Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti

democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

American War Machine Peter Dale Scott, 2010-11-16 This provocative thoroughly researched book explores the covert aspects of U S foreign policy Prominent political analyst Peter Dale Scott marshals compelling evidence to expose the extensive growth of sanctioned but illicit violence in politics and state affairs especially when related to America s long standing involvement with the global drug traffic Beginning with Thailand in the 1950s Americans have become inured to the CIA s alliances with drug traffickers and their bankers to install and sustain right wing governments The pattern has repeated itself in Laos Vietnam Italy Mexico Thailand Nigeria Venezuela Colombia Peru Chile Panama Honduras Turkey Pakistan and now Afghanistan to name only those countries dealt with in this book Scott shows that the relationship of U S intelligence operators and agencies to the global drug traffic and to other international criminal networks deserves greater attention in the debate over the U S presence in Afghanistan To date America s government and policies have done more to foster than to curtail the drug trade The so called war on terror and in particular the war in Afghanistan constitutes only the latest chapter in this disturbing story
