of everyday life, Communism in Eastern Europe illuminates the world Communism made in Eastern Europe: its politics, its culture, its values, and its dreams, successes, and failures. This book is an engaging introduction to the history of Communist Eastern Europe for any reader. It is ideal for adoption in a wide array of undergraduate and graduate courses in 20th-century European history.

The Politics of Abolition Revisited Thomas Mathiesen, 2014-08-21. Originally published in 1974 and the recipient of the Denis Carroll Book Prize at the World Congress of the International Criminology Society in 1978, Thomas Mathiesen's *The Politics of Abolition* is a landmark text in critical criminology. In its examination of Scandinavian penal policy and call for the abolition of prisons, this book was enormously influential across Europe and beyond among criminologists, sociologists, and legal scholars, as well as advocates of prisoners' rights. Forty years on, and in the context of mass incarceration in many parts of the world, this book remains relevant to a new generation of penal scholars. This new edition includes a new introduction from the author, as well as an afterword that collects contributions from leading criminologists and inmates from Germany, England, Norway, and the United States to reflect on the development and current state of the academic literature on penal abolition. This book will be suitable for academics and students of criminology and sociology, as well as those studying political science. It will also be of great interest to those who read the original book and are looking for new insights into an issue that is still as important and topical today as it was forty years ago.

Reiner Schürmann and the Poetics of Politics Christopher Long, 2018. Reiner Schürmann's thinking is, as he himself would say, riveted to a monstrous site. It remains focused on and situated between natality and mortality, the ultimate traits that condition human life. This book traces the contours of Schürmann's thinking in his magnum opus *BROKEN HEGEMONIES* in order to uncover the possibility of a politics that resists the hegemonic tendency to posit principles that set the world and our relationships with one another into violent order. Long's book follows in the footsteps of Oedipus, who in abject recognition of his finitude stumbles upon the possibility of another politics with the help of his daughters at Colonus. The path toward this other, collaboratively created and thus poetic politics begins with an encounter with Aristotle, a thinker whom Schürmann most frequently read as the founder of hegemonic metaphysics, but whose thinking reveals itself as alive to beginnings in ways that open new possibility for human community. This return to beginnings leads in turn to Plotinus, whom Schürmann reads as marking the destitution of the ancient hegemony of the Parmenidean principle of the One. By bringing Schürmann's innovative and compelling reading of René Char's poem *The Shark and the Gull* into dialogue with Plotinus, we come to encounter the power of symbols to transform reality and open us to new constellations of possible community. In Plotinus, where we expected to encounter an

end we experience a new way of thinking natality in terms of what comes to language in Char as the nuptial Having thus been awakened to the power of symbols we are prepared to experience how in Kant being itself comes to expression as plurivocal in a way that reveals just how pathologically delusional it is to attempt to deploy univocal principles in a plurivocal world This opens us to what Schurmann calls the singularization to come a formulation that gestures to a mode of comportment at home in the ravaged site between natality and mortality This then returns us to Oedipus at Colonus but not to him alone Rather it points to the relationship that emerges for a time between Antigone Ismene and Oedipus as they navigate a way between their exile from Thebes and Oedipus's final resting place near Athens Here having been awakened to the power of a poetic politics we attend to three symbolic moments of touching between Oedipus and his daughters through which we might discern something of the new possibilities a poetic politics opens for us if we settle into the ravaged site that conditions our existence together

Susan Glaspell's Poetics and Politics of Rebellion Emeline Jouve, 2017-07-01 A pioneer of American modern drama and founding member of the Provincetown Players Susan Glaspell 1876-1948 wrote plays of a kind that Robert Brustein defines as a drama of revolt an expression of the dramatists' discontent with the prevailing social political and artistic order Her works display her determination to put an end to the alienating norms that in her eyes and those of her bohemian peers were stifling American society This determination both to denounce infringements on individual rights and to reform American life through the theatre shapes the political dimension of her drama of revolt Analyzing plays from the early *Trifles* 1916 through *Springs Eternal* 1943 and the undated incomplete *Wings* author Emeline Jouve illustrates the way that Glaspell's dramas addressed issues of sexism the impact of World War I on American values and the relationship between individuals and their communities among other concerns Jouve argues that Glaspell turns the playhouse into a courthouse putting the hypocrisy of American democracy on trial In staging rebels fighting for their rights in fictional worlds that reflect her audience's extradiegetic reality she explores the strategies available to individuals to free themselves from oppression Her works envisage a better future for both her fictive insurgents and her spectators whom she encourages to consider which modes of revolt are appropriate and effective for improving the society they live in The playwright defines social reform in terms of collaboration which she views as an alternative to the dominant alienating social and political structures Not simply accusing but proposing solutions in her plays she wrote dramas that enacted a positive revolt A must for students of Glaspell and her contemporaries as well as scholars of American theatre and literature of the first half of the twentieth century
